Upon retirement, participants have the option to (1) receive a lump sum benefit; or (2) in a lump sum to be applied to the purchase of an annuity contract.

(2) Contribution Policy

A Participant may enter into a Salary Reduction Agreement with his or her Employer to have the Employer make contributions to the Participant's 401(k) Contribution Account on behalf of the Participant for such Plan Year, in accordance with Code Section 404 (k), of one percent (1%) to fifty (50%) of his or her Compensation. Each year, the Company can elect to match a percentage of each employee's contribution, as determined by the Company's Board of Directors.

(3) Participant Accounts

Each participant account is credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) Plan earnings or losses and (c) forfeitures of terminated participants' non-vested accounts, used to reduce Company contributions. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account and the participant's vested interest in employer contributions.

(4) Investments

Participants direct their investment of their contributions into various investment options offered by the Plan. Company contributions are also invested based on the participant's elections. The Plan offers a variety of options which include various funds and insurance and annuity, as well as mutual funds. (See Note C)

(5) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants become 100 percent vested in the Company's matching contribution portion of their accounts after three years of credited service.

(6) Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$96,450 and \$72,508, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2014, employer contributions were reduced by \$116,105 from forfeited non-vested accounts.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(1) Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

(2) Use of Estimates

The preparation of financial statements in conformity with accounting principles accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

(3) Risks and Uncertainties

The Plan utilizes various investment instruments that include funds that are comprised of stocks and bonds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

(4) Valuation of Investments

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at the outstanding loan balances, which approximates fair value.

(5) Valuation of Investments (Investment Contracts)

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at the outstanding loan balances, which approximates fair value.

(6) Funding Policy

The Company makes annual contributions to the Plan at the discretion of the Company's Board of Directors. The Company contributed \$591,139 and \$610,169 to the plan for the years ended December 31, 2014 and 2013, respectively.

(7) Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service which indicates that the Plan, in form, meets the requirements under Section 401 of the Internal Revenue Code and that the Plan's trust is exempt from federal income tax. The Plan administrator believes the Plan is operating in accordance with its provisions and, therefore, the Plan's trust is exempt from tax.

(8) Administrative Expenses

Certain administrative expenses were paid by the Plan, as permitted by the Plan document. All other administrative expenses were paid by the Company.

NOTE C - INVESTMENTS

The Plan has a trustee who is responsible for the overall functions of the Plan. Fifth Third Bank has been appointed the Trustee of the Plan. The Trustee maintains all records of investment transactions, determines the valuation of the investment portfolio, and maintains a complete record of the trust. Information with respect to investments held and their market values, interest income and reportable transactions included in the financial statements and supplementary schedules has been certified by the custodian as being complete and accurate.

Upon enrollment in the Plan, a participant may direct its voluntary contributions into any of several investment options including guaranteed interest accounts and registered investment companies. Participants may change their investment options at their discretion. The employer's contribution is made in accordance with the employee's investment allocation percentages. If investment options have not been selected, then the contribution will be credited to the target retirement fund.

NOTE E - FAIR VALUE MEASUREMENTS

FASB ASC No. 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC No. 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets financial assets measures at fair value in the Statement of Net Assets Available for Plan Benefits and the respective levels to which the fair value measurements are classified within the fair value hierarchy as of December 31, 2014:

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.
