INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of the Gaylord Hospital 403(b) Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Gaylord Hospital 403(b) Plan (the Plan), which comprise the statement of net assets available for plan benefits as of December 31, 2014 and the related statement of changes in net assets available for plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimers of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company (State Street) and Transamerica Financial Life Insurance Company, Inc. (TFLIC) except for comparing such information with the related information included in the 2014 financial statements. We have been informed by the Plan Administrator that State Street and TFLIC hold the Plan's investment assets and execute investment transactions. The Plan Administrator has obtained certifications from State Street and TFLIC as of December 31, 2014, and for the year then ended that the information provided to the Plan Administrator by State Street and TFLIC is complete and accurate.

As described in Note 2, the Plan has excluded from investments in the accompanying statement of net assets available for plan benefits as of December 31, 2014, the assets held in certain annuity contracts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans and Field Assistance Bulletin No. 2010-1 Annual Reporting and ERISA Coverage of 403(b) Plans. The investment income and distributions related to such annuity contracts have also been excluded from the accompanying statement of changes in net assets available for plan benefits for the year ended December 31, 2014. Accounting principles generally accepted in the United States of America require

that these annuity contracts and the related investment income and distributions be included in the accompanying 2014 financial statements. If these annuity contracts were included in the accompanying 2014 financial statements, investments and net assets available for plan benefits would increase by approximately \$8,311,299 as of December 31, 2014, and investment income and benefits paid would increase by approximately \$471,534 and \$570,179, respectively, for the year ended December 31, 2014.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer Opinion paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these 2014 financial statements.

Other Matters

The statement of net assets available for plan benefits of the Plan as of December 31, 2013 and the related statement of changes in net assets available for plan benefits for the year then ended (2013 financial statements of the Plan), were reported on by Saslow Lufkin & Buggy, LLP (SLB) who combined with Crowe Horwath LLP as of July 1, 2015, and whose report dated September 25, 2014 disclaimed an opinion for the same reasons described in the first Basis for Disclaimer of Opinion Paragraph above and because of inadequacies in the Plan's prior year records such that they were unable to perform auditing procedures with respect to individual participant account balances accumulated from inception of the Plan or to satisfy themselves as to the basis on which participants' equity is stated as of December 31, 2013 or the propriety of the distributions to participants who terminated and withdrew from the Plan during the year then ended. Additionally, the September 25, 2014 report of SLB indicated that the 2013 financial statements of the Plan excluded certain annuity contracts issued to current and former employees prior to January 1, 2009, and that the effects of this departure from generally accepted accounting principles on the Plan's 2013 financial statements were not reasonably estimable.

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we do not express an opinion on the supplemental schedule.

Gaylord Hospital 403(b) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2014 and 2013

Note 1 - Description of the Plan

General - The Gaylord Hospital 403(b) Plan (the Plan) was originally established effective as of January 1, 2005, and was amended and restated effective as of November 1, 2010. The Plan is a defined contribution plan covering all full time and part time employees of Gaylord Hospital, Inc. (the Hospital) under section 403(b) of the Internal Revenue Code (IRC or the Code). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following is a brief description of the Plan. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

Eligibility - All employees who are not members of an excluded class are eligible to participate in the Plan, upon date of hire.

Contributions - Each year, participants may elect to contribute a specific percentage of their compensation in pre-tax deferrals or roth deferrals. Elective deferrals may not exceed the established limitations of the Code. The elective deferral limit for 2014 and 2013 is \$17,500. Participants that are age 50 or older are allowed to defer additional amounts, referred to as catch-up contributions, up to the limits established by the IRC of \$5,500 for 2014 and 2013. Participants may also contribute amounts representing distributions from other qualified plans.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed pooled separate account for participants.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of investment earnings and administration fees. Allocations are based on account balances, as defined. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon.

Benefit Payments and Withdrawals - Upon retirement, death, disability or termination of service, participants may elect to receive either a lump-sum amount equal to the value of the participants vested interest in his or her account or monthly, quarterly, semi-annual or annual installments over the participant's life expectancy or the joint life expectancy of the participant and spouse as defined within the Plan.

A participant may request an in-service distribution upon reaching age 59.5. Additionally, a participant may request an in-service distribution on account of a financial hardship, which includes certain medical expenses, purchase of a principal residence, payment of tuition and prevention of eviction from principal residence.

Notes Receivable from Participants - Participants may borrow from their funded accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants are limited to one outstanding loan at any time. Loan terms range from one to five years, but can be extended up to fifteen years for the purchase of a primary residence or beyond five years if the participant is on an authorized leave for military service. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably through biweekly payroll deductions. As of December 31, 2014, there were three loans outstanding with interest at 4.25%. As of December 31, 2013, there was one loan outstanding with interest at 4.25%.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

The Plan Administrator has elected to exclude from investments, in the accompanying statements of net assets available for plan benefits, certain annuity contracts issued to current and former employees prior to January 1, 2009, as permitted by the *Department of Labor Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans*. The investment income (loss) and distributions related to such contracts have also been excluded from the accompanying statements of changes in net assets available for plan benefits.

Gaylord Hospital 403(b) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (continued)

If these annuity contracts were included in the accompanying financial statements, investments and net assets available for benefits would increase by approximately \$8,311,299 and \$8,429,403 as of December 31, 2014 and 2013, and investment income and benefits paid would increase by approximately \$471,534 and \$570,179, respectively, for the year ended December 31, 2014. Investment income and benefits paid would increase by approximately \$1,398,366 and \$432,970, respectively, for the year ended December 31, 2013. Accounting principles generally accepted in the United States of America (GAAP) requires that these contracts and the related income and distributions be included in the accompanying financial statements.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are valued at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts - While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for plan benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for plan benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in a fully benefit-responsive contract through its investment in a guaranteed pooled separate account.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of Benefits - Benefits to participants are recorded when paid.

Administrative Expenses - Expenses incurred in the administration of the Plan are paid by the Hospital. However, certain fees are charged to the participants in connection with investment and certain participant directed transactions.

Reclassifications - Certain 2013 amounts have been reclassified to conform with the 2014 financial statement presentation. Such reclassifications did not have a material effect on the financial statements.

Subsequent Events - Subsequent events were evaluated through October 13, 2015, which is the date the financial statements were available to be issued. Management believes there are no subsequent events, which would have a material impact on the financial statements.

Note 3 - Unaudited Information - Investments and Notes Receivable from Participants

Information presented in the accompanying financial statements as of and for the years ended December 31, 2014 and 2013, for investments, notes receivable from participants, investment income and interest income on notes receivable from participants was derived, without audit, from information certified to be complete and accurate by State Street Bank and Trust Company (State Street) and Transamerica Financial Life Insurance Company (TFLIC), as permitted by the election made by the Plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. This certified information has not been audited by independent accountants.

Note 4 - Investments

The Plan's mutual funds (including investments bought, sold, as well as held during the period) appreciated in value by \$68,109 and \$343,297 for the years ended December 31, 2014 and 2013, respectively.

Individual investments that represent five percent or more of net assets available for plan benefits as of December 31, 2014 and 2013, are as follows:

	<u>2014</u>	<u>2013</u>
T. Rowe Price Growth Stock	\$ 374,732	\$ 340,344
PIMCO Total Return Fund	\$ 304,446	\$ 266,302
Vanguard Target Retirement 2025	\$ 208,819	*
American Century Value Instl	\$ 201,888	*
TFLIC Guaranteed Pool Fund	\$ 194,825	\$ 357,987
American Beacon Small Cap Value	\$ 161,074	\$ 151,335
Thornburg International Value	*	\$ 234,885
BlackRock Equity Dividend	*	\$ 189,780

* The fair value of this investment did not represent more than five percent of the Plan's net assets available for plan benefits.

Note 5 - Fair Value Measurements

FASB ASC 820, "*Fair Value Measurements and Disclosures*," provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has specified (contractual) terms, the Level 2 input must be observable for substantially the full term of the asset.

Gaylord Hospital 403(b) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2014 and 2013

Note 5 - Fair Value Measurements (continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Guaranteed Pooled Separate Account: The fair value is estimated by TFLIC based on the fair value of underlying assets held by the insurance company within the Guaranteed Pooled Separate Account. The Plan does not own units of the Pooled Separate Account and does not have an ownership interest in any of the specific investments held by the insurance company in the Guaranteed Pooled Separate Account.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds:

Note 6 - Investment in Guaranteed Pooled Separate Account

The Plan entered into a fully benefit-responsive investment contract in the guaranteed pooled separate account with TFLIC. Amounts deposited under this traditional group annuity contract are held in a non-unitized separate account of TFLIC.

As described in Note 2, because the guaranteed pooled separate account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by TFLIC, represents the accumulation of contributions, plus interest, less funds used to pay benefits and expenses.

Participants can withdraw their balances at contract value without restriction or charge on account of any of the following events: death, disability, retirement, terminations of employment, hardship, loans, attainment of age 59 ½, or the purchase of an annuity from TFLIC. Participants may also transfer their funds out of this investment subject to a ninety day equity wash. However, other withdrawals and withdrawals due to employer initiated events that exceed a certain percentage may be subject to restriction and / or a 5% withdrawal charge.

The repayment of principal and interest credited to participants is a financial obligation of TFLIC. Guarantees are based on the claims-paying ability of the issuer. As of December 31, 2014 and 2013, there are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the guaranteed pooled separate account as of December 31, 2014 and 2013 was \$191,568 and \$355,604, respectively. The fair value as of December 31, 2014 and 2013 was \$194,825 and \$357,987, respectively.

The contract contains a minimum guaranteed interest rate. At the beginning of each calendar year, TFLIC determines the declared interest rate which will be credited to all monies invested in the guaranteed pooled separate account during such calendar year. In no event will the declared rate of interest be less than the contracts minimum guaranteed interest rates. As of December 31, 2014 and 2013, the declared interest rate is 0.98% and 1.14%, respectively. The yield earned as of December 31, 2014 and 2013 is 1.79% and 1.87%, respectively.

Note 6 - Investment in Guaranteed Pooled Separate Account (continued)

Certain events limit the Plan's ability to transact at contract value with TFLIC. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The plan administrator does not believe any events or circumstances that would allow the issuer to terminate the contract with the Plan and settle at an amount different than contract value exist.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Party in Interest Transactions

State Street and TFLIC are parties-in-interest as defined by ERISA. As of December 31, 2014 and 2013, the Plan invested in a guaranteed pooled separate account with TFLIC and therefore transactions involving this instrument are considered party-in-interest transactions. During the years ended December 31, 2014 and 2013, fees paid by the Plan to State Street and TFLIC totaled \$16,256 and \$14,744, respectively. Notes receivable from participants also reflect party-in interest transactions.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Note 10 - Tax Status

The Plan terms have been drafted in reliance on the sample language provided by the Internal Revenue Service in Revenue Procedures 2007-71. The Plan Administrator intends to apply for a determination letter on the Plan when the government opens such program. The Plan is required to operate in conformity with the Code to maintain its tax exemption status. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

In accordance with GAAP, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more than likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.
