Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements

December 31, 2014

1. Description of the Plan

The following description of the Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan, established on January 1, 1996, is a noncontributory, defined-benefit pension plan that provides retirement benefits for hourly paid employees of Schneider Electric USA, Inc. (the Company) under certain collective bargaining units. The Plan was closed to new hires on or after October 3, 2011.

The Employee Benefits Administrative Committee of the Company controls and manages the operation and administration of the Plan. State Street Bank and Trust Company (the Trustee) serves as trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan's investment assets are held in a trust account and consist of an undivided interest in an investment account of the Schneider Electric USA, Inc. Common Trust (the Master Trust), a master trust established by the Company and administered by the Trustee.

Effective April 22, 2014, the Plan was amended and began notifying certain eligible participants of an offer to pay those individuals' pension benefit in a lump sum. Individuals eligible for the voluntary lump-sum payment option were generally participants who terminated employment on or prior to March 31, 2014, were entitled to a future benefit, had not commenced receipt of their pension benefit as of September 30, 2014, and whose vested benefit was below a specified threshold as of May 1, 2014. The 2014 lump-sum payments amounted to approximately \$12.7 million.

Effective September 15, 2014, the Plan was amended such that no participant will accrue additional benefit service after December 31, 2015.

The accumulated benefit obligation disclosed in Note 5 does not reflect the impact of these amendments.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Pension Benefits

Under the Plan, employees retiring at their normal retirement date are entitled to defined-retirement benefits as specified in the plan document. Covered employees with five or more years of vesting service become fully vested in the Plan and are eligible for pension benefits upon attainment of retirement age or any time after age 55 with 10 or more years of vesting service.

The amount of benefits to be provided at the time of retirement depends upon an employee's years of benefit service and the pension rate in effect on the date of termination. The Plan provides for normal retirement, early retirement, disability retirement, family death benefits, deferred retirement, and spouse's death benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Reclassifications

Certain prior year amounts in the footnotes to the financial statements have been reclassified to conform to the current year presentation.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

The Plan's investments are held in the Master Trust and are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 8 for further discussion of fair value measurements.

A participating allocated contract exists from a prior merged plan for which the Plan receives income. This contract was transferred into the Master Trust during 2014.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Plan pays most of its administrative expenses. All other administrative expenses of the Plan are paid by the Company. The Plan's sponsor provides accounting and other administrative services to the Plan at no charge.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee services rendered to the valuation date.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In May 2015, the Financial Account Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management does not believe adoption of the guidance will have a significant impact as it impacts only disclosure.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (Topic 960), *Defined Contribution Pension Plans* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965): (Part I) *Fully Benefit-Responsive Investment Contracts*, (Part II) *Plan Investment Disclosures*, (Part III) *Measurement Date Practical Expedient*. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management does not believe adoption of the guidance will have a significant impact as it impacts only disclosure.

Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

3. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2014 and 2013. The Company made contributions of \$18,109,671 and \$19,003,820 for 2014 and 2013, respectively.

4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances and subject to bargaining with the collective bargaining units representing employees covered by the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

5. Accumulated Plan Benefits

An independent actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

5. Accumulated Plan Benefits (continued)

The accumulated plan benefit information is as follows:

	December 31, 2013
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 215,981,502
Other participants	118,342,490
Non-vested benefits	7,286,633
	<u>\$ 341,610,625</u>

The changes in accumulated plan benefits are as follows:

Accumulated plan benefits – December 31, 2012	\$ 287,766,510
Changes during the year attributable to:	
Benefits accumulated and actuarial gains	1,146,623
Benefits paid	(20,963,310)
Increase for interest	20,810,576
Assumption changes	52,850,226
Net increase	<u>53,844,115</u>
Accumulated plan benefits – December 31, 2013	<u>\$ 341,610,625</u>

The significant actuarial assumptions used in the valuations were:

Assumed rate of return	2013 – 6.00% 2012 – 7.50%
Retirement age	Various rates ranging from 2.5% at age 55 to 100% at age 70
Life expectancy of participants	2013 – RP 2014 Blue Collar Table 2012 – IRS 2012 Applicable Mortality Table

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

5. Accumulated Plan Benefits (continued)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the IRS) dated February 22, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

7. Master Trust

The investment in the Master Trust represents the Plan's undivided ownership of the net assets of the Master Trust, which have been accumulated through the Company's contributions and investment activity of the Master Trust, less benefit payments and any transfers to an insurance carrier. Use of the Master Trust permits the commingling of trust assets with the assets of other defined-benefit pension plans sponsored by the Company. Although assets of all plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2014 and 2013, and net appreciation (depreciation) in fair value of investments, interest, dividends, and investment expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

At December 31, the net assets of the Master Trust are summarized as follows:

8. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

8. Fair Value Measurements (continued)

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in markets that are not active.
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation techniques and inputs used for assets measured at fair value:

Private equity investment funds: Valued at the net asset value (NAV) provided by the investment fund managers. The NAV is calculated using valuation models developed by the investment fund managers and independent third-party appraisals.

Common/collective trust funds: Valued at the NAV provided by the administrators of the funds. The NAV is based on underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Short-term investment fund: Valued at cost, which represents fair value.

- (a) This category includes common/collective trust funds that are designed to produce a relatively high level of current income combined with moderate appreciation potential. This fund is primarily invested in real estate investments owned directly or through partnership interests and mortgage loans or income-producing real estate. A 45-day redemption notice is required to liquidate the fund. This category also includes a common/collective trust fund that is designed to generate a high level of total return through above-average current income while maintaining the potential for capital appreciation. This fund is primarily invested in equity securities of issuers whose value is derived from development, management, and market pricing of underlying real estate properties. There are no redemption restrictions to liquidate this fund.
- (b) This category includes common/collective trust funds that are designed to provide total return through investments in a diversified portfolio of investment-grade, fixed-income securities. This category also includes common/collective trust funds that are designed to provide total return through investments in a diversified portfolio of debt securities that are rated below investment grade or unrated. The redemption notice period is 15 business days (or such shorter period agreed to by the Trustee) for these funds. In normal functioning capital markets, generally there are no redemption restrictions to liquidate these funds.

8. Fair Value Measurements (continued)

- (c) This category includes common/collective trust funds that are designed to provide a diversified profile of equity securities and emphasis on capital appreciation over an extended period of time. The redemption notice period is 15 business days (or such shorter period agreed to by the Trustee) for these funds. In normal functioning capital markets, generally there are no redemption restrictions to liquidate these funds.
- (d) This category includes limited partnership investments, which offer portfolio diversification along with higher expected long-term market returns. These investments are 5 to 17 years old. The private equity investments can generally not be liquidated until the fund is fully distributed and terminated.

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 assets as of December 31:

	Private Equity Investment Funds
Balance, January 1, 2013	\$ 97,629,425
Unrealized losses relating to instruments still held at the reporting date	(6,408,422)
Realized losses	(2,849,504)

Balance, December 31, 2013	80,154,573

Purchases	4,516,011
Balance, December 31, 2014	<u><u>\$ 77,336,311</u></u>

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

9. Risks and Uncertainties (continued)

The Plan's contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Related Party Transactions

The Master Trust holds units of common/collective trust funds in which State Street Bank and Trust Company, the Trustee, is a sub-advisor or manager of these funds. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

11. Subsequent Events

Management has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued. No material events have occurred.

Prescribed Funding Assumptions and Methods

Mortality

Mortality tables for non-disabled participants mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants. For disabled participants, mortality is based on Rev. Rule 96-97 Post 1994 Disabled Mortality.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

EIN/PN: 36-2440683 / 203

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor and is an acceptable method under PPA.

Expenses

Expected plan administrative expenses of \$1,464,556 were added to the Target Normal Cost. The amount is based on the prior year's administrative expenses, plus this year's expected PBGC premiums payable from the plan.

Frequency of optional payment forms

The underlying assumption is that 55% of future retirees will choose the life only option, while the remaining future retirees will choose a Joint and Survivor option.

Marital percentage

80% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Mortality table

The non-disabled mortality table is applied on a static basis. Separate annuitant and non-annuitant tables were used.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by decreasing fractions, 2/3 and 1/3, of the of the gain/(loss) in each of the prior 2-years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2014 Expected Return	6.00%	6.99%	6.00%
2013 Expected Return	7.50%	6.76%	6.76%
2012 Expected Return	7.50%	7.52%	7.50%

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Prescribed Funding Assumptions and Methods

Mortality

Mortality tables for non-disabled participants mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants. For disabled participants, mortality is based on Rev. Rule 96-97 Post 1994 Disabled Mortality.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

EIN/PN: 36-2440683 / 203

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor and is an acceptable method under PPA.

Expenses

Expected plan administrative expenses of \$1,464,556 were added to the Target Normal Cost. The amount is based on the prior year's administrative expenses, plus this year's expected PBGC premiums payable from the plan.

Frequency of optional payment forms

The underlying assumption is that 55% of future retirees will choose the life only option, while the remaining future retirees will choose a Joint and Survivor option.

Marital percentage

80% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Mortality table

The non-disabled mortality table is applied on a static basis. Separate annuitant and non-annuitant tables were used.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by decreasing fractions, 2/3 and 1/3, of the of the gain/(loss) in each of the prior 2-years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2014 Expected Return	6.00%	6.99%	6.00%
2013 Expected Return	7.50%	6.76%	6.76%
2012 Expected Return	7.50%	7.52%	7.50%

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.
