Note 1 – Description of Plan

The following description of the Oxbow Calcining LLC Salaried Employees' Retirement and Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan was formed in February 1992 and is a defined contribution plan covering all salaried full-time employees of a controlled group of corporations consisting of Oxbow Calcining LLC and Oxbow Midwest Calcining LLC (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Investment Committee, which is the Plan Administrator and is comprised of affiliated employees to the Company. The Plan has contracted with Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal") to act as trustee and recordkeeper under the Plan.

The plan document was amended and restated January 1, 2014 under a Non-standardized Profit Sharing Plan with CODA. This restatement updated the Plan for the most recent laws and regulations. The provisions described in these financial statements were not materially affected by the restatement.

Contributions – Each year, participants may contribute up to 100% of their pre-tax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options at any time. The Company may make both discretionary matching contributions and profit sharing contributions. During the year ended December 31, 2014 the Company made discretionary matching contributions equal to 50% of each participant's contributions up to 3% of the participant's annual compensation and discretionary profit sharing contributions based on a pay formula, as defined in the plan document. The Company made discretionary contributions totaling $496,164 during the year ended December 31, 2014. All contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and Company contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provide from the participant's vested account.

Vesting – Participants are immediately 100% vested in all participant and Company contributions plus earnings thereon.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. A participant may obtain up to three loan balances at any given time. The loans are secured by the balance in the participant's account and bear interest at the prevailing rate determined at the loan's origination. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits – On termination of service due to death, disability, retirement, other reasons, or qualifying under certain "hardship" rules, as prescribed by the IRS, a participant is eligible to receive distributions from the Plan. All distributions are made in the form of a lump sum payment.

Administrative Expenses – Certain expense of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administration of notes receivable from participants and benefit payments are charged directly to the participant's account and are included in administrative expenses. Administrative expenses amounted to $7,018 during the year ended December 31, 2014.

Note 2 – Summary of Accounting Policies

The following accounting policies, which conform to accounting principles generally accepted in the United States of America ("GAAP"), have been used consistently in the preparation of the Plan's financial statements.

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting.

Change in Accounting Principle – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement* (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value ("NAV") practical expedient in Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Plan does not believe the pronouncement is applicable to this Plan.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient.* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I changes the accounting and reporting of fully benefit-responsive investment contracts ("FBRIC") as follows:

- Contract value would be viewed as the most relevant measurement for a FBRIC, eliminating the need for an adjustment from fair value to contract value;
- A synthetic investment contract would be considered a FBRIC if it meets the stated definition of a FBRIC and a wrapper of a synthetic GIC would meet the definition of a FBRIC; and
- Allows for indirect investments in a FBRIC to be valued, presented and disclosed as an investment using the NAV method prescribed in ASU Topic 820, Fair Value Measurement as opposed to being treated as a FBRIC.

Part II eliminates need to disaggregate investments by nature, risks, and characteristics, eliminates the disclosure of investments representing five percent (5%) or greater of net assets available for benefits, and eliminates the disclosure of net appreciation or depreciation for investments by general type. Part III allows for the use of a practical expedient in measuring certain investments when applicable.

Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

The Plan has elected early adoption of Parts I and II. Accordingly, the amendments were retrospectively applied resulting in a change to the Plan's disclosures around investments. There was no material effect on

the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. Part III is not applicable to this Plan.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, Principal and investments. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events – The Plan has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

Note 3 – Information Certified by Principal

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Investments held and notes receivable from participants as of December 31, 2014 and 2013 and investment income (loss) and interest income on notes receivable from participants for the year ended December 31, 2014, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained and derived from information supplied to the plan administrator and certified as complete an accurate by Principal, the trustee of the Plan.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

Pooled Separate Accounts – Valued at NAV based principally on quoted market price of the underlying investments.

Guaranteed Interest Accounts – Fair value is the amount the Plan's participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market interest rates; only to the extent such market rates exceed crediting rates.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Fair Value Measurements at December 31, 2014			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$ -	$ 11,814,499	$ -	$ 11,814,499
Guaranteed Interest Accounts	-	-	877,781	877,781
Total	$ -	$ 11,814,499	$ 877,781	$ 12,692,280

	Fair Value Measurements at December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled Separate Accounts	$ -	$ 11,401,775	$ -	$ 11,401,775
Guaranteed Interest Accounts	-	-	778,475	778,475
Total	$ -	$ 11,401,775	$ 778,475	$ 12,180,250

The tables below set forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

	Guaranteed Interest Accounts
Balance, Beginning of Year	$ 778,475
Total Gains or (Losses)	(2,856)
Interest Credited	6,186
Purchases	230,262
Issuances and Settlements	(134,286)
Balance, End of Year	$ 877,781

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	**Fair Value**	**Principal Valuation Technique**	**Significant Unobservable Inputs**	**Range of Significant Input Values**
Guaranteed Interest Accounts	$ 877,781	Assumed proceeds at discontinuance	Composite Guaranteed Rate	.16% - 1.46%
			Current Rate on 12/31/2014	.72% – 1.97%

The Plan discloses the category, fair value, subscription and redemption frequency, for those assets whose fair value is estimated using the NAV per share as of December 31, 2014 and 2013. The pooled separate accounts are valued using the NAV per share. Their redemption and subscription frequencies are daily. As of December 31, 2014 and 2013, the accounts have no redemption notice periods or unfunded commitments.

Note 5 – Transfers From Other Defined Contribution Plan

During the year ended December 31, 2014, $174,465 was transferred into the Plan. This amount represents accounts balances transferred from the Company's plan for hourly employees by personnel who became eligible salaried employees.

Note 6 – Related Party and Party-in-Interest Transactions

The Plan is subject to concentration of credit risk with respect to its investments in certain funds which are managed by Principal. Principal also provides recordkeeping and other services to the Plan and is the trustee of the Plan, thus these transactions qualify as party-in-interest transactions.

Certain participants of the Plan have outstanding notes receivable with the Plan. These notes are considered party-in-interest transactions according to the DOL guidelines. Total outstanding notes receivable from participants as of December 31, 2014 and 2013 were $391,350 and $352,768, respectively.

Note 7 - Tax Status

The Plan uses a prototype non-standardized profit sharing plan with CODA plan document sponsored by Principal. Principal received an opinion letter from the IRS, dated March 31, 2008, which states that the volume submitter document satisfies the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. The plan document has been amended since receiving the opinion letter. The plan administrator and believes that the Plan as designed is currently being operated in compliance with applicable requirements of the IRC and therefore believes that the Plan is qualified and tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
