1. Plan Description

The following description of Wapiti Operating, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement or Summary Plan Description ("SPD") for a more complete description of the Plan's provisions.

General

The Plan is a contributory, defined contribution 401(k) plan available to qualifying employees of Wapiti Operating, LLC, Fortitude Management Group, LLC, and Fortitude Specialty Manufacturing, LLC (collectively hereafter referred to as the "Company"). To be eligible to participate in the Plan, an employee must have attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). This Plan incorporates certain provisions of the General Agreement of Tariffs and Trade, the Uniform Services Employment Reemployment Rights Act, the Small Business Job Protection Act, the Taxpayer Relief Act of 1997, the Internal Revenue Restructuring and Reform Act of 1998 and the Community Renewal Tax Relief Act of 2000 (collectively "GUST") and the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA").

Contributions

Each year participants may contribute up to 90% of their pretax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code ("IRC"), and have the option to designate either all or a portion of their contributions as Roth 401(k) contributions. Roth 401(k) contributions are made after-tax and offer the advantages of tax free distributions. The Plan allows participants age 50 and older to make additional salary deferrals (referred to as employee catch-up contributions), subject to legal limits. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or defined contribution plans. The Company provided discretionary matching contributions equal to 100% of the participants' deferrals up to 6% of annual compensation as defined by the Plan in 2014.

The Company may also make profit sharing contributions in the amounts that will be determined at Plan year-end by the Company. For the year ended December 31, 2014, there were no profit sharing contributions that were made to the Plan.

Rollovers

Rollovers represent funds transferred to the Plan from other qualified plans of the participants.

Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions, an allocation of net plan earnings (losses) and with administrative fees. Participants may direct the investment of their account balances into various investment options offered by the Plan. Currently, the Plan offers 40 investment options for participants.

Vesting

Participants are immediately vested in their contributions and rollover contributions and the appreciation or depreciation thereon. For discretionary matching and profit sharing contributions, these vest ratably each year over a two-year service period.

Payment of Benefits

Upon termination of service, due to death, disability, retirement or separation, a participant may elect to receive either a lump-sum distribution or installment payments under various options. The Plan also permits In-Service withdrawals from the Plan due to attainment of age 59 1/2 and circumstances of financial hardship, in accordance with provisions specified in the Plan Document.

Forfeitures

Forfeiture allocations are first used to pay administrative expenses under the Plan. Any remaining amounts can be used to reduce future employer matching contributions payable under the Plan. Forfeited accounts totaled approximately $85,000 and $32,000 at December 31, 2014 and 2013. There were no forfeitures used during the year ended December 31, 2014.

Administrative Expenses

The Company pays substantially all of the administrative expenses associated with the administration of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Mutual Funds

Mutual funds represent investments with various investment managers. The fair value of these investments is determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value as of December 31, 2014.

Payment of Benefits

Benefits are recorded when paid.

3. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule, stated at fair value, is complete and accurate.

December 31,	**2014**	2013
Mutual funds	**$ 6,439,203**	$ 4,869,042

Year Ended December 31,	**2014**
Interest and dividend income	**$ 410,947**
Net depreciation in fair value of mutual funds	**(20,711)**

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

5. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Basis of Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no transfers between levels for the years ended December 31, 2014 and 2013.

The following tables set forth by level within the fair value hierarchy the Plan investment assets and investment liabilities at fair value, as of December 31, 2014 and 2013. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investment Assets at Fair Value As of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 6,439,203	$ —	$ —	$ 6,439,203

	Investment Assets at Fair Value As of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 4,869,042	$ —	$ —	$ 4,869,042

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their balances.

7. Income Tax Status

The Plan is an adoption of a standardized prototype arrangement designed by Fidelity Management and Research Company ("Fidelity"). Fidelity received a determination letter dated March 31, 2008 from the Internal Revenue Service ("IRS") that qualified the prototype arrangement as tax-exempt under the appropriation of the IRC. The Plan has not yet filed for its own determination letter from the IRS. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirement of the IRC. Although the Plan has been amended since adoption, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that it is no longer subject to income tax examinations for years prior to 2011.

8. Related Party Transactions

The Plan assets are managed by Fidelity Management Trust Company, the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. In addition, other entities that provide various services to the Plan are also considered parties-in-interest. Fees paid by the Plan to parties-in-interest for administrative services of the Plan amounted to $108 for the year ended December 31, 2014.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 14, 2015, the date the financial statements were available to be issued.

On April 30, 2015, there were a number of employees who left the Company due to corporate restructuring and went with the new management. There was a partial termination due to these people leaving the Company.
