Description of plan:

General: Kretek International Inc. and Subsidiaries, (the Company) is the sponsor of the Kretek International, Inc. 401(K) Profit Sharing Plan (the Plan). The Plan is a defined contribution plan covering all full-time employees of the Company who have at least three months of service and are age twenty-one or older. They are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the respective Plan agreement for a more complete description of each Plan's provisions.

Contributions: Participants may contribute up to 92% (including catch-up contributions) of pretax annual compensation up to the current statutory limits as defined by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Company has the option of making discretionary matching contributions but has not elected to do so.

Participant accounts: Participant accounts are credited with the participant's contribution, an allocation of plan earnings, and charged with an allocation of administrative expenses not paid for by the Company. Allocations are based on participant account balances. A participant is entitled to the vested portion of the participant's account.

Matching: The Plan provides for a discretionary employer match and includes a 3% safe harbor provision. In 2014, the Company matched 50% of each participant's contribution up to $5,000 resulting in a match of $267,841.

Vesting: Participants are immediately vested in their voluntary contributions. If the Company had a matching contribution it would be subject to the following vesting schedule. Vesting is based on years of continuous service as follows:

Years of service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants: Participants may borrow from their account, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms generally range from one to five years or up to 30 years for the purchase of a principal residence. Loans bear interest at prime plus 1%. Principal and interest is paid ratably through bi-monthly payroll deductions. The interest received during 2014 was $2,461.

Payment of benefits: On termination of employment a participant may receive a lump sum distribution or an annuity as described in the Plan agreement. Hardship distributions are allowed.

Notes to Financial Statements (continued)

Description of plan (continued):

Benefit claims payable:

There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at December 31, 2014.

At December 31, 2014, approximately $109,293 in plan benefits are applicable to persons who no longer participate in the Plan. Amounts allocated to accounts of persons who have withdrawn from participation in the Plan is included in the net assets available for benefits.

Forfeited accounts:

Forfeitures (if any) may be used to reduce the plan expenses and then to the employer discretionary contribution. There were no forfeitures during the year ended December 31, 2014.

Plan expenses:

To the extent that administrative expenses are not paid by the Plan sponsor, they may be reductions of plan assets allocated to participant accounts in accordance with their proportionate accumulated balance. Fees relating to distributions and participant loan processing are paid from the individual participant's account.

Benefit payments

Benefit payments are recorded when paid.

Summary of significant accounting policies:

Basis of accounting:

The Plan's financial statements are prepared using the accrual method of accounting. Benefits are recorded when paid.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Plan termination:

Although it has not expressed intent to do so, the Company has the right under the Plan to terminate it at any time subject to the provisions of ERISA. In the event of a plan termination, participants would become fully vested in their employer contributions, if any.

Tax status:

The Plan utilizes a prototype plan document and relies on the opinion letter to the prototype document sponsor. The prototype document sponsor received an opinion letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since the prototype document sponsor received the opinion letter and is waiting for an updated determination letter. However, the Company believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is exempt as of December 31, 2014. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Notes to Financial Statements (continued)

Summary of significant accounting policies (continued):

Tax status (continued):

Therefore, no provision for income taxes has been included in the Plan's financial statements. Disclosure or accrual of uncertain tax positions is not required when it is more likely than not that the plan is entitled to the economic benefits resulting from the positions taken in income tax returns. The plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

Investment valuation and income recognition:

The Plan's investments are reported at fair value which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investments:

The fair values of individual investments that represent 5% or more of the Plan's assets, are as follows:

December 31,	**2014**		2013

Other funds	(339)
Net change in fair value	$ 91,118

Notes to Financial Statements (continued)

Fair value Measurements:

The Financial Accounting Standards Board issued Fair Value Measurements which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1:

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2:

Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3:

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair value of Investments:

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2014.

Mutual funds are stated at fair value as determined by quoted market prices, which represent the net asset value.

Common collective trusts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements (continued)

Fair value of investments (continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

December 31, 2014	Level 1	Level 2	Level 3	Total

	$ 202,380	$ 304,670

Notes to Financial Statements (continued)

Guaranteed investment contract with Principal Trust Company:

The Plan has a fully benefit-responsive investment contract with Principal Trust Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $202,380 and $304,670, respectively. The crediting interest rate is based on a formula agreed upon by the issuer, but it may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

As described above, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract value approximates the fair market value at year end.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The average yields for 2014 based on actual earnings were 2.0% and the interest rate credited to participant accounts was 1.35%.

There is 5% surrender for early withdrawal from the contract.

Information certified as complete and accurate by custodian (unaudited):

The following information in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the Principal Trust Company, the custodian of the Plan, and was not audited.

Information included in the statement of net assets available for benefits:

December 31,	**2014**	2013
Mutual funds	**$ 797,110**	$ 689,144
Common collective trusts	**2,233,216**	1,558,361
Guaranteed investment contract	**202,380**	304,670

Notes to Financial Statements (continued)

Information certified as complete and accurate by custodian (unaudited) (continued):

Information included in the statement of changes in net assets available for benefits:

Year-ended December 31,	2014
Realized gain on investments	$ 9,487
Net appreciation in fair value of investments	91,118
Interest and dividend income	49,184
Administration fees	(1,720)

Related party and party in interest transactions:

Certain plan investments are shares of mutual funds managed by the Principal Trust Company, the trustee of the Plan, and therefore, these transactions qualify as party in interest transactions. These party in interest transactions are exempt from the prohibited transaction rules of ERISA. Participant loans qualify as party in interest transactions and are also exempt from the prohibited transaction rules of ERISA (see related footnote for notes receivable from participants for additional information).

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent events:

The Plan evaluates events and transactions occurring subsequent to the date of the combined financial statements for matters requiring recognition or disclosure in the combined financial statements. The accompanying combined financial statements considered events through October 12, 2015, which is the date the financial statements were available for release.

During the first quarter of 2015, the Plan sponsor transferred the Plan assets to a new asset custodian.
