1. DESCRIPTION OF PLAN

The following brief description of Signature Science, LLC 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General - The Plan is a defined contribution 401(k) plan covering substantially all employees of Signature Science, LLC (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The trustee of the Plan is Reliance Trust Company (the "Trustee"). The recordkeeper is Standard Retirement Services, Inc. (the "Recordkeeper") and Company management personnel act as the administrator of the Plan.

Eligibility - The Plan is immediately available to all employees of the Company, excluding part-time and seasonal employees whose regularly scheduled service is less than 1,000 hours of service during the relevant eligibility computation period. Participants must complete 1,000 hours of service and be employed on December 31 to be eligible to receive any discretionary employer contributions.

Contributions - Participants may make pre-tax and Roth 401(k) contributions up to the maximum amount allowed by the IRC. A participant's pre-tax and Roth 401(k) contributions are separately accounted for, as are gains and losses attributable to each. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified retirement plans or individual retirement accounts.

The Company contributes safe harbor employer contributions equal to 3% of each employee's eligible compensation. The Company may also make a discretionary profit sharing or matching contribution, neither of which was elected for the year ended December 31, 2014.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is credited with the participant's contributions, the Company's contributions and an allocation of Plan earnings, and may be charged with Plan expenses, if applicable. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of $1,000 and up to a maximum of $50,000 reduced by the highest outstanding note receivable balance over the prior twelve month period or 50% of their vested account balance, whichever is less. Two notes receivable can be initiated in a calendar year. Participant notes receivable are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the Company. Notes receivable repayments are automatically deducted through after-tax payroll deductions over a period generally not to exceed five years.

Vesting - Participants are immediately vested in their salary reduction and safe harbor contributions plus actual earnings thereon. Participants are 100% vested in the Company's matching and nonelective profit sharing contributions plus earnings thereon after one year of credited service, as defined, or upon death, disability or retirement.

Payment of Benefits - Upon attainment of age 59.5, death, disability, retirement or termination of employment, a participant may elect to receive a lump sum or installment payments from the participant's vested account balance. The Plan administrator may distribute terminated participants' account balances that are less than $1,000 in a lump sum without the participants' consent. The Plan administrator may transfer terminated participants' account balances that are at least $1,000 but less than $5,000 into an individual retirement account without the participants' consent. In-service distributions for reasons of hardship result in a six-month suspension during which no contributions may be made to the participant's account.

Forfeitures - Forfeitures of unvested participant account balances may be used to reduce Company contributions. There was no forfeiture balance at December 31, 2014 and 2013 (compiled).

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan's financial statements are reported on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust ("CCT"). The statements of net assets available for benefits should present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value; however, the contract value for the CCT approximated fair value as of December 31, 2014 and 2013 (compiled). The statement of changes in net assets available for benefits is prepared on a contract value basis.

Accounting Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and Trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Notes Receivable from Participants - Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded at December 31, 2014 or 2013 (compiled). Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Benefits Paid to Participants - Benefits are recorded when paid.

Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Risks and Uncertainties - Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of investment securities in which the Plan invests. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts and distributions would be made as soon as administratively practicable after the Plan terminates.

Subsequent Events - The Company has evaluated subsequent events through October 12, 2015, the date the financial statements were available to be issued, and no events have occurred through that date that would impact the financial statements.

Recently Issued Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU No. 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value ("NAV") practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. ASU No. 2015-07 is effective for the Plan year ended December 31, 2017, and is to be applied retrospectively, with early application permitted. The Company anticipates minor disclosure changes as a result of the implementation.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient.* ASU No. 2015-12 simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts, plan investment disclosures and the measurement date practical expedient. ASU No. 2015-12 is effective for all Plan years beginning after December 15, 2015, with early application permitted. Parts I and II are to be applied retrospectively, while Part III is to be applied prospectively. This ASU should not change total net assets available for benefits; however, it may affect the presentation of the financial statements and the information contained in the disclosures.

3. FAIR VALUE MEASUREMENTS

The Plan follows a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs. There are three general valuation techniques that may be used to measure fair value: 1) market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities, 2) cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost), and 3) income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Mutual funds are valued at the daily closing price as reported by the fund, and they are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded. Units of the CCT are stated at their NAV or equivalent, as a practical expedient for fair value. The NAV of the CCT is based on the fair value of the underlying investments held by the fund less its liabilities, with fair value determined by the issuer based on independent pricing services. Withdrawals from the CCT for benefit payments, participant transfers and other permitted withdrawals must be made within thirty days after written notification has been received and are considered as made immediately after the next valuation date subsequent to the Trustee's approval. The CCT has no unfunded commitments.

The preceding valuation method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different valuation methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies used at December 31, 2014 or 2013 (compiled).

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total Fair Value

4. INFORMATION CERTIFIED BY THE TRUSTEE

All information disclosed in the accompanying financial statements, notes and supplemental schedule related to the Plan's investment assets and notes receivable from participants at December 31, 2014, and the related net investment gain and interest income for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

5. INVESTMENTS

Individual investment funds that represented 5% or more of the Plan's net assets at December 31, 2014 and 2013 are as follows:

	2014	(Compiled) 2013
Vanguard 500 Index Admiral	$ 1,943,664	$ 1,735,734

Goldman Sachs Mid Cap Value A	*	683,524

* This investment was not available or did not represent 5% or more of the Plan's net assets at December 31, 2014.

The net appreciation in fair value of mutual funds (including gains and losses on investments bought, sold and held during the year) for the year ended December 31, 2014 was $295,266.

6. TAX STATUS

The Company has not applied for a determination letter from the Internal Revenue Service ("IRS") to determine if the Plan is designed in accordance with the applicable sections of the IRC. The Plan document is based upon a volume submitter plan instrument from Sungard Business Systems, LLC which received an IRS advisory letter dated March 31, 2008. The volume submitter plan instrument has been updated for legislative and regulatory changes. The Plan fiduciaries believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for tax years prior to 2011.

Fees incurred by the Plan for related investment management services are included in net appreciation in fair value of investments. Transactions such as these qualify as party-in-interest transactions. The Company pays directly certain other fees related to the Plan's operations.
