Notes to Financial Statements

1. Description of the Plan

The following description of the Vocon Design, Inc. 401k Plan and Trust (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a participant-directed defined contribution plan and an employer nonelective contribution plan covering substantially all employees of Vocon Design, Inc. (the “Company”). Employees become eligible to participate in the plan upon attaining age 21. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to contribute up to the lesser of 100% of their pretax annual compensation as defined in the Plan or the legal limitation for the applicable year. The Plan also allows for Roth contributions. Participants may also contribute amounts representing distributions from other certain qualified plans. The Company makes a matching contribution on behalf of each participant equal to 25% of the participants’ contributions up to 4% of base compensation that a participant contributes to the Plan. The matching contribution begins the first quarter following the first year of employment and must be employed on the last day of the year to receive the match. Additional profit sharing contributions may be contributed at the option of the Company. Contributions are subject to certain limitations. There were no discretionary profit sharing contributions made during 2014 and 2013.

Participant Accounts

Each participant’s account is credited with the participant’s contributions; the Company’s matching contributions, and an allocation of the Plan’s earnings, net of administrative fees, as defined by the Plan document. Allocations of earnings are based on participant account balances. Optional amounts contributed to the Plan by the Company are allocated to participant accounts based on compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Contributions are invested at the election of the participants in funds maintained by the Plan’s custodian. Participants may elect to have contributions allocated between funds.

Vesting

Participants are fully vested immediately as to all their contributions plus earnings thereon. Participants vest in Employer matching and profit sharing contributions ratably over a six-year period with 20% being vested upon two years of service, 20% for each year of service thereafter, and full vesting after the sixth year of service.

See accompanying independent auditor’s report.

Vocon Design, Inc. 401k Plan and Trust

Notes to Financial Statements

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the vested portion of his or her account. The Plan complies with applicable sections of the Internal Revenue Code regarding mandatory cash-out distributions.

Forfeiture Accounts

If, upon termination of employment, a participant is not 100% vested in his or her account balance, the non-vested portion will become a “forfeiture” upon the date that the participant receives the distribution of their vested account balance. Forfeitures of terminated participants’ nonvested accounts are applied to reduce future Company contributions. At December 31, 2014 and 2013, unallocated forfeited nonvested accounts totaled \$5,110 and \$4,806 respectively. The Company did not use forfeited nonvested amounts to reduce the employer contribution or to pay administrative expenses during 2014.

Notes Receivable from Participants

Loans are permitted to be made to active participants. The notes receivable documenting the loans are secured by the participant’s vested interest in the Plan and must be for a minimum of \$1,000 up to the lesser of one half of the participant’s vested account balance or \$50,000. The loan repayment period may not be less than one year and may not exceed five years unless the loan is used to purchase a participant’s principal residence. The loans are secured by the vested balance in the participant’s account and bear interest at a rate of 4.25%, which is commensurate with reasonable rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Financial Hardship Withdrawals

Financial hardship withdrawals of participants’ voluntary deferral contributions are permitted in specialized circumstances of immediate and heavy financial need. These withdrawals may be subject to a 10% penalty. A participant who receives a hardship distribution of voluntary contributions shall be prohibited from making elective deferrals for six months after receipt of distribution.

Plan Administration

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses related to custodian services are paid by the Plan, while accounting fees are paid by the Company.

See accompanying independent auditor’s report.

The financial statements are prepared on the accrual basis of accounting in conformity with generally accepted accounting principles of the United States of America ("GAAP").

Valuation of Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis; interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold, as well as held, during the period.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Distributions

Distributions are recognized during the period in which they are paid to a plan participant.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

Recent accounting pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which seeks to eliminate diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. The standard is effective for annual periods beginning after December 15, 2015. The Plan adopted ASU No. 2015-07 for the Plan year ended December 31, 2014 and applied the amendments retrospectively, which did not have an effect on the Plan's net assets available for benefits or its change in net assets available for benefits.

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient - consensus of the Emerging Issues Task Force. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan adopted ASU No. 2015-12 for the Plan year ended December 31, 2014 and applied the amendments retrospectively, which did not have an effect on the Plan's net assets available for benefits or its change in net assets available for benefits.

Subsequent Events

The Plan's administrator has evaluated subsequent events through October 13, 2015, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and/or disclosed in the notes.

3. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;

See accompanying independent auditor's report.

Notes to Financial Statements

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2014 and 2013.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investments held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. Registered investments held by the Plan are deemed to be actively traded.

Common/collective trust: Valued at the NAV of units of a bank, trust company, or similar institution. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Information Prepared and Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held as of December 31, 2014 and 2013, net appreciation (depreciation) in fair value of investments, and interest and dividend income for the year ended December 31, 2014, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the custodian. As elected by the plan administrator, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Federal Income Tax Status

The Plan uses a non-standardized form of a prototype plan document sponsored by Flexible Benefits Systems Inc. and obtained a determination letter from the Internal Revenue Service (IRS) dated October 29, 2008, which states that the prototype document satisfies the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS and has since been amended. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the notes to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Party-in-Interest Transaction

Transactions that qualify as party-in-interest consist of notes receivable from participants.

See accompanying independent auditor's report.
