NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Benesch, Friedlander, Coplan and Aronoff Elective Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Benesch, Friedlander, Coplan and Aronoff LLP (the Firm) who have completed one month of service and have attained age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Plan is administered by the Firm's Retirement Plan Committee (Committee), which is a committee appointed by the Board of Directors of the Firm. The assets of the Plan are invested in the Benesch, Friedlander, Coplan and Aronoff Money Purchase Pension Plan and Elective Savings Plan Master Trust (Master Trust or Benesch Friedlander Master Trust). The Master Trust is sponsored by the Firm (see Note 5).

Contributions

Participants may contribute to the Plan up to 50% of their pre-tax annual compensation, as defined in the Plan, subject to the maximum permitted by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Firm may at its discretion, make matching contributions or discretionary profit sharing contributions to the Plan for the related year. These contributions are funded in the year subsequent to their authorization. There were no discretionary contributions authorized for 2014. Contributions are subject to certain IRS limitations.

Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited with the participant's contribution, rollover contributions, allocations of the Firm's contributions, and Plan earnings or losses as defined by the Plan agreement. The Firm's matching contributions are allocated as of the last day of the Plan year and are allocated based on the ratio of a participant's payroll reduction contributions to all participant payroll reduction contributions. Allocations of the Firm's profit sharing contributions are given only to participants employed at the end of the Plan year who have completed at least 1,000 hours of service during the Plan year, and are based on participants' compensation for the Plan year relating to the contribution. Master Trust earnings, net of administrative expenses, are allocated quarterly based on each participant's account balance at the end of the quarter. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, as defined.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Firm's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant receives a lump-sum amount equal to the value of the participant's vested interest in his or her account. A participant may elect (no more often than once per year) a distribution of 25% or more of the vested portion of his or her account upon attainment of age 55 and 5 years of service. If the participant's account balance is less than \$1,000, the plan administrator directs the custodian to make a lump-sum distribution. Participants terminated for other reasons are entitled to receive their benefits as soon as administratively feasible. Distributions of a participant's account balance may be authorized by the plan administrator under certain hardship conditions after the participant has completed five years of service.

Benefit Obligations

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the plan, but who have not been paid. Plan assets allocated to these participants were \$351,141 and \$893,696 at December 31, 2014 and 2013, respectively.

Forfeitures

Forfeitures are allocated to participants in the Plan year subsequent to the year in which they were transferred to the forfeiture account. There was no balance in the forfeiture account at December 31, 2014 and 2013, and no amounts were transferred to the account in 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Adoption of ASU 2015-12

The Plan has elected to early adopt Financial Accounting Standards Board ASU 2015-12 for 2014. As such, the Plan has eliminated certain disclosures related to investments. Certain related disclosures at December 31, 2013, have been retroactively adjusted to conform to the new standard.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value as reported by Reliance Trust Company (Reliance), the custodian of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities in the Master Trust are recorded on a trade-date basis. Interest income from investments is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Allocation of Contributions, Investment Income, and Gains and Losses in the Master Trust

The assets attributable to the Plan in the Master Trust are maintained by Reliance. Investment income, gains and losses of the Master Trust are allocated to each participant based on the participant's account balance at the end of the quarter in the Master Trust.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Certain expenses of administering the Plan are paid by the Master Trust. Certain other administrative expenses are paid by the Firm and are excluded from these financial statements. Certain investment management fees are charged to the Plan as a reduction of investment return and are included in the Plan's interest in the Master Trust investment income reported by the Plan.

Income Taxes

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2014 and 2013, and for the year ended December 31, 2014, the Plan did not have a liability for unrecognized tax benefits. The Plan is no longer subject to examination by federal and state taxing authorities prior to 2011.

Subsequent Events

Plan management has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued.

NOTES TO THE FINANCIAL STATEMENTS

3. INFORMATION CERTIFIED BY CUSTODIAN

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Reliance, the custodian.

Reliance has certified as to the completeness and accuracy of the Master Trust and the Plan's interest in such investments the Master Trust holds and changes in net assets arising from Master Trust investment activity, as of December 31, 2014 and 2013, and for the year ended December 31, 2014.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access
- Level 2 Other significant observable inputs including: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 Inputs are significant and unobservable (including the Plan's own assumptions used to determine value)

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets of the Master Trust measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Mutual and money market funds: Valued at the daily closing price as reported in the active market in which the mutual and money market funds are traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

NOTES TO THE FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS (Continued)

Corporate obligations, foreign debt obligations, municipal obligations and US government and agencies securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings as of the end of the Plan year. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable such as credit and liquidity risks.

Certificates of deposit: The fair values of certificates of deposit approximate cost, as they are generally short-term in nature and bear market rates of interest (Level 2 inputs). The investment in certificates of deposit exceed federally insured balances.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. BENESCH FRIEDLANDER MASTER TRUST

The Firm maintains a Master Trust at Reliance. The only participants in the Master Trust are two employee benefit plans of the Firm. Each participating retirement plan has an undivided interest in the Master Trust.

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust (determined by participant account balances) plus actual contributions and allocated investment income, net of administrative expenses, and less actual distributions. Master Trust investment income, net of administrative expenses, is allocated quarterly to the Plan based on each participant's account balance at the end of each quarter. The underlying investments of the Master Trust are stated at fair value, as described in Note 4.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
