Note A - Description of the Plan

Pipeliners' Retirement Plan (the "Plan") was established on January 1, 1991. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that covers all employees of InfraSource Installation LLC (the "Company") who are members of the United Steelworkers Union, Local 348-08 (Successor to the Paper, Allied Industrial, Chemical and Energy Workers International Union). All employees, age 18 years or older, except foremen, are eligible to participate upon specified entry dates, when they have completed twelve months of employment and 1,000 hours of service. Foremen are eligible the first of the month following the completion of sixty days of service. Effective June 30, 1998, upon expiration of the union contract, employees of Mid-Atlantic Pipeliners, Inc. ("Mid-Atlantic") were no longer eligible for participation in the Plan. Account balances of some of the former Mid-Atlantic participants still remain in the Plan. However, no Company contributions have been made by Mid-Atlantic since June 30, 1998. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and amendments.

Contributions

Each year, participants may contribute to the Plan a percentage of their compensation, not to exceed certain dollar limitations established by the Internal Revenue Code. The Company may contribute a discretionary match amount based on the participants' contributions. Through July 31, 2014, the Company contributed 50% of the first 10% of the participant contributions. Beginning August 1, 2014, the matching formula was changed as follows: (1) 50% of the first 6% of compensation deferred under the Plan for employees (other than foreman) who have completed three or more years of service; (2) 50% of the first 10% of compensation deferred under the Plan for foremen who have completed one or more years of service; and (3) 0% for all other employees. In addition, the Company contributes $.85 for each hour of service worked by all participants based on the union contract. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participant forfeitures are used to reduce the Company's total contribution.

Note A - Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's contributions, and earnings thereon. The account is charged for benefit and withdrawal payments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants may choose to direct their contributions and account balances among the Plan's various investment alternatives. Participants are allowed to change their investment options daily.

Vesting

Participants are immediately vested in voluntary contributions plus actual earnings thereon. In addition, participants vest immediately in the Company's contributions based on hours of service under union contracts, plus earnings thereon. Participants become fully vested in the matching contributions made by the Company after three years of service.

Forfeitures

Forfeited non-vested account balances may be used to pay administrative expenses, or to reduce future employer contributions. During the years ended December 31, 2014 and 2013, forfeitures of $1,639 and $1,066, respectively, were used to offset the Company's contributions. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $23,596 and $22,140, respectively.

Payment of Benefits

Upon retirement, death, disability or termination of employment, a terminating participant's account of less than $1,000 may be distributed in a lump-sum without the consent of the participant. Account balances exceeding $1,000 are paid in an annuity, lump-sum or installment payments, at the participant's discretion.

Administrative Expenses

The Company absorbs substantially all administrative expenses of the Plan.

Plan Termination

Although they have not expressed any intent to do so, the Company reserves the right at any time by action of their Board of Directors to amend or terminate the Plan subject to the provisions of ERISA and the Union contract. In the event of Plan termination, participants would become fully vested in their account balances.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The fair value of the investment contract approximates the contract value of the investment contract held by the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note E for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Benefit Payments

Benefit payments are recorded when paid.

Reclassifications

Certain reclassifications have been made to the 2013 financial statements to conform to the 2014 presentation. Net assets and changes to net assets are unchanged due to these reclassifications.

Note B - Summary of Significant Accounting Policies (Continued)

Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through October 12, 2015, the date the financial statements were available for issue.

Note C - Investment Contract with Insurance Company

Investment contracts held by a defined contribution plan are required to be reported at fair value. The Fixed Account is a group annuity contract issued by Voya Retirement Insurance and Annuity Company ("Voya") and is backed by the full faith and creditworthiness of the issuer. The credit rating of the issuer at December 31, 2014 was considered investment grade and there are no reserves against contract value for credit risk of the contract issuer or otherwise. Only an event causing liquidity constraints at Voya could limit the ability of the Plan to transact at the contract value. There are no events that allow the issuer to terminate the contract and which require the Plan sponsor to settle at an amount different than contract value to be paid either within 30 days or over time. The Plan considers this contract to be benefit responsive.

The Fixed Account does not operate like a mutual fund, variable annuity product, or conventional fixed rate individual annuity product. Under the group annuity contract that supports this product, participants may ordinarily direct a permitted withdrawal or transfer of all or a portion of their account balance at contract value, within reasonable timeframes. Contract value represents contributions made, less withdrawals and administrative expenses, plus interest credited. Crediting rates for the Fixed Account are set Voya Retirement Insurance and Annuity Company using a process similar to that used by banks or other insurance companies for similar products. Quarterly a crediting rate is declared for all assets in the fund during the coming quarter. The crediting rate takes into account yield forecasts from the Voya asset advisory group and the margins required for their business. The crediting rate is declared in advance and reset quarterly. The declared crediting rate will never be below 3 percent. The average earnings yield and average yield credited to participants was 3 percent for both the years ended December 31, 2014 and 2013.

The Fixed Account is included at its contract value in the statements of net assets available for benefits, which approximated its fair value at December 31, 2014.

Note D - Investments

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained a certification from Voya that all of the information provided by Voya included in the accompanying 2014 and 2013 statements of net assets available for benefits and the statements of changes in net assets available for benefits and the December 31, 2014 supplemental Schedule of Assets (Held at End of Year) is complete and accurate. Information as to the investments in the accounts of Voya, investment income, and all information appearing in the accompanying statements and Schedule of Assets (Held at End of Year) are presented in reliance solely upon this certification.

The following table presents the carrying value of investments that represent five percent or more of the Plan's net assets:

	2014	2013
Voya Money Market Portfolio	**$ 543,428**	$ 592,231
Voya Intermediate Bond Fund	**206,435**	200,616
Voya Balanced Portfolio	**254,335**	246,363
Voya Growth & Income Portfolio	**571,285**	513,500
Fidelity VIP Equity-Income Portfolio	**256,988**	227,731
Fidelity VIP Growth Portfolio	**247,686**	210,737
Fidelity VIP Overseas Portfolio	**Less than 5%**	148,102
Voya Fixed Account	**396,710**	314,267

The Plan's fund investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated in value during the years ended December 31, 2014 and 2013 by $116,650 and $349,436, respectively.

Note E - Fair Value Measurements

The Plan categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note E - Fair Value Measurements (Continued)

There were no changes in the methodologies used at December 31, 2014 and 2013. Following is a description of the valuation methodologies used for investments measured at fair value:

Registered Investment Companies – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group annuity contract – Value is derived from corroboration of observable market inputs, specifically interest rates offered and the credit worthiness of the issuer which supports their ability to meet its obligations under the investment contract and credit rating. This product is not a traditional Guaranteed Investment Contract and therefore there are no known cash flows that could be discounted. The investment contract does not have a fair value upon discontinuance. Based on this assessment, fair value is presumed to approximate contract value and is classified within Level 2 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total

Note F - Related Party Transactions

Plan investments include mutual funds and an investment contract managed by Voya Retirement Insurance and Annuity Company. This party is the custodian as defined by the Plan and, therefore, transactions with Voya Retirement Insurance and Annuity Company qualify as party-in-interest. Such transactions are not considered prohibited transactions by statutory exemptions under ERISA regulations. During 2014 and 2013, the Company paid certain administrative expenses of the Plan.

Note G - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

Note H - Income Tax Status

The Plan administrator and the Company's counsel have discovered certain plan document failures and operational failures with respect to the Plan, all of which the Company is correcting in accordance with the requirements of the Internal Revenue Service's Employee Plans Compliance Resolution System, as set forth under Revenue Procedure 2013-12, as amended. The Company submitted a Voluntary Correction Program submission to the Internal Revenue Service on June 25, 2015 and has requested a compliance statement in connection with the correction procedures undertaken by the Company with respect to these failures.

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.
