Note 1 - Description of Plan

The following description of the Koos Manufacturing, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Koos Manufacturing, Inc. (the "Company"), who are the age of twenty one or older and have completed twelve months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year participants may contribute up to the maximum amount allowed by law, code sections 402(g) and 415. Participants may make a separate election to defer up to 100% of any bonus and contribute amounts representing distributions from other qualified plans. However, the total contributions in any taxable year may not exceed the dollar limit of $17,500 for taxable year 2014 and 2013. The Company also may make matching contributions equal to 50% of participants' elective deferrals. However, the Company will not match elective deferrals that exceed 2% of participants' eligible earnings.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Any employer contributions are subject to the following graded vesting schedule:

Years of Service	% Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Years of service for vesting are counted from the inception of the plan. For vesting, the participants will be credited with a year of service for each plan year during which he or she earns credit for 1,000 hours of service. Moreover, no employer profit sharing contributions are subject to a vesting schedule.

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of $1,000 and may only have one loan outstanding at any time. All outstanding loan balances will become due and payable in their entirety upon the occurrence of a distributable event. Principal and interest are paid through payroll deductions.

As of December 31, 2014 and 2013, the outstanding participant loan balance was $67,275 and $44,241, respectively.

Note 1 - Description of Plan (Continued)

Top-Heavy Plan - When more than 60% of the plan assets are in the accounts of key employees, in any plan year, the plan is considered to be a top-heavy plan. In such case, non-key employees will be entitled to certain "top-heavy minimum benefits" and other special rules will apply. Among these top-heavy rules, the Company may be required to make contributions on behalf of the non-key employees in order to provide with at least "top-heavy minimum benefits."

Distribution of Benefits The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Upon termination of service, death, disability or retirement, a participant or beneficiary will receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment.

Participants may withdraw all or part of their vested account balance once they reach age 59 1/2. They may also withdraw any or part of their rollover contributions account in the Plan as well as any after-tax contributions held in their account in the Plan at any time and at any age.

In the event of financial hardship, participants can withdraw their own elective deferrals (excluding earnings on the elective deferrals) as well as any vested matching contributions if they satisfy certain conditions under the Plan. The minimum permitted hardship withdrawal is $1,000.

Forfeited Accounts - Forfeitures will be used first to restore previously forfeited account balances returning participants who are entitled. Remaining forfeitures will be used to reduce any employer contributions and may also be used to pay plan expenses. There were $7,339 and $6,227 in forfeited accounts as of December 31 , 2014 and 2013, respectively.

Termination of the Plan - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of Significant Accounting Policies

The accounting and reporting policies of the Plan conform to accounting principles generally accepted in the United States of America.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation – All investments are carried at fair value or an approximation of fair value. Quoted market prices are used to value investments and shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The Plan invests in various investment securities.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Non-Distributed Benefits - The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Plan Administrative Expenses - Cost of administration of the plan is absorbed by the employer.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Note 3 - Investments

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by Nationwide Trust Company, FSB, regarding the current value of assets held at December 31, 2014 and 2013, and transactions entered into during the respective years, was used in the preparation of the accompanying financial statements and supplemental schedule. The following table includes the fair values of investment funds that represent the Plan's net assets at December 31, 2014 and 2013:

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013.

Note 4 - Fair Value Measurements

The Plan adopted ASC 820-10 (formally, FASB Statement No. 157, Fair Value Measurements). ASC 820-10 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Under SFAS No. 157, fair value measurements are not adjusted for transaction costs. ASC 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

The three levels of the fair value hierarchy under ASC 820-10 are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets.

Level 2 - Significant other observable inputs other than Level 1 prices such as quoted prices in markets that are not active, quoted prices for similar assets, or other inputs that are observable, either directly or indirectly, for substantially the full term of the asset.

Level 3 - Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Plan investment assets, measured at fair value on a recurring basis as of December 31, 2014, are as follows:

	Balance as of December 31, 2014	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments:				
Mutual funds	$ 2,181,983	$ 2,181,983	$ --	$ --
Participant loans	67,275	--	--	67,275
Interest-bearing cash	34,721	34,721		
	$ 2,283,979	$ 2,216,704	$ --	$ 67,275

The Plan investment assets, measured at fair value on a recurring basis as of December 31, 2013, are as follows:

	Balance as of December 31, 2013	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments:				
Mutual funds	$ 1,716,634	$ 1,716,634	$ --	$ --
Participant loans	44,241	--	--	44,241
Interest-bearing cash	35,387	35,387		
	$ 1,796,262	$ 1,752,021	$ --	$ 44,241

Note 4 - Fair Value Measurements (continued)

The Plan used the following methods and assumptions in estimating its fair value disclosure for financial instruments:

Level 1 Fair Value Measurements - The investments are composed of registered investment companies that are traded on an active market. The fair value of the investment is based on quoted market values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements - Participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements of participant loans.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

Balance, beginning of year	$	44,241
Purchases, sales, issuances, and settlements, net		23,034
Balance, end of year	$	67,275

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

Balance, beginning of year	$	11,233
Purchases, sales, issuances, and settlements, net		33,008
Balance, end of year	$	44,241

Note 5 - Tax Status

The Plan document is a prototype document that the Company adopted with specific provisions customized to meet the needs of the sponsor and the participants. The prototype document has received a favorable determination letter dated March 31, 2008, from the Internal Revenue Service that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 – Party-In-Interest

Certain Plan investments in registered investment companies are managed by Nationwide Trust Company, FSB, the trustee of the Plan. Purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 8 - Subsequent Events

In accordance with FASB ASC Topic No 855, Subsequent Events, the Company evaluated subsequent events for recognition or disclosure through October 12, 2015, the date the accompanying financial statements were available to be used.
