Plan Description

The following description of the Groner, Boyle & Quillin Deferred Compensation Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of GBQ Holdings, LLC (the Company) who are age 21 or older. Certain groups of employees are excluded per the Plan document. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to 50 percent of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make discretionary matching contributions to the Plan. During 2014, the Company elected to make matching contributions equal to 30% of the first 10% of compensation that a participant contributed to the Plan. During 2013, the Company elected to make matching contributions equal to 50% of the first 6% of compensation that a participant contributed to the Plan from January 1, 2013 through June 30, 2013 and 40% of the first 10% of compensation that a participant contributed to the Plan from July 1, 2013 through December 31, 2013. Additional employer contributions may be made at the discretion of the Company's management. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. The allocation is based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Description (continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Investment Options

A participant may direct contributions in any of the various investment options allowed by the Plan. Participants may change their investment options at any time.

Payment of Benefits

Upon termination of service due to separation, death, disability, retirement or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested deferral balance in his or her account in either a lump-sum amount or partial payments. Hardship withdrawals are allowed per the Plan agreement.

Administrative Expenses

Administrative expenses are paid by the Plan or the Company, at the discretion of the Company.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $0. Forfeitures will be used to reduce future employer contributions or to pay administrative expenses. During 2014 and 2013 forfeitures of $11,858 and $801 were used to offset employer contributions and pay administrative expenses of the Plan, respectively.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. Contract value is calculated based on contributions plus earnings, less Plan withdrawals and administrative expenses. The Statements of Net Assets Available for Benefits should present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value; however, for the Plan, contract value approximates fair value as of December 31, 2013. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note on the next page for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Fair Value Measurements (continued)

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at quoted market prices.

Common/ Collective Trust: Valued at the NAV of shares of the underlying investments reported by Frontier.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurements (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their account balances.

Tax Status

The Plan has adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since adopting the prototype plan document. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Ascensus. Ascensus is the custodian as defined in the Plan agreement and, therefore, these transactions qualify as party-in-interest. Cambridge Investment Research (Cambridge) is the brokerage firm for the Plan and, therefore, these transactions qualify as party-in-interest. Administrative fees paid to Ascensus and Cambridge amounted to $55,269 and $39,842 during 2014 and 2013, respectively.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

Common/Collective Trust

The Plan is invested in the Met Life Stable Value Fund (common/collective trust) a fully benefit-responsive investment contract through Reliance Trust Company. The common/collective trust primarily invests in a variety of investment contracts and other investment products with similar characteristics.

Common/Collective Trust (continued)

The existence of certain conditions can limit the common/collective trust's ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, certain wrap agreement and separate account contract termination provisions and withdrawals associated with certain events which are not in the ordinary course of fund operations and are determined by the issuer to have a material adverse effect on the issuer's financial interest. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable and no impairment is applicable as of the date of these financial statements.

The interest rate is reset every quarter. The following is the average yields for the years ended December 31, 2014 and 2013:

	2014	2013
Based on actual earnings	5.55%	(1.58%)
Based on interest rate credited to participants	3.01%	3.34%
