General

The Plan is a defined contribution plan covering substantially all employees of Spreen Honda, Inc. (the company) who have attained the age of 21 and have completed six months of consecutive service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants who attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to an additional $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

The company may provide a discretionary profit sharing contribution determined on an annual basis. The company may also provide a discretionary matching contribution. The amount of the match and the profit sharing contributions are determined each year by the Board of Directors. For the plan year ended December 31, 2014, no matching or profit sharing contributions were made.

All contributions under the Plan are to be invested in shares of investment companies for which Fidelity Management Trust company (Fidelity) acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self-direct their account balances among certain investments. At December 31, 2014 and 2013, all funds in the Plan were self-directed by the participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the company's contribution and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are allocated first to pay administrative expenses and secondly to reduce future employer contributions payable under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of Plan (Concluded)

Vesting

Participants are immediately vested in their 401(k) contributions plus actual earnings thereon. Vesting in the company's matching and profit sharing portions, if any, of their accounts plus actual earnings thereon is based on years of continuous service. A participant becomes 20% vested after two years of service. Beginning with the third year, participants' vesting will increase 20% per year until they reach 100% vesting at the end of their sixth year of service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account balance or a life annuity with monthly payments payable during the lifetime of the participant. On termination of service due to death, the beneficiary will receive a lump-sum distribution of the participant's vested interest in his or her account balance.

Notes Receivable from Participants

Participants may not borrow from their account.

Plan Administrator Fees

All routine Plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the Plan may be paid out of the Plan unless paid by the employer. For the plan year ended December 31, 2014, administrative fees paid totaled $10,525.

Forfeitures

Amounts forfeited from terminating participants' nonvested portions of their company contributions and earnings may be used to reduce future employer contributions. At December 31, 2014 and 2013, the forfeiture account totaled $34,184 and $40,327, respectively.

B. Summary of Accounting Policies

Date of Management's Review

For the year ended December 31, 2014, the Plan has evaluated subsequent events for potential recognition and disclosure through September 15, 2015, the date on which the financial statements were available to be issued. It has been determined that no subsequent events or transactions need to be recognized or disclosed in these financial statements.

B. Summary of Accounting Policies (Concluded)

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are presented at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Fidelity, based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred.

Purchases and sales of these investments are reflected on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

C. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2014	2013
Invesco Charter A	$ 389,398	$ 337,890
Fidelity Advisor Stable Value	$ 248,391	$ 262,156
Clear Bridge Mid Cap Cor A	$ 220,711	$ 221,028
PIMCO Total Return R	$ 195,535	$ 159,060

Federated Mid-Cap Index SS	$ 122,575	$ 123,904
American Century Eq Inc A	$ 112,799	$ 98,791

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $107,742 as follows:

Mutual funds	$ (23,030)
Dividends	130,771
Interest	1
	$ 107,742

D. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of their future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of other than quoted prices included within Level 1 that are observable either directly or indirectly, and Level 3 inputs are unobservable and have the lowest priority.

D. Fair Value Measurements (Continued)

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of the collective trust is based on the values of the multiple underlying assets.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Fair Value Measurements at the End of the Reporting Period Using:		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	**Models with Significant Observable Market Parameters (Level 2)**	**Fair Value**

D. Fair Value Measurements (Concluded)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Fair Value Measurements at the End of the Reporting Period Using:		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	**Models with Significant Observable Market Parameters (Level 2)**	**Fair Value**

Collective Trust	-	262,156	262,156
Total assets at fair value	$ 1,636,308	$ 262,156	$ 1,898,464

E. Fully Benefit-Responsive Investment Contract

The Plan has a fully benefit-responsive investment contract with Fidelity Management Trust Company (Fidelity). Fidelity maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable.

E. Fully Benefit-Responsive Investment Contract (Concluded)

Fidelity is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The Fidelity Advisor Stable Value Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets and prevailing market conditions.

	2014	2013
Average yields (1)	1.69%	1.70%
Actual yield (2)	1.06%	0.92%

(1) Computed by comparing book value to fair value of all assets.

(2) Computed by comparing book value to fair value of Plan's portion of assets.

F. Information Certified by Custodian (Unaudited)

At December 31, 2014 and 2013, the Plan's investments were held by the custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2014 and 2013, as reported by the custodian is summarized as follows:

	2014	2013
Investments, at fair value	$ 2,018,344	$ 1,898,464
Investment losses	$ (23,030)	
Dividend income	$ 130,771	

G. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

H. Tax Status

The Internal Revenue Service has determined and informed Fidelity Management Trust Company by a letter dated March 30, 2008, that the prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

H. Tax Status (Concluded)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that it is no longer subject to income tax examinations for years prior to 2012.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $10,525 for the year ended December 31, 2014.

K. Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of the net assets per Form 5500 at December 31, 2014 and 2013 to the financial statements:

	2014	2013

Less contract value adjustment	(4,332)	(4,990)

A. Description of Plan

The following description of the Spreen Honda 401(k) Plan (the Plan) provides only general information. The Plan was adopted on January 1, 1995 and restated effective March 15, 2015. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Spreen Honda, Inc. (the company) who have attained the age of 21 and have completed six months of consecutive service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute an amount of their pretax annual compensation. Total contributions per participant in any calendar year may not exceed the limits of Internal Revenue Code Sections 401(k), 404 and 415, which for the years ended December 31, 2014 and 2013 was $17,500. Participants who attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to an additional $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

The company may provide a discretionary profit sharing contribution determined on an annual basis. The company may also provide a discretionary matching contribution. The amount of the match and the profit sharing contributions are determined each year by the Board of Directors. For the plan year ended December 31, 2014, no matching or profit sharing contributions were made.

All contributions under the Plan are to be invested in shares of investment companies for which Fidelity Management Trust company (Fidelity) acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self-direct their account balances among certain investments. At December 31, 2014 and 2013, all funds in the Plan were self-directed by the participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the company's contribution and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are allocated first to pay administrative expenses and secondly to reduce future employer contributions payable under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of Plan (Concluded)

Vesting

Participants are immediately vested in their 401(k) contributions plus actual earnings thereon. Vesting in the company's matching and profit sharing portions, if any, of their accounts plus actual earnings thereon is based on years of continuous service. A participant becomes 20% vested after two years of service. Beginning with the third year, participants' vesting will increase 20% per year until they reach 100% vesting at the end of their sixth year of service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account balance or a life annuity with monthly payments payable during the lifetime of the participant. On termination of service due to death, the beneficiary will receive a lump-sum distribution of the participant's vested interest in his or her account balance.

Notes Receivable from Participants

Participants may not borrow from their account.

Plan Administrator Fees

All routine Plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the Plan may be paid out of the Plan unless paid by the employer. For the plan year ended December 31, 2014, administrative fees paid totaled $10,525.

Forfeitures

Amounts forfeited from terminating participants' nonvested portions of their company contributions and earnings may be used to reduce future employer contributions. At December 31, 2014 and 2013, the forfeiture account totaled $34,184 and $40,327, respectively.

B. Summary of Accounting Policies

Date of Management's Review

For the year ended December 31, 2014, the Plan has evaluated subsequent events for potential recognition and disclosure through September 15, 2015, the date on which the financial statements were available to be issued. It has been determined that no subsequent events or transactions need to be recognized or disclosed in these financial statements.

B. Summary of Accounting Policies (Concluded)

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are presented at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Fidelity, based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred.

Purchases and sales of these investments are reflected on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

C. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

D. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of their future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of other than quoted prices included within Level 1 that are observable either directly or indirectly, and Level 3 inputs are unobservable and have the lowest priority.

D. Fair Value Measurements (Continued)

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of the collective trust is based on the values of the multiple underlying assets.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Fair Value Measurements at the End of the Reporting Period Using:

E. Fully Benefit-Responsive Investment Contract

The Plan has a fully benefit-responsive investment contract with Fidelity Management Trust Company (Fidelity). Fidelity maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable.

E. Fully Benefit-Responsive Investment Contract (Concluded)

Fidelity is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The Fidelity Advisor Stable Value Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets and prevailing market conditions.

	2014	2013
Average yields (1)	1.69%	1.70%
Actual yield (2)	1.06%	0.92%

(1) Computed by comparing book value to fair value of all assets.

(2) Computed by comparing book value to fair value of Plan's portion of assets.

F. Information Certified by Custodian (Unaudited)

At December 31, 2014 and 2013, the Plan's investments were held by the custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2014 and 2013, as reported by the custodian is summarized as follows:

	2014	2013
Investments, at fair value	$ 2,018,344	$ 1,898,464
Investment losses	$ (23,030)	
Dividend income	$ 130,771	

G. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

H. Tax Status

The Internal Revenue Service has determined and informed Fidelity Management Trust Company by a letter dated March 30, 2008, that the prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

H. Tax Status (Concluded)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that it is no longer subject to income tax examinations for years prior to 2012.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $10,525 for the year ended December 31, 2014.
