NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Collins Engineers, Inc. 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution and profit sharing section 401(K) plan covering eligible employees of Collins Engineers, Inc. (the "Company"). The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

An employee may become eligible to participate in the Plan after completing six months of service as of January 1 or July 1, and attaining age 21. An eligible employee means any employee of the Company except certain nonresident aliens and certain employees covered by a collective bargaining agreement.

Contributions

The Plan allows for voluntary contributions from participants under the provisions of Section 401(k) of the Internal Revenue Code ("the Code"). Participants may contribute up to 25 percent of their compensation, subject to the statutory limits (as adjusted from time to time pursuant to Section 402(g)(5) of the Code).

The Plan provides for both matching and discretionary Company contributions. Matching contributions are equal to 25 percent of participant contributions, limited to 6 percent of a participant's compensation. Discretionary contributions are determined by the Board of Trustees of the Company and are allocated to individual participants' accounts based on compensation of the participant.

The Plan allows "catch-up contributions" for participants age 50 and older.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. Participants are fully vested at all times in their voluntary contribution account. Participants vest in Company contributions at a rate of 20 percent per year of credited service, with 100 percent vested after six years of credited service, upon reaching normal retirement date, upon the death or disability of the participant, or upon termination of the Plan by the Company.

Investment Options

The Plan is a participant-directed plan, whereby each participant elects to have voluntary and Company contributions allocated to any of the funds available in the Plan.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Notes Receivable From Participants
The plan administrator may allow participants to borrow funds, by administrator rule, up to the lesser of $50,000 or 50 percent of their vested account balances. Participant loans are generally payable within five years and are secured by the participant's respected vested account balances. Loans bear interest at the prime rate plus 2 percent.

All interest and principal must be repaid in at least quarterly installments.

Payment of Benefits
On retirement, termination, death or disability, a participant or his/her beneficiary may elect to receive their benefit either in one lump-sum payment or in installments over a period of years not to exceed either (I) The participant's life expectancy or the (ii) joint life and last survivor expectancy of the participant and their designed beneficiary, as defined in the Plan. There were no benefits payable at December 31, 2014 and 2013.

Forfeited Accounts
At December 31, 2014 and 2013, forfeited non-vested accounts totaled $9,664 and $7,029, respectively. These accounts are used to reduce employer contributions.

Administration
All significant costs related to plan administration are paid by the Company.

Note 2 – SUMMARY OF SIGNFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition
Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and changes therein. Actual results could differ from those estimates.

Note 2 – SUMMARY OF SIGNFICANT ACCOUNTING POLICIES (Continued)

Accounting Pronouncements

In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2009-1), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category or alternative investments, regardless of whether the practical expedient was used.

The FASB issued Accounting Standards Update (ASU 2010-6), *Fair Value Measurements and Disclosures* (Topic 820) – *Improving Disclosures about Fair Value Measurements,* which requires new disclosure and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosure are required for each class of financial assets and liabilities, and those disclosure should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Payments of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivables from participants are charged directly to the participant's account and are included in administrative expenses. Investments related to expenses are included in net appreciation of fair value of investments.

NOTE 3 – FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1:
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2:
Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3:
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Shares of registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Guaranteed investment contract: Valued at the net asset value of shares held by the Plan at year end.

Notes receivable from participants: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement and the reporting date.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarch, the Plans assets measured at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014

NOTE 4 – INVESTMENTS

Investments representing more than 5% of the Plan's total assets as of December 31, 2014 and 2013, are as follows:

	2014	2013
American Funds Washington Mutual A	$ 1,352,581	$ 1,208,110
American Funds EuroPacific GR A	850,431	836,805

Prudential Jennison Growth	808,864	861,624
VanGuard Institutional Index Instl	847,896	765,874

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Professional services for the audit of the Plan and certain administrative services provided by the trustee were paid for by the Company. Certain professional fees for the administration and audit of the Plan were paid by the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. Certain plan investments are managed by Great West Trust Company, which is the custodian of the Plan and, therefore, these transactions are considered to be party-in-interest transactions.

NOTE 6 – INFORMATION CERTIFIED BY THE TRUSTEE

The following summary of the investment information as of December 31, 2014 and 2013, and for the years ended December 31, 2014 and 2013, included throughout the Plan's financial statements and the supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520. 103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following investments.

	2014	2013
Shares of registered investment companies	$ 14,596,246	$ 12,799,645
Guaranteed investment contract	922,696	910,826
Notes receivable from participant	166,810	122,210

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan at any time, subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Company may determine.

NOTE 8 – TAX STATUS

The plan obtained its latest determination letter on March 8, 2003, in which the Internal Revenue Service indicated the Plan was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 – UNCERTAIN TAX POSITIONS

The Plan adopted FASB ASC 740-10-25, *Accounting for Uncertainty in Income Taxes.* The Plan will record a liability for uncertain tax positions when it is more likely than not that a tax position would not be sustained if examined by the taxing authority. The Plan continually evaluates expiring statutes of limitations, audits, proposed settlements and changes in tax law and new authoritative rulings.

The Plan's evaluation on December 31, 2014 and 2013 revealed no uncertain tax positions that would have a material impact on the financial statements. During the years from 2011 to 2014, which represent the years management considers to be open for examination by taxing authorities, management did not identify the existence of any uncertain tax positions. The Plan does not believe that any reasonable possible changes will occur within the next twelve months that will have a material impact on the financial statements.

NOTE 11 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through the report date, which represents the date of the financial statements were available to be issued.
