INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of
Mesirow Financial Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Mesirow Financial Savings Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of change in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Bank and Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions.

The plan administrator has obtained a certification from the custodian as of and for the years ended December 31 2014 and 2013, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2014, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of the Mesirow Financial Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan documents for more complete information.

General

The Plan is a defined contribution plan covering all full-time employees of Mesirow Financial Holdings, Inc. and its subsidiaries (the Company), as defined. Covered employees are eligible to participate in the Plan upon date of hire. The Retirement Committee of the Company's Board of Directors controls and manages the operation and administration of the Plan. State Street Bank and Trust Company is the trustee and custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute up to 30% of eligible compensation, as defined by the plan document, subject to certain limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may designate all or a portion of their contributions as after-tax Roth 401(k) contributions.

The Company contributes to the Plan the lesser of 50% of the participant's contribution up to a maximum of 6% of the participant's compensation or $3,000. Compensation is defined as the total annual non-deferred remuneration, including commissions, overtime pay and bonuses, paid and accrued to each participant.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers twenty-four mutual funds and one common collective trust as investment options for participants.

Participant Accounts

Individual accounts are maintained for each plan participant. Participant accounts include investments in mutual funds and the common collective trust as well as loans extended to participants. Each participant's account is credited with the participant's contributions and allocations of the employer's contributions and plan earnings and charged with withdrawals and allocations of plan losses and administrative expenses. Plan earnings are allocated in proportion to each participant's balance. A participant is entitled to the benefit that can be provided from his or her vested account.

Vesting

Participants are vested immediately in their voluntary contributions, plus annual earnings thereon. Vesting in the remainder of their accounts is based on years of service. Participants are fully vested after five years of credited service, as defined.

Note 1 - Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow up to 50% of the vested portion of their accounts, from a minimum of $1,000 up to a maximum not to exceed $50,000, for periods no longer than five years, or 15 years if the proceeds of such loan are used for the purchase of the borrower's principal residence. Loans are secured by the participant's account balance. Each participant is permitted to hold a maximum of two loans under the plan at any point in time. The loans are charged interest at the prime interest rate, as published in the Wall Street Journal, at the time the funds are borrowed.

Forfeited Accounts

Forfeited balances of terminated participants are retained in the affected participant's accounts until there are five consecutive breaks in service. A break in service is defined as a period of 12 consecutive months, commencing with an employee's termination of employment, during which the employee does not complete 501 or more hours of service for the Company. If such a participant is rehired before incurring five consecutive breaks in service, such amount is not forfeited. If such a participant is not rehired after five consecutive breaks in service, the amount shall be considered forfeited and shall be used to reduce the current year's employer contribution or administrative expenses. Forfeitures of $71,818 were used to reduce employer contributions, no forfeitures were used to correct participant accounts, and forfeitures of $38,037 were used to pay administrative expenses during the year ended December 31, 2014. Unapplied forfeitures totaled $178,903 and $115,062 as of December 31, 2014 and 2013, respectively.

Rollovers

Rollovers are the transferring of assets directly into the plan from other retirement plans, qualified under the Internal Revenue Code (IRC), by individuals initiating employment with the Company.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period not to exceed the life expectancy of the participant and his or her spouse or designated beneficiary. For termination of services for other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

Included in benefits paid to participants are terminated taxable loan balances totaling $252,670 for the year ended December 31, 2014.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investments

Investments are reported at fair value in accordance with U.S. GAAP. See Note 3 for a further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Diversified Stable Pooled Fund

Under U.S. GAAP, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. U.S. GAAP requires investments in fully benefit-responsive investment contracts to be presented at fair value in the statements of net assets available for benefits and that the amount representing the difference between fair value and contract value of these investments to also be presented as a separate line item in the statements of net assets available for benefits. The Plan invests in fully benefit-responsive investment contracts held in the Diversified Stable Pooled Fund. Since the fair value and contract value of the Stable Pooled Fund are approximately equal as of December 31, 2014 and 2013, the Plan's financial statements do not include a separate line item that reconciles the difference between the two values.

Notes Receivable from Participants

Notes receivable from participants are measured at their principal balance plus any accrued interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Expenses

Administrative expenses for the Plan, including legal, trustee and consulting fees, are paid by the Plan to the extent not paid by the Company.

Payment of Benefits

Benefit payments to participants are recorded when paid. As of December 31, 2014 and 2013, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but had not yet been paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). Under the standard, investments for which fair value is measured at net asset value per share (or its equivalent) using the practical expedient will no longer be categorized in the fair value hierarchy. It is effective for fiscal years and interim periods beginning after December 15, 2015, but early adoption is permitted. The Plan is evaluating the impact the adoption of this standard will have on its financial statements.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965). Under Part I of the standard, fully benefit-responsive investment contracts are now measured, presented and disclosed only at contract value. Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent 5 percent or more of net assets available for benefits, and the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period still is required to be presented in the aggregate, but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and nonparticipant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Lastly, Part III of the standard permits plans to use a practical expedient that allows employers to measure defined benefit plan assets using an alternative measurement date in certain cases. It is effective for fiscal years beginning after December 15, 2015, but early adoption is permitted. The Plan will adopt the guidance during the 2016 Plan Year.

Subsequent Events

The plan administrator has evaluated subsequent events through October 2, 2015, the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under U.S. GAAP, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability at the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

U.S. GAAP describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. U.S. GAAP does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

Note 3 - Fair Value Measurements (continued)

The Plan's investments are classified in one of the following three categories based upon the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2014 and 2013, the following valuation methodologies have been used to value the Plan's investments:

- Mutual funds - Valued at the reported net asset value (NAV) of the shares held by the Plan at year-end.

- Common collective trust - Valued at the NAV per unit as determined by the administrator of the trust. Such NAV is based on the value of the underlying assets and liabilities of the trust. The investment objective of the trust held by the Plan is to preserve principal and provide a stable return over the life of the investment. Participants may transfer funds in and out of the trust on a daily basis without any prohibitive restrictions. Additionally, there are no unfunded commitments.

- Interest-bearing cash - Valued based on principal plus accrued interest.

The methods described above may produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The Plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and will materially affect the amounts reported in the statements of net assets available for benefits.

Note 3 - Fair Value Measurements (continued)

The following tables summarize by level within the fair value hierarchy the Plan's investments as of December 31, 2014 and 2013:

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common Collective Trust	$ 158,003
Mutual Funds	5,005,522
	$ 5,163,525

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of the Plan's investments reflected in the statements of net assets available for benefits as of December 31, 2014 and 2013, the schedule of assets (held at end of year) as of December 31, 2014, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014, as indicated above and in total.

Note 5 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

Note 6 - Federal Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter, dated February 12, 2009, that the Plan was designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter.

Note 6 - Federal Income Tax Status (continued)

However, the Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan continues to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Party-in-Interest Transactions

Diversified is the Plan's record keeper and State Street Bank and Trust is the Plan's custodian. The Plan has assets invested with these entities and their affiliates. Such investment transactions qualify as party-in-interest transactions, which are exempt under the prohibited transaction rules.
