NON-UNION 401(K) PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

DESCRIPTION OF PLAN

The following brief description of the National Electric Coil, Inc. Non-Union 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General - The Plan is a defined contribution retirement plan sponsored by National Electric Coil, Inc. (the Plan Sponsor). The Plan covers substantially all non-union employees of National Electric Coil and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - An employee shall be eligible to participate in the Plan on the entry date (if employed) coincident with the date of completion of one half (1/2) year of service.

Contributions - To participate in the Plan, an eligible employee must enter into a contribution agreement with the employer authorizing the employer to deduct and withhold from such employee's compensation a specified amount, or percentage thereof, ranging from 1% to 25%, and to contribute such amount to the employee's account in the Plan. Effective January 1, 2006, the Plan was amended to include, among other changes, an option for participants to irrevocably designate contributions as "Roth 401(k) deferrals." Such deferrals are contributions made from the after tax income of the participant and are accounted for separately under the Plan.

The Plan Sponsor makes discretionary matching contributions in an amount not to exceed 20% of each participant's first 10% of compensation contributed as elective deferrals for the Plan year. The Plan Sponsor may also make discretionary profit sharing contributions based on eligible participant compensation. The amount of the profit sharing contribution is based on a percentage that is approved by the Board of Directors. Participants direct these contributions among a choice of investment options.

In accordance with Section 401(k) of the Internal Revenue Code, all amounts withheld from compensation and contributed to a participant's account, up to the maximum allowed, (except for Roth deferrals) shall be excluded from gross income of the participant for federal income tax purposes.

Vesting - Participants are immediately vested in their elective deferrals and actual earnings thereon. Participants vest in the employer contributions in accordance with the following schedule:

20%	after 1 year of vesting service
40%	after 2 years of vesting service
60%	after 3 years of vesting service
80%	after 4 years of vesting service
100%	after 5 years of vesting service

Investment Options - Upon enrollment in the Plan, a participant may direct contributions in a variety of investment options selected and monitored by the Trustees. Participants may change their investment options at any time.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Plan Sponsor's contribution, (b) Plan earnings, and (c) an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as provided in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS - Continued

December 31, 2014 and 2013

DESCRIPTION OF PLAN - Continued

Notes Receivable from Participants – Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their account balance up to a maximum of five years. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined by the Plan Administrator.

Payment of Benefits – Upon termination, participants may receive the vested portion of their account as a distribution in the form of a lump sum payment, or elect to remain a non-contributing participant in the Plan. A participant's account shall be payable to him or her, or in the event of death to a beneficiary, upon the earlier of disability, termination of employment or retirement date. Retirement date is upon attainment of age 65 or age 55 with at least five years of service. Hardship withdrawals may be made for an immediate and heavy financial need of the participant as defined in the Plan agreement.

Plan Amendments or Terminations – National Electric Coil, Inc. reserves the right at any time to amend or terminate the Plan, provided that no such amendment or termination shall have the effect of giving National Electric Coil, Inc. any right, or of reducing the rights of any participant, in the funds then held by the custodian. No amendment to the Plan shall have the effect of eliminating or reducing a retirement benefit, or eliminating an optional form of benefit with respect to benefits attributable to service before the amendment.

Administrative Fees and Expenses – The Plan Sponsor absorbs or reimburses the Plan for the majority of administrative fees and expenses. Fees of \$1,270 and \$3,432 were paid by the Plan in 2014 and 2013, respectively.

Forfeitures – Forfeitures are used to offset future employer matching contributions or to offset administrative fees. Employer contributions of \$3,626 and fees of \$1,270 were offset by forfeitures during 2014 (fees of \$3,432 during 2013). During the years ended December 31, 2014 and 2013, forfeitures of \$6,591 and \$2,232, respectively, were added to the forfeiture account leaving a balance in the forfeitures account of \$2,827 and \$1,132 at December 31, 2014 and 2013, respectively.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Following are the significant accounting policies adopted by the Plan and used in the preparation of these financial statements:

Use of Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on the Plan Administrator's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Risks and Uncertainties - The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events – Subsequent events were evaluated through October 9, 2015, which is the date the financial statements were available to be issued.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Notes Receivable from Participants – Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest.

Investment Valuation and Income Recognition - Investments are recorded at fair value based upon quoted market prices at year end. Income from investments is recorded as earned on the accrual basis of accounting. Cost of investments is determined using the average cost basis and is used when determining realized gains and losses upon disposition.

As described in ASC 962-325-05, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. No adjustment has been made to the Stable Value Fund since the difference between the fair value and contract value was not significant.

Contributions - Contributions are recorded as earned on the accrual basis when withheld from the participant's earnings and when contributions are allocated by the Plan Sponsor.

Payment of Benefits - Benefits are recorded when paid.

INCOME TAX STATUS

In its most recent determination letter, dated November 19, 2001, the Internal Revenue Service informed the Plan Administrator and Plan Sponsor that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. The Plan Administrator and trustees are not aware of any provision, action or event that has occurred that might affect the Plan's qualified status.

The Plan complies with ASC 740-10 related to uncertain tax positions. This standard prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken on a tax return. Plan Administration is not aware of any tax positions taken by the Plan that it considers to be uncertain. Tax returns for the years ended 2011, 2012, and 2013 are open and subject to examination by the Internal Revenue Service.

REPORTABLE TRANSACTIONS

The Plan's assets are participant-directed, and thus, the schedule of reportable transactions is not required.

PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by the Plan's investment advisor, as is customary in retirement plans. FasCore serves as third party administrator for the Plan and Balestra, Harr & Scherer, CPAs serves as the Plan auditors. As a result, transactions with these parties qualify as party-in-interest transactions.

The Plan maintains a fully benefit-responsive investment contract (Stable Value Fund) with Goldman Sachs Asset Management (previously a similar fund held by Fifth Third Bank through September 27, 2013). As described in SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract, which approximates fair value. value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Goldman Sachs Stable Value Fund had a crediting interest rate of 1.37% and 1.68% for the years ended December 31, 2014 and 2013, respectively. The crediting interest rate is adjusted quarterly. Certain events may limit the ability of the Plan to transact at contract value with the issuer. However, the Plan administration does not believe that the occurrence of any such event is probable.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. The Plan Administrator does not believe that any such events are probable of occurring.

RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Differences between the audited financial statements and the information on the Form 5500 related to the timing of recording certain transactions to reflect the accrual basis of accounting and the different classification of certain items of investment income which were insignificant. The Plan's financial statements included employee and employer contributions of \$424,509 not reflected on the Form 5500 for 2014. The Plan Sponsor indicated the 2014 receivables will be included in contributions in the 2015 Form 5500. The 2013 contributions receivable are included in the 2014 Form 5500.

FAIR VALUE MEASUREMENTS

The Plan complies with ASC 820 *Fair Value Measurements and Disclosures* to account for and report fair value. ASC 820 provides a single definition of fair value, a framework for measuring fair value and expanded disclosures concerning fair value. It also defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Fair value of certain assets and liabilities are determined based on the fair value hierarchy established in the standard, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The standard describes three levels within its hierarchy that may be used to measure fair value which are:

Level 1 - Values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - Values are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Values are generated from unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities. These unobservable inputs would reflect management's estimates of assumptions that market participants would use in pricing related assets or liabilities. Valuation techniques might include the use of pricing models, discounted cash flow models or similar techniques.

FAIR VALUE MEASUREMENTS - Continued

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The methods used may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>At December 31, 2014:</u>

Total	<u>\$ 9,130,707</u>	<u>\$ 1,616,887</u>	<u>\$ -</u>	<u>\$ 10,747,594</u>

Debt, equity, and balanced mutual funds are publicly traded and their fair value represents the closing price or net asset value from published sources as of December 31, 2014 and 2013. As a result, these items and cash and certain cash equivalents are listed as Level 1. Money market funds, also included in cash equivalents above, are listed as Level 2 and their value is based on the values of the underlying securities held by the funds. The Stable Value Fund invests in units of collective trust funds and short-term investment funds and are valued at their respective net asset values as published daily and/or values based on the contractual terms of the underlying assets which may include discounting cash flows.
