American Excelsior Company 401(k) Savings Plan

Notes to Financial Statements

1. Description of Plan

The following description of the American Excelsior Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide retirement, disability, and death benefits for qualified employees of the American Excelsior Company (the "Company"). The Plan covers all employees of the Company as of their employment commencement date or as of the first day of any subsequent month. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants should refer to the plan document for a more complete description of the Plan's provisions.

Plan Merger

On November 13, 2014, the American Excelsior Company Employee Stock Ownership Plan ("ESOP") was merged into the Plan. The assets in the trust account maintained in connection with the ESOP were added to the assets of the Plan. The transferred net assets have been recognized in the accounts of the Plan as of November 13, 2014 at their liquidated balances as previously carried in the accounts of the ESOP. The accompanying statement of changes in net assets available for benefits includes the assets transferred into the plan. A summary of the transferred plan assets is as follows:

Investments, at fair value	\$ 10,947,092
Interest income receivable	605
<hr/>	
Total transfer of plan assets due to merger	\$ 10,947,697

Contributions

Contributions from the Company are accrued based on actions of its board of directors. Participants eligible to participate in the Plan may contribute a percentage of gross pay from 1 to 15 percent of pretax annual compensation as defined by the plan agreement, not exceeding the Internal Revenue Service ("IRS") limit of \$17,500. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Contributions from participants are recorded when withheld from the participants' wages. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts, registered investment companies, and investment contracts with insurance company as investment options for participants.

American Excelsior Company 401(k) Savings Plan

Notes to Financial Statements

Certain Company divisions are required to contribute a discretionary match based on collective bargaining agreements. The Company may make an additional discretionary or qualified non-elective contribution each year to eligible persons, as defined, in amounts determined by the board of directors. The Company's discretionary matching contributions based on collective bargaining agreements for the year ended December 31, 2014 totaled \$198,630. During 2014, the Company made an additional qualified discretionary contribution for all employees not eligible for contribution in the ESOP totaling \$78,298.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, Company's contributions and plan earnings, and is charged with an allocation of expenses as defined by the Plan. Allocations are based on account balances. There are no other benefits to which a participant is entitled other than the vested balance in the participant's account.

Vesting

Participants are immediately vested in their pretax contributions and the Company's qualified non-elective contributions and, related earnings thereon. Participants become fully vested in the Company's matching contributions and discretionary contributions after completing three years of service or in the event of retirement, disability, or death.

Notes Receivable from Participants

Participants may borrow from their accounts an amount not in excess of the lesser of (1) the greater of 50% of the vested account balance or (2) \$50,000 reduced by the highest outstanding note balance within the previous 12 months. A participant may have a maximum of two notes outstanding at any time. The loans are secured by the balance in the participant's account. The loan interest rate, which commensurate with local prevailing rates as determined by the plan administrator, is set at 2% above prime rate. The repayment terms of notes may not exceed five years except for notes used to acquire the participant's principle residence, which may not exceed 10 years. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

In accordance with the Plan document and as allowed under Section 401(k) of the Internal Revenue Code ("IRC"), benefit payments of participants' pretax contributions are available upon retirement, death, disability, or separation from service and in amounts necessary to satisfy a financial hardship as defined by the Plan and in accordance with the IRC.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$11,699 and \$0, respectively. These accounts will be used to reduce future employer contributions or plan expenses. Also, in 2014, plan expenses were reduced by \$7,750 from forfeited non-vested accounts.

American Excelsior Company 401(k) Savings Plan

Notes to Financial Statements

Plan Amendments

Effective January 1, 2013, the employer match is 50% of the first 5% of wages deferred and participants that are eligible for the ESOP are no longer eligible for the employer match but may still make deferral contributions to the Plan.

Effective January 1, 2014, eligible employees may elect to make deferral contributions to the Plan as of their employment commencement date or as of the first day of any subsequent month. Previously, eligible employees began participation as of the first entry date coinciding with or next following the completion of three full calendar months of service (or, if earlier, the first entry date following the eligible employee's completion of 1,000 hours of service). Entry dates occurred only on January 1st and July 1st prior to the amendment. Additionally, deferral elections may be modified or cancelled at any time. Previously, participants could only modify or cancel their deferral elections as of the first day of each quarter during the Plan year.

Effective August 3, 2014, the Plan was amended to accommodate the merger of the ESOP into this Plan to provide for matching and discretionary contribution eligibility for certain participants in the ESOP and to permit a limited-time opportunity (any time prior to January 1, 2015) for withdrawal of amounts transferred from the ESOP.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using contract value for the fully benefit-responsive investment contract.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

American Excelsior Company 401(k) Savings Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

New Accounting Pronouncements

The Plan's management has evaluated recently issued accounting pronouncements through the date these financial statements and supplemental schedule were available to be issued and has determined the application of these pronouncements will have no significant impact on the Plan's financial position and changes in net assets available for benefits as of December 31, 2014.

3. Information Certified By the Custodian

5. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standard Codification ("ASC") topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC topic 820, are described as follows:

Basis of Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

American Excelsior Company 401(k) Savings Plan

Notes to Financial Statements

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered Investment Companies

Investments in registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts

Investments in pooled separate accounts are valued based on the basis of the number of units held by each participating investor in the fair value of the underlying assets of the respective separate accounts. While a majority of the underlying assets values are based on quoted prices, the NAV of the pooled separate account is used as a practical expedient to estimate fair value. The NAV is determined by the investment account manager as of the financial statement date. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported net asset value with no advance notice requirement. The Plan is permitted to redeem investment units at net asset value on the measurement date.

Investment Contracts with Insurance Company

The investment contracts with the insurance company are valued at fair value by the insurance company .by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan is permitted to redeem investment units at NAV on the measurement date.

6. Investment Contracts with Insurance Company

The Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The investment contracts with insurance company are presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contracts, plus earnings, less participant withdrawals and expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events, such as the premature termination of the contracts by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Principal. The Plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with Plan participants is not probable.

The average yield and crediting interest rates were approximately 0.95% and 0.96% for 2014 and 0.96% and 1.08% for 2013, respectively.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

8. Related-Party Transactions

Certain Plan investments are managed by Principal Life Insurance Group and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, which is the custodian as defined by the Plan, and, therefore these investments qualify as party-in-interest. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations.

9. Tax Status

The IRS has determined and informed the Company by a letter dated February 11, 2010, that the Plan and related trust are designed in accordance with applicable section of the IRC.

American Excelsior Company 401(k) Savings Plan

Notes to Financial Statements

The Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognized a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the DOL. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the plan is no longer subject to examinations for years prior to 2011.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H, Form 5500 at December 31:

<i>December 31,</i>	2014	2013

Net assets available for benefit per Schedule H, Form 5500	\$ 17,184,196	\$ 12,506,082

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements to Schedule H, Form 5500 for the year ended December 31, 2014:

Net decrease in net assets available for benefits per the financial statements	\$ (6,270,294)

Adjustment from fair value to contract value	(430)
Net decrease in net assets available for benefits per Schedule H, Form 5500	\$ (6,269,583)

11. Subsequent Events

Prior to the merger of the ESOP into the Plan, the plan administrator of the ESOP was informed by Pennant Management, Inc., and their trustee that the amounts invested in the Salem Trust Short-Term Investment Fund (the "Salem STIF") could not be liquidated, converted to cash or later distributed either in whole or in part, but instead had been frozen by Pennant because of fraud discovered in the Salem STIF investments. The ESOP's trustee advised that approximately 20% of the Salem STIF investments were illiquid. On November 12, 2014, cash was received for the shares of the Salem STIF investment held by the ESOP at 80% of its original value resulting in a loss of approximately \$2,700,000.

American Excelsior Company 401(k) Savings Plan

Notes to Financial Statements

In connection with the investment loss incurred due to fraud the Plan administrator, was informed by GreatBanc Trust Company (ESOP's trustee) that a recovery trust was established for the purpose of receiving and disbursing to all affected clients assets seized and liquidated (the "Trust"). GreatBanc Trust Company is trustee of the Trust. From time to time, the court appointed receiver in Pennant's litigation against First Farmers Financial and related parties will distribute to the Trust the cash proceeds of assets that have been seized and liquidated by the receiver. On February 2, March 27, and April 17, 2015, the Plan received \$47,731, \$39,775 and \$48,752, respectively, representing their pro rata portion of distribution of proceeds from assets seized and liquidated as a result of the fraud allegedly committed by First Farmers Financial.

The date to which events occurring after December 31, 2014, the date of the most recent financial statements and supplemental schedule, have been evaluated for possible adjustment to the financial statements and supplemental schedule or disclosure is October 13, 2015, which is the due date that the financial statements and supplemental schedule were available to be issued.
