Notes to Financial Statements

December 31, 2014 and 2013

Note A - Description of the Plan

The following description of Beach Products, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Beach Products, Inc. and its participating employers (collectively, the Sponsor) who have completed one year of service with a minimum of 1,000 hours of service and have reached the minimum age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Custodian

Investments held by the Plan are administered by John Hancock Life Insurance Company U.S.A. (JHLIC).

Contributions

Eligible participants may contribute an amount of their pretax annual compensation up to limits defined in the Plan and other limits in accordance with the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans (i.e. rollovers).

The Sponsor may make matching contributions to the Plan, at its discretion, equal to a specified percent of each participant's deferral amounts. In addition, the Sponsor may make an additional discretionary contribution to participants of the Plan as deemed appropriate by the Sponsor. For the years ended December 31, 2014 and 2013, the Sponsor made safe-harbor matching contributions equal to 100% of the aggregate salary reduction contribution to the extent the aggregate contribution did not exceed 4% of the employee's compensation. There were no additional discretionary contributions made for the years ended December 31, 2014 and 2013.

Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, Sponsor contributions, and Plan earnings. Allocations of Plan earnings are based upon participant account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

Forfeitures of terminated participants' nonvested accounts are used first to pay Plan administrative expenses and then to reduce Sponsor contributions. Forfeitures of nonvested matching contributions are non participant-directed.

Vesting

Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. The Sponsor has adopted the safe-harbor provisions of the Internal Revenue Code. Participants are immediately vested in the Sponsor's safe-harbor match and the actual allocated earnings thereon.

Payment of Benefits

Upon termination of employment for any reason, a participant may elect to receive either a lump sum payment or a direct rollover to another qualified plan in an amount equal to the vested value of their accounts.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to \$50,000 or 50% of the participant's vested account balance, whichever is less, with a maximum of one loan outstanding. Interest rates on participant loans approximate prevailing interest rates on bank loans of similar length of time and repayment terms. The loans are secured by the balances in the participant's account.

Notes to Financial Statements

December 31, 2014 and 2013

Note B - Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared under the accrual method of accounting, except for benefits paid to participants, which are recorded when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

On July 31, 2015, FASB issued Accounting Standards Update (ASU) No. 2015-12. Under the ASU, fully-benefit responsive investment contracts are measured, presented, and disclosed only at contract value; presentation of investments representing 5% of the plan net assets is no longer required; and investments are to be grouped only by general type in the fair value hierarchy.

The ASU is effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. The Plan Sponsor has elected to early adopt the ASU. The provisions have been applied retrospectively and had no impact on net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Contract

The Plan invests in the stable value fund. The stable value fund is an investment option under the Group Annuity Contract. The stable value fund sub-account invests into the John Hancock Stable Value Fund Collective Investment Trust (CIT). The CIT itself is fully benefit responsive offering redemptions at \$1 per unit.

Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The existence of certain conditions can limit the Plan's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operation of the plan that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the plan or a unitholder, tax disqualification of the plan or unitholder, and certain plan amendments if issuers' consent is not obtained. The Sponsor does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as deemed distributions based upon the terms of the plan document.

Administrative Expenses

The Plan's administrative expenses, except for participant fees, are paid with forfeitures of terminated participants' nonvested accounts, with the remainder paid by the Sponsor.

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The plan administrator has evaluated all events subsequent to December 31, 2014 and through October 7, 2015, which is the date these financial statements were available to be issued. The plan administrator determined that there are no subsequent events that require adjustment or disclosure to these financial statements.

Note C - Fair Value Measurements

Accounting standards provide a framework for fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include indirect observable inputs including prices for similar assets and market corroborated inputs. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts - The pooled separate accounts are stated at fair value as determined by observable Level 1 quoted pricing inputs or by quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quoted pricing inputs (Level 1), the account values of separate accounts are not publicly quoted and are therefore classified as Level 2 investments.

Notes to Financial Statements

December 31, 2014 and 2013

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Total	Level 1	Level 2	Level 3
<i>2014</i>				
Pooled separate accounts	\$ 8,649,010	\$ -	\$ 8,649,010	\$ -
<i>2013</i>				
Pooled separate accounts	\$ 7,940,470	\$ -	\$ 7,940,470	\$ -

Note D - Information Prepared and Certified by the Custodian

The Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Financial information included in the accompanying financial statements and supplemental schedule relating to investment assets, transactions, and income was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

Accordingly, JHLIC has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2014	2013
As of December 31,		
Investments at fair value	\$ 8,649,010	\$ 7,940,470
Investments at contract value	899,018	479,592
Year ended December 31,		
Net appreciation in fair value of investments	\$ 474,451	\$ 1,267,947

Interest on notes receivable from participants	6,940	8,469

Forfeitures components of the changes in net assets relating to the non participant-directed investments are as follows:

	2014	2013
Net assets as of December 31		
Cash	\$ 312	\$ 312

Note E - Tax Status

According to IRS Announcement 2001-77, Sponsors that adopt approved nonstandardized prototype plans and meet certain additional guidelines can rely on the prototype plan's determination letter rather than file for a new letter. The Internal Revenue Service issued a determination letter dated July 8, 2010 that the prototype plan document as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Sponsor has chosen to rely on the prototype plan's determination letter.

The plan document has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Notes to Financial Statements

December 31, 2014 and 2013

Note F - Related Party Transactions

Fees paid during 2014 and 2013 by the Plan and Sponsor to the Plan's custodian and other service providers were based on customary and reasonable rates for their services.

Certain investments throughout the year were in insurance contracts managed by JHLIC. While these transactions qualify as party-in-interest activity, they are expressly exempt from the prohibited transaction rules (ERISA, Title I, Section 408(b)).

Note G - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
