1. DESCRIPTION OF THE PLAN

The following description of the Galaxy Theatres, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan adopted on January 1, 2010 covering substantially all employees of Galaxy Theatres, LLC (the "Plan Sponsor" or "Company") who have attained age 21 and completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. In addition, employees of California Pacific Management Corporation are also eligible to participate. California Pacific Management Corporation is responsible for accounting for the Company and is 100% owned by the owners of the Company. Elective deferrals under the Plan commenced on January 1, 2011.

Eligibility

Employees can elect to participate in the Plan on January 1 and the first day of the month occurring in each successive three month period, coincident with or next following satisfaction of the eligibility requirement.

Contributions

Participants may elect to contribute up to the maximum amount of eligible compensation, allowed by the Internal Revenue Code (the "IRC"). The maximum contribution allowed for 2014 was $17,500. Participants over the age 50 can defer an additional amount in excess of the dollar limit in the IRC which was $5,500 for the 2014 Plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute a matching contribution based on a discretionary matching formula and discretionary profit sharing contributions. For the year ended December 31, 2014, the Plan Sponsor made discretionary matching contributions of $61,349.

1. DESCRIPTION OF PLAN (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions are based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan may elect to make a mandatory distribution of account balances that are $5,000 or less. The Plan will make distributions as direct rollover for any amounts greater than $200.

The Plan does not allow hardship withdrawals, in-service distributions, or participant loans.

Forfeitures

The unvested portion of a terminated participant's Company's account will be forfeited and used to reduce the employer's discretionary or matching contributions. During the year ended December 31, 2014, no forfeitures were used to offset employer contributions or pay administrative expenses. At December 31, 2014 and 2013, the Plan had no forfeitures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Administrative Fees and Plan Expenses

Certain transaction processing fees are charged to the participants and therefore, are reflected in the accompanying statement of changes in net assets available for benefits as administrative expenses. Administrative expenses totaled $350 for the year ended December 31, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

The Plan evaluated subsequent events for their potential impact on the financial statements and disclosures through October 8, 2015 which is the date the financial statements were available to be issued.

Recent Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. Following is a summary of the revised guidance contained in ASU 2015-12:

Part I amendments designate contract value as the only required measure for fully benefit-responsive investment contracts; Part II amendments eliminate the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments. Part III amendments provide a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. The amendments in Part I and Part II should be applied retrospectively for all financial statements presented, and the amendments in Part III should be applied prospectively. This ASU should not change the Plan's total net assets available for benefits; however, it may affect the presentation of the financial statements and the information contained in the disclosures. Plan Sponsor management is currently reviewing the full impact of these amendments and does not expect it to have a significant effect on the Plan's financial statement presentation.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

Information regarding the investments at fair value and investment income, notes receivable from participants and interest income on notes receivable from participants, as shown in the accompanying financial statements and supplemental schedule, has been certified to the Plan Sponsor and Administrator by the trustees being complete and accurate.

Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA states, in part, that any statement of information prepared and certified as complete and accurate by the Plan's trustees need not be audited or reported on by an independent auditor. Pursuant to that regulation, the Plan Administrator has instructed its independent auditor, Squar Milner LLP, not to perform any auditing procedures with respect to information certified as complete and accurate by the trustees as of December 31, 2014 and 2013, and for the year ended December 31, 2014.

4. INVESTMENTS

Registered Investment Companies	$	14,099
Common/Collective Trust		64
	$	14,163

5. FAIR VALUE MEASUREMENTS

Investments are valued in accordance with Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820 *Fair Value Measurements* which establishes a framework that provides a fair value hierarchy to prioritize the inputs to valuation techniques used to measure fair value. The fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and supported by little or no market activity and are significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used to measure fair value at December 31, 2014 and 2013.

5. FAIR VALUE MEASUREMENTS (continued)

- Investments in registered investment companies are valued at quoted market prices in an exchange and active market, which represent the net asset values of shares (the "NAV") held by the Plan at year-end and are classified as Level 1 investments.
- Common/collective trusts are public investment securities valued using the NAV as a practical expedient for that fund. The NAV is quoted on a private market that is not active. However, the unit price is based on the underlying investments, and accordingly the assets are classified as Level 2 investments. A majority of the investments held by each trust are traded on an active market. As of December 31, 2014, there were no unfunded commitments, the redemption frequency for participant transactions in the Fund is daily and there are no participant level notice period redemption requirements.
- Pooled separate accounts are valued at the net asset values ("NAV") of units held by the Plan as reported by the investment manager of the fund. The NAV's are based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price of the pooled separate accounts is not quoted on any market; however, the unit price is based on the underlying investments which are traded in an active market and are classified as Level 2 investments.
- The guaranteed account is a fully benefit-responsive insurance contract which is estimated by discounting the cash flows of the guaranteed interest account to year end using a discount rate that represents the year end interest rate that would be credited on accounts of similar duration. This estimate does not represent the principal due under the contract or termination value. As there is no observable market price for these types of contracts, the fair value is calculated by projecting the balances, at the valuation date, forward to maturity dates using the contract guaranteed interest rate net of management fees then discounting this value back using the current new money declared interest rate for each appropriate maturity term. As such, the guaranteed contract is classified as a Level 3 investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of registered investment companies and pooled separate accounts managed by the trustee. These transactions qualify as party in interest transactions for which a statutory exemption exists.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. TAX STATUS

The Plan has adopted a prototype 401(k) profit sharing plan ("Prototype Plan") of State Street Bank & Trust Co. and conformed the operations of the Plan to the Prototype Plan. The Prototype Plan obtained its latest determination opinion letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC.

8. TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Plan could be subject to income tax if certain issues were found by the IRS that could result in the disqualification of the Plan's tax-exempt status; however, there are currently no audits for any tax periods in progress.
