1. DESCRIPTION OF PLAN

The following description of the Bob Smith BMW / Mini 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions

General: The Bob Smith BMW / Mini 401(k) Plan (the "Plan") was established to provide retirement benefits for eligible employees of Robert Smith BMW, Inc., (the "Company). All employees age 21 and over are eligible to enter the plan on the next quarterly enrollment date coincident with or next following completion of the following: 90 days of service. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Total contributions, both participant and employer, including discretionary, are subject to the limits of the Internal Revenue Code (the "IRC") Section 415(c). Participant contributions and employer discretionary contributions of certain highly compensated participants may also be limited based on contribution nondiscrimination tests described in IRC Section 401(k) and 401(m).

Total contributions include participant pretax elective deferrals and employer matching contributions. Participants may also contribute amounts representing distributions from qualified plans. Employer matching contributions are equal to a discretionary percentage, up to 4% of participant compensation.

Participant Accounts and Vesting: Each participant's account is credited with the contributions and the earnings of each participant's self-directed account. The Plan's earnings are allocated according to participants' investment choices.

Participants are immediately vested in their contributions plus actual earnings thereon. That portion of the participants' account attributable to employer contributions is vested upon attainment of the normal retirement age of 65, or in the event of death or total disability or 20% vested after the completion of 2 vesting years of service, plus 20% of the completion of each of the next 3 vesting years of service and 100% vested thereafter.

Distributions to Participants: Amounts credited to an individual participant's accounts are distributed at termination of employment as a lump sum or in installments. Distributions may be deferred until the participant reaches the age of 70 1/2. However, the plan agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age 70 1/2.

1. DESCRIPTION OF PLAN (Continued)

Forfeited Accounts: Forfeitures of contributions other than matching contributions will be added to the employer's contribution under the Plan. Forfeitures of matching contributions will be used to reduce the employer's matching contributions. For the years ended December 31, 2014, and 2013, $8,441 and $12,169 respectively, of the forfeited, nonvested accounts were used to reduce employer contributions.

Plan Termination: The Company has the right to terminate the Plan at any time. In the event of plan termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant within 90 days of the termination.

Participant Loans: Participants may borrow from their fund accounts a minimum of $1,000. The loans are secured by the balance in the participants' account and bear interest commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through semi-monthly payroll deductions.

Plan Expenses: The Plan sponsor absorbs all significant costs associated with the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements are prepared using the accrual method of accounting.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Please also see the following separate note numbered 7 titled "Fair Value Measurements"

Payment of Benefits: Benefits are recorded when paid.

3. TAX STATUS

Income Tax: The Plan obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

6. RELATED PARTY TRANSACTIONS

All plan investments are shares of mutual funds managed by Capital Bank and Trust. Capital Bank and Tru is the trustee as defined by the Plan and, therefore, these tranactions qualify as party-in-interest transactions

7. FAIR VALUE MEASUREMENTS

The Plan reports its investments at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilites (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value of hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for indentical assets or liabilities in the active markets.

Level 2 Inputs to the valuation methodololgy include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value of investments measured under this hierarchy as of December 31, 2014 and 2013 is as follows:
