Wadsworth-Rittman Hospital Retirement and Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Wadsworth-Rittman Hospital Retirement and Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a tax sheltered annuity plan under Internal Revenue Service (IRS) Code §403(b)(1) covering substantially all employees of Wadsworth-Rittman Hospital (the Hospital). The Plan was originally established on August 1, 1989 and subsequently amended and restated effective January 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Prior to January 1, 2010, an employee of the Hospital became a participant in the Plan and was eligible for the elective deferral portion of the Plan on the first day of employment. An employee that completed 18 consecutive months of employment was eligible for the nonelective and matching employer contributions beginning the earlier of the first day of the first month or the first day of the seventh month of the plan year coinciding with or next following the date the employee satisfied the eligibility requirements.

Contributions

Effective January 1, 2010, employees of the Hospital are no longer permitted to contribute to the Plan. Employees are permitted to contribute to the Summa Health System Tax Sheltered Annuity Program.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Hospital's contributions and Plan earnings. Allocations are based on each participant's account balance. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions and the Hospital's discretionary matching and non-elective contribution portion of their accounts plus actual earnings thereon.

Wadsworth-Rittman Hospital Retirement and Savings Plan

Notes to Financial Statements

Notes Receivable from Participants

Active participants may apply for loans from the Plan and, if approved, an amount not exceeding 50% of the vested portion of their individual account may be borrowed. The maximum amount a participant can borrow is \$50,000. The loans are secured by the balance in the participant's account and bear interest at rates determined at loan origination that range from 5.25 percent to 11.50 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator.

Payment of Benefits

Upon death, disability, retirement or termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, installment payments, or an annuity option.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Hospital. All other administrative expenses are paid by the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date.

The Accounting Standards Codification (ASC) Topic on Defined Contribution Pension Plans requires that investment contracts held by a defined contribution plan be reported at fair market value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value approximates the fair value for the Plan's investment in guaranteed investment contracts.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Wadsworth-Rittman Hospital Retirement and Savings Plan

Notes to Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated events and transactions that occurred between December 31, 2014 and October 12, 2015, the date the financial statements were available to be issued.

3. Investment Contracts with Insurance Company

The Plan entered into benefit-responsive guaranteed investment contracts with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a guaranteed interest account which is backed by Great-West general assets. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The guaranteed investment contracts are presented on the face of the statement of net assets available for benefits at fair value, which approximates contract value. Contract value, as reported to the Plan by Great-West, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate for The Great West Guaranteed Fixed Fund may not be less than 3.5%. Rates are also based on a formula agreed upon with the issuer.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include certain amendments to the plan document, such as complete plan termination. The Plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Wadsworth-Rittman Hospital Retirement and Savings Plan

Notes to Financial Statements

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The Great-West Guaranteed Fixed Fund

Year ended December 31,	2014	2013
Average Yields:		
Based on actual earnings	3.50%	3.50%
Based on interest rate credited to participants	3.50%	3.50%

4. Investments/Notes Receivable from Participants (Unaudited)

All investment and participant notes receivable information disclosed in the accompanying financial statements and supplemental schedule, including investments and participant notes receivable held at December 31, 2014 and 2013, net appreciation/depreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from the information supplied to the Plan administrator and certified as complete and accurate by Great-West Life & Annuity Insurance Company, the custodian. As elected by the Plan administrator, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements. The fair value of individual investments that represent 5% or more of the Plan's net assets at either year end was as follows at December 31:

Name	2014	2013
Great-West Moderately Aggressive Profile I Fund I	\$ 601,249	\$ 668,414
Great-West Moderate Profile I Fund I	403,990	413,433
Great-West Stock Index Fund I	1,015,135	1,339,625
Great-West Aggressive Profile I Fund I	291,216	385,945
Fidelity VIP Growth Portfolio	<5%	376,683
Great-West Guaranteed Fixed Fund	1,729,926	1,898,296
Great-West Ariel Mid Cap Value Fund I	321,712	<5%

There were no non-participant directed investments at December 31, 2014 and 2013.

Wadsworth-Rittman Hospital Retirement and Savings Plan

Notes to Financial Statements

During 2014 and 2013, the Plan's investments (including investments bought, sold and held during the year) appreciated as follows:

	2014	2013
Units of pooled separate accounts	\$ 301,246	\$ 997,983

5. Fair Value Measurements

Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: The fair values of participation units in the pooled separate accounts are based upon the net asset values of such accounts which are provided by the custodian. The net asset value is based on the underlying assets owned by the account less liabilities and then divided by the number of units outstanding. The accounts allow for daily redemptions and contributions.

Wadsworth-Rittman Hospital Retirement and Savings Plan

Notes to Financial Statements

Guaranteed investment contracts: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Each guaranteed investment contract provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Notes to Financial Statements

6. Tax Status

Final regulations under Section 403(b) were published by the IRS on July 26, 2007. Under the regulations, a 403(b) plan sponsor by December 31, 2009 must have adopted a written plan intended to satisfy the requirements of Section 403(b) and the regulations effective as of January 1, 2009. The IRS is in the process of establishing pre-approved and individually designed plan programs under which a plan sponsor can obtain assurance that the written form of its plan satisfies Section 403(b). Transition relief will be provided to 403(b) plan sponsors who have made appropriate efforts to comply with the written plan requirement in the final regulations. The Hospital adopted a written plan in 2009 which it believes satisfies the written plan requirement. The Hospital also believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Transactions with Parties-In-Interest

The Plan invests in pooled separate accounts and guaranteed investment contracts with an insurance company sponsored by the Plan's custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.
