NORTH OHIO HEART CENTER, INC. 401(k) SAVINGS PLAN AND TRUST

Notes to Financial Statements

December 31, 2014 and 2013

Note 1 - Plan Description

The following description of North Ohio Heart Center, Inc. 401(k) Savings Plan and Trust ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Nature of operations

The Plan is a defined contribution plan covering all full-time employees of North Ohio Heart Center, Inc. who have met age and service requirements, as defined in the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

An eligible employee may elect to participate in a salary deferral agreement with the Company. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 25% of the first 6% of base compensation that a participant contributes to the Plan. Matching Company contributions are made at the discretion of the Board of Directors of the Company each year. Additional profit sharing amounts may be contributed at the option of the Board of Directors of the Company, and are invested in a portfolio of investments, as directed by the Company. Contributions are subject to certain limitations.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of the Plan's earnings, and is charged with withdrawals and an allocation of the Plan's losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and payment of benefits

The employee benefit in the participant deferral account shall be 100% vested at all times. Upon death, disability, or normal retirement, the Company's contribution balance becomes fully vested. Upon termination of employment for reasons other than death, disability, or retirement, the Company's contribution balance become 100% vested after six years of credited service, as defined by the Plan agreement.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000, up to maximum equal to the lesser of \$50,000, or 50% of their account balance. The loans are secured by the balance in the participant's account and bear a reasonable interest at rate. The Plan administrator determines the rate of interest at the time the loan is made, presently prime plus 1%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Forfeited accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$1,431 and \$6,267, respectively. These accounts may first be used to pay plan expenses, and then reduce employer contributions. During 2014, the amount of forfeited non-vested accounts used to pay plan expenses was \$5,115.

Note 1 - Plan Description (Continued)

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provision of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accounting records of the Plan are maintained on the accrual basis.

Use of estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances, the amounts reported in the statements of assets available for benefits, and the statement of changes in assets available for benefits.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

All expenses of maintaining the Plan are paid by the Plan.

Adoption of accounting standard

In 2014, the Plan adopted FASB Accounting Standards Update 2015-12, which simplified the reporting for employee benefit plans as follows:

Note 2 - Summary of Significant Accounting Policies (Continued)

Adoption of accounting standard (continued)

- Fully-benefit responsive investment contracts are to be reported at contract value;
- Disclosure of investments that are 5% or greater than net assets available for benefits are no longer required to be disclosed separately;
- The disclosure of net appreciation (depreciation) in the fair value of investments is shown in total;
- Other disclosure changes.

There was no material impact on the Plan's net assets or changes in net assets upon adoption of the new standard.

The financial statements for December 31, 2013 and the year then ended have been retroactively restated for this change.

Note 3 - Investments

Note 5 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 15, 2010 that the Plan related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the determination letter, the Plan's administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Note 5 - Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 - Fair Value Measurement

FASB ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data, by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 7 - Fair Value Measurement (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs, and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Common / collective trusts (CCT): Valued at the net asset value of shares held by the Plan at year-end for the underlying securities held in all of the trust's commingled accounts. While NAV for a CCT is quoted in a market that is not active; classification in the fair value hierarchy is based on the observability of the investments held in the CCT. Accordingly, the Plan has classified the CCT based on the lowest level input that is significant to NAV.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
