Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the financial statements

We were engaged to audit the accompanying financial statements of URS Federal Services, Inc. Employees Retirement Plan (formerly named the URS Federal Technical Services, Inc. Employees Retirement Plan) (the “Plan”), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of and for the years ended December 31, 2014 and 2013, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedule of assets (held at end of year) as of December 31, 2014 and the supplemental schedule of reportable transactions for the year ended December 31, 2014 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

URS FEDERAL SERVICES, INC. EMPLOYEES RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of the URS Federal Services, Inc. Employees Retirement Plan (the "Plan") (formerly named the URS Federal Technical Services, Inc. Employees Retirement Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan, established on August 20, 1999, is a defined benefit pension plan covering all eligible employees of URS Federal Technical Services, Inc., as defined. On January 4, 2014, URS Federal Technical Services, Inc. was merged into URS Federal Services, Inc. (the "Company"), a wholly-owned subsidiary of URS Corporation. In connection with the merger, the Plan was renamed the URS Federal Services, Inc. Employees Retirement Plan. On October 17, 2014, URS Corporation merged into AECOM Global II, LLC, a wholly-owned subsidiary of AECOM.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration - The Company serves as the Plan administrator (the "Administrator").

Eligibility - All employees of the Company hired before July 1, 2003 and with at least one year of service are eligible to participate in the Plan. Participants who: 1) are members of certain collective bargaining units or 2) are a Covered Contract Employee, as defined in the Plan document, are not eligible.

Pension Benefits - Participants are entitled to monthly pension benefits, upon normal retirement age (based on Social Security statutes and ranges from 65 to 67 depending on the participant's date of birth), equal to the greater of either 1) \$70.83 or 2) one-twelfth of the sum of:

- a) Determined as of December 31, 2003, 0.85 percent of an eligible Participant's Average Earnings, as defined by the Plan, multiplied by the participant's total Credited Service, plus an additional 0.75 percent of the Participant's Average Earnings in excess of the Social Security tax base multiplied by the participant's total Credited Service (up to a maximum of 35 years), as defined by the Plan, and
- b) Beginning January 1, 2004, 0.65 percent of the Participant's Earnings, as defined by the Plan, plus an additional 0.65 percent of the Participant's Earnings in excess of 50 percent of the Social Security wage base for the applicable year (up to a maximum of 35 years).

The Plan permits early retirement at age 55 and upon completing 10 years of service for participants who were in the Plan before 1989. For participants who joined the Plan in 1989 and after, the Plan permits early retirement within 10 years prior to a participant's normal retirement age and upon completing 10 years of service.

Participants become 100 percent vested in their normal monthly benefit upon attainment of age forty-five while in the employ of the Company or upon completion of five years of vesting service. At the time of retirement, if the actuarial present value of an employee's total pension is \$5,000 or less, the actuarial value of the employee's pension will be paid to the employee in a single lump sum. Otherwise, participants may elect to receive their pension benefits in the form of a qualified joint and survivor annuity, a life annuity payable monthly, or another acceptable method of payment, as defined in the Plan document.

Death Benefits - If an active employee dies after completing 5 years of service, or is over the age of 45, a death benefit is paid to the employee's beneficiary based on terms included in the Plan document.

Disability Retirement Benefits - Active employees who have completed 10 years of service and become permanently disabled receive disability benefit payments starting on the employee's normal retirement date. Disabled employees continue to accrue benefits and are considered active participants. Disability retirement benefit payments

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

are payable at normal retirement date and are computed as though the employee had been employed to normal retirement age and as if their annual compensation remained the same as at the time they became disabled.

Administrative Expenses - Certain administrative expenses related to the Plan are paid by the Plan, as provided by the Plan document. The Company provides accounting and other administrative services to the Plan, at no charge.

Funding Policy - The Company's contributions to the Plan are designed to fund annual current service costs and are sufficient to satisfy the minimum requirement under ERISA for the year ended December 31, 2014 and 2013, including any discretionary contributions deemed necessary by the Company. Voluntary employee contributions are not permitted.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States.

Valuation of Investments - Investments are reported at fair value. Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants, at the measurement date. See Note 4 for a description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents, in the Statements of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of investments which consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Payment of Benefits - Benefit payments are recorded upon distribution.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from these estimates.

NOTE 3 – RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amount reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation model are unobservable and significant to the fair value measurement.

The asset and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Money market fund: Valued at the exchange quoted net asset value ("NAV").

Collective trust funds: Valued at the NAV per unit of the fund, which is based on the fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There are no unfunded commitments related to the Plan's investments. All investments may be redeemed within 30 days, upon notification of the investment custodian and would be redeemed at the NAV, less transaction fees.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

- (a) The fixed income funds portfolio seeks to provide current income and long-term capital preservation through matching, as closely as possible, the return of various indexes including the Barclays Capital Long Government/Credit Index and Barclays Capital Aggregate Index. The fund invests primarily in U.S. dollar-denominated investment grade and government securities and bonds.
- (b) The large cap funds portfolio seeks to provide long-term capital appreciation, closely matching the return of the S&P 500, Russell 1000 Value & Russell 1000 Growth Index. The investments include US equities of varying risk characteristics with above average earnings and revenue growth expectations and those appearing undervalued.
- (c) The small/mid cap funds portfolio seeks to provide long-term total return comprised primarily of capital appreciation through matching, as closely as possible, the return of the Russell 2500 Value & Growth Indexes.
- (d) The international funds portfolio seeks to provide returns comparable to the MSCI EAFE Index. Through long-term capital appreciation and income, the portfolio seeks to achieve its investment goal by investing its assets in all cap companies operating outside the US. Total exposure to emerging markets is typically 10-15%, inclusive of direct investment in emerging markets and exposure through other non-US equity funds.
- (e) The investment grade funds portfolio seeks to provide broad exposure to US long duration investment grade credit while allowing for short term liquidity through investments in US Treasuries. The fund invests in a passively managed US long duration investment grade portfolio at a 90% weight and a passively managed US Long Treasury portfolio at a 10% weight and is benchmarked to 90% Barclays Capital US Long Credit Index/10% Barclays Capital Long Treasury.
- (f) The other funds portfolio seeks to deliver a periodic return above 3-month LIBOR, with investment durations up to 35 years. The portfolio's investments consist of no leverage, fully collateralized interest rate swaps.

NOTE 5 - INVESTMENTS

The Plan's investments are held by a trust-administered custodial fund and are administered by U.S. Bank, National Association ("Trustee"). As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the investment asset values including net assets held in the 401(h) account and the related investment transactions, and net appreciation in fair value of collective funds as shown in the accompanying financial statements and supplemental schedules were certified by the Trustee to be complete and accurate as of and for the years ended December 31, 2014 and 2013, respectively. No audit procedures were performed on the information provided by the Trustee except to compare such information to the related information included in the accompanying financial statements and supplemental schedules.

NOTE 6 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' average earnings during their years of service. The accumulated plan benefits for active employees are based on their average compensation during the term of their service ending on the date as of which the benefit information is presented (i.e., the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered as of the valuation date. The actuarial present value of the accumulated plan benefits is determined by the Plan's actuary, Mercer Human Resource Consulting. This is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2013 and 2012 are as follows:

URS FEDERAL SERVICES, INC. EMPLOYEES RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2014 and 2013

NOTE 6 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS – CONTINUED

Mortality basis as of December 31, 2012: Based on the RP 2000 White Collar Mortality Table projected to 2018	
Discount rate as of December 31, 2012:	7.50%
Mortality basis as of December 31, 2013: Based on the RP 2014 with general projection using scale MP2014 and white collar adjustment	
Discount rate as of December 31, 2013:	7.50%
Retirement age:	Probabilities based upon age and service, ranging from 1% at age 55 to 100% at age 67; average retirement age is 63

The foregoing actuarial assumptions are based on the assumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2013, as determined by the actuary is as follows:

Actuarial Present Value of Accumulated Vested Plan Benefits	
Participants currently receiving payments	\$ 92,369,170
Other participants	135,279,580
Total vested benefits	227,648,750
Actuarial Present Value of Accumulated Nonvested Plan Benefits	1,160,479
Total Actuarial Present Value of Accumulated Plan Benefits	\$ 228,809,229

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2013, is as follows:

Actuarial Present Value of Accumulated Plan Benefits at December 31, 2012	\$ 200,839,090
Increase/(decrease) during the year attributable to:	
Benefits accumulated and actuarial losses	5,583,249
Increase for interest due to decrease in discount period	14,675,303
Benefits paid	(9,541,622)
Change in actuarial assumptions	17,253,209
Actuarial Present Value of Accumulated Plan Benefits at December 31, 2013	\$ 228,809,229

The change in actuarial assumptions includes an update of mortality tables, withdrawal rates, retirement rates, and the form of payment assumption to better reflect Plan experience. The change in the mortality table at December 31, 2013, increased the actuarial present value of accumulated plan benefits by \$11,965,742.

NOTE 7 - RELATED PARTY TRANSACTIONS

The Plan invests in units of collective funds managed by an affiliate of Mercer Trust Company ("Mercer"). Mercer acts as a trustee for those investments. Transactions in such investments qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to \$1,525,937 and \$1,307,517 for the years ended December 31, 2014 and 2013, respectively.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. If the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, to provide payment of benefits in the following order:

- a) Benefits, as determined by the provisions of the Plan five years prior to termination, due employees or their spouses who retired or were eligible for retirement three years prior to termination of the Plan.
- b) Benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), up to certain limitations (discussed below).
- c) All other vested benefits.
- d) Nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions; however, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit. This ceiling is \$4,940 and \$4,790 for 2014 and 2013, respectively, and is adjusted annually, however if benefits have been increased within the five years before Plan termination, the whole amount of the Plan's benefit increase may not be guaranteed.

Whether all participants will receive vested benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company.

NOTE 9 - TAX STATUS

The Plan obtained a favorable determination letter dated July 3, 2014 from the Internal Revenue Service ("IRS") which stated that the Plan is qualified under section 401(a) of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan was amended since receiving the determination letter. The Plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes was included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 10 - 401(H) ACCOUNT

The Plan includes a medical-benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the IRC. A separate account, known as the Retiree Health Plan Account, has been established and maintained in the Plan for the net assets related to the medical-benefit component ("401(h) account"). In accordance with IRC Section 401(h), the 401(h) account may not be used for, or diverted to any purpose other than providing for the payment of certain medical expenses for retirees and their beneficiaries. Any assets transferred to the 401(h) account from the Plan in a qualified transfer of excess Plan assets (and any income allocable thereto) that are not used during the plan year must be transferred out of the account to the Plan. The related obligations for health benefits are not included in this Plan's accumulated plan benefit obligations but are reflected as obligations in the financial statements of the health and welfare benefit plan. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are determined annually and are at the discretion of the Plan sponsor. Certain of the Plan's net assets are restricted to fund a portion of postretirement health benefits for retirees and their beneficiaries in accordance with IRC Section 401(h).

The following tables set forth by level, within the fair value hierarchy, the Plan's 401(h) account assets at fair value as of December 31, 2014 and 2013. Refer to Note 4 for a description of the fair value measurements.

NOTE 12 – SUBSEQUENT EVENTS

The Plan evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued. In late September 2015, the Company passed a resolution to amend the Plan to offer eligible participants with a deferred vested benefit, who have terminated employment, the opportunity to elect to receive their pension benefit early instead of waiting until early or normal retirement age, as described in the Plan document. Eligible participants can elect to take a lump-sum payment of their pension benefit or start receiving a monthly pension benefit from the Plan. Both the lump-sum and monthly pension benefit options are actuarially-reduced based on the age of the participant. Participants have until November 19, 2015, to elect one of the limited-time early payment options or choose to remain in the Plan and begin monthly payments as described in the Plan document.

Actuarial Methods***Asset Methods – Effective January 1, 2009***

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Participant Methods – Effective January 1, 2008***

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods – Effective January 1, 2010

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions***Benefits Included or Excluded***

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #10, are included in this valuation.

- **Most recent plan amendments included:** Amendment #10
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* Current active participants who turned age 65 prior to September 1, 2007 are valued including the late retirement actuarial increase.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
