## NOTE 1: DESCRIPTION OF THE PLAN

The following summary description of the Franklin International, Inc. Thrift Plan (the "Plan") is provided for general information purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution 401(k) retirement plan which became effective October 1, 1985 for the purpose of providing retirement benefits to eligible employees, as defined in the Plan agreement. Employees who have reached the age of 21 and are scheduled to work at least 1,000 hours each year are eligible once they have completed 30 days of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Pension Plan Committee is responsible for oversight of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors the Plan's investment performance.

### Contributions

Each year participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan agreement, subject to Internal Revenue Service limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans. The Company contributes matching contributions equal to 50 percent of the participant's contributions, subject to a maximum matching contribution of $1,750 per participant in 2014 and 2013. No matching contributions are made for any participant for any year in which the participant has terminated their employment prior to December 31 or for any six month period following a hardship withdrawal when employee deferrals are suspended as required by IRS regulation.. Matching contributions totaled $280,713 and $262,561 in 2014 and 2013, respectively.

The Plan also provides for an employer profit sharing contribution, which is in addition to the employer's matching contribution. These contributions, subject to the Plan sponsor's board of directors' approval, equal to four percent of each participant's annual compensation up to the Social Security Wage Base ($117,000 in 2014 and $113,700 in 2013) plus an additional eight percent of that portion of each participant's annual compensation in excess of the Social Security Wage Base. Profit sharing contributions totaled $767,396 and $718,513 in 2014 and 2013, respectively.

### Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any of several investment or target-date retirement funds. Participants may change their investment option allocations at any time.

### Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Employer matching and profit sharing contributions will fully vest after three years of service.

## NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants
Per a plan amendment effective 1/1/2009, participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from 1-5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate as determined by Reuters plus one percent. The current interest rate is 4.25 percent. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits
A participant benefit upon retirement, death, disability, attainment of age 59 ½ or termination is the value of the participant's account, including vested employer contributions, and is payable in one lump sum amount. Earlier distributions may be made from participant's contributions to the extent necessary to meet financial hardship.

Forfeited Accounts
Forfeited balances of terminated participant's non-vested accounts are used to reduce future employer contributions. In 2014 and 2013, employer contributions were reduced by $15,340 and $10,747, respectively, from forfeited non-vested accounts.

## NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the contract value of the investment contracts since contract value approximates fair value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates
The preparation of the financial statements consistent with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA requires the Plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment trustees. See Note 5 for discussion of fair value measurements.

The Vanguard Retirement Savings trust, a collective investment trust, invests in fully benefit-responsive investment contracts. There are currently no redemption restrictions on these investments. Since these contracts are fully benefit responsive, these investments are reported at contract value, which approximates fair value. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The fair value of the investments was determined based on the quoted market values of the underlying investments, as the collective investment trust itself is not actively traded on an exchange.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid.

Administration
Plan recordkeeping expenses are paid for by the Plan sponsor. All other expenses are also paid by the Plan sponsor, except for participant loan fees, and asset management fees that are netted against Plan earnings. Expenses that are paid by the Plan sponsor are excluded from these financial statements.

Subsequent Events
Subsequent events have been evaluated through August 17, 2015, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements
In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

## NOTE 3: INFORMATION PREPARED & CERTIFIED BY INVESTMENT TRUSTEE

Other than the fair value of the guaranteed investment contract, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments , interest and dividends for the years ended December 31, 2014 and 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Vanguard Fiduciary Trust Company (the trustee of the Plan). The contract value of the guaranteed investment contract was certified by the trustee/custodian.

## NOTE 4: INVESTMENTS

The Plan's investments that represent five percent or more of the Plan's net assets available for benefit as of December 31, 2014 and 2013 are as follows:

| | 2014 | 2013 |
|---|---|---|
| Vanguard Star Fund | $ 14,141,561 | $ 14,947,495 |
| Vanguard 500 Index Fund | 7,193,385 | 6,284,662 |
| Vanguard Windsor II Fund | 4,114,493 | 4,665,832 |
| Vanguard Prime Cap Fund | 5,284,846 | 4,385,387 |
| Vanguard Retirement Savings Trust, at contract value | 6,319,716 | 3,918,587 |

## NOTE 5: FAIR VALUE MEASUREMENTS

Generally accepted accounting principles include a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**NOTE 5: FAIR VALUE MEASUREMENTS (Continued)**

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

*Mutual funds:* Valued at the net asset value ("NAV") of shares held by the plan at year end. NAV is based on the value of underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

*Collective investment trust:* Valued based on the NAV of units of the collective investment trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probably that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**NOTE 5: FAIR VALUE MEASUREMENTS (Continued)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

**Assets at Fair Value as of December 31, 2014**

## NOTE 5: FAIR VALUE MEASUREMENTS (Continued)

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2014 and 2013, respectively.

| December 31, 2014 | Fair Value | Unfunded Commitments | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|
| Collective Trust (a) | $6,319,716 | n/a | Daily | None |

| December 31, 2013 | Fair Value | Unfunded Commitments | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|
| Collective Trust (a) | $3,918,587 | n/a | Daily | None |

(a) This category includes a stable value collective investment fund. The fund seeks stable returns comparable to those of short-term fixed income securities by investing in a combination of synthetic contracts (backed primarily by Vanguard bond trust funds), traditional insurance, and bank contracts. The average maturity range of the trust is 2-4 years. Because it invests in contracts designed to preserve a stable net asset value, the trust generated income without the price volatility associated with traditional short-term credit instruments. The trust maintains a strict credit policy, investing with issuers rated AA- and higher, and investing in funds that are rated investment grade or higher.

## NOTE 6: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. These transactions are not prohibited transactions.

## NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the terms of the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

## NOTE 8: TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter dated June 15, 2011, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

There are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2011.

## NOTE 9: RISKS AND UNCERTAINTIES

The Plan allows investments in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2014 statement of net assets available for benefits.
