1. Description of Plan

The following description of the Auto Trust 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan, which was started July 1, 2000, is a defined contribution profit sharing plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") as amended. The Plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") and includes a cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan covers all full-time employees of Paragon Motors of Woodside, Inc. and related companies (the "Company"), who have completed three months of service. The Company includes Civic Center Motors, Ltd. and Worldwide Motors Ltd. Exclusions apply to members of a collective bargaining unit whose retirement benefits are the subject of a collective bargaining agreement that is in full force and effect.

b. Contributions

Each year participants may elect to defer a percentage of pretax annual compensation, subject to limitations as defined in the Plan and stipulated by the Federal Government. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company at its sole discretion may contribute matching contributions and additional discretionary contributions to an employee's account. The amount of the discretionary contribution is determined annually. Employees are not required to make elective deferrals in order to receive a discretionary contribution. Discretionary and matching contributions are allocated in accordance with provisions as outlined in the plan document. In 2014, the company did not make any matching or discretionary contributions to the Plan.

c. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contributions and plan earnings and are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are 100% vested at all times in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

1. Description of Plan (continued)

e. Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or other form of payment permitted under the Plan. If the vested account balance is less than $5,000, the vested benefit will be automatically rolled over to an IRA provider selected by the plan administrator unless the participant consents to a distribution of the vested account balance.

f. Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the prime rate charged by a local commercial lender plus 1 percent. The interest rate at December 31, 2014 was 4.25%. Principal and interest is paid ratably through payroll deductions.

g. Forfeited Accounts

At December 31, 2014 and 2013, the forfeited non-vested account balance was $304 and $201, respectively. During 2014, there were no reductions in administrative expenses or employer contributions from forfeited non-vested accounts. Forfeitures are used first to reduce administrative expenses of the Plan and any remaining balances are used to reduce company contributions.

2. Summary of Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. The statements of net assets available for benefits present the fair value of the investment contract.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Accounting Policies (continued)

d. Payment of Benefits

Benefits are recorded when paid.

e. Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

f. Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Investment related expenses are included in the net appreciation of fair value of investments.

g. Subsequent Events

The plan administrator has evaluated subsequent events through October 7, 2015 the date the financial statements were available to be issued.

3. Investments

The following table presents investments that equal or exceed 5% of the Plan's net assets available for benefits at December 31, 2014 and 2013.

	December 31, 2014	December 31, 2013
500 Index Fund	$ 894,498	$ 746,124
Retirement Choices at 2010	324,421	323,405
Retirement Choices at 2025	916,820	883,955
Retirement Choices at 2030	381,921	404,490
Retirement Choices at 2040	-	406,776
Retirement Choices at 2045	-	322,482
Money Market Fund	352,572	-
Royce Opportunity	-	309,561
T. Rowe Price Health Science	912,178	473,821

During 2014 the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value by $409,905 as follows:

Pooled separate accounts	$ 409,905

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The contract is valued at fair value by the John Hancock Life Insurance Company of New York ("Hancock"). The contract includes pooled separate accounts ("PSA's") and guaranteed interest accounts. The units values of the PSA's are determined by the use of the net asset value ("NAV") of the underlying funds inclusive of dividends and capital gains declared. Although the NAV is not publicly quoted, ASC 820 allows the NAV to serve as a practical expedient to estimate the fair value of the PSA's as long as certain requirements are met. The NAV is provided and certified by Hancock as described in Note 6.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts		5,741,758		5,741,758
Guaranteed Interest Account	11,478	-		11,478
Total assets at fair value	$ 11,478	$ 5,741,758	$ -	$ 5,753,236

4. Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$ -	$ 5,076,202	$ -	$ 5,076,202

5. Investment Contract with Insurance Company

In 2012, the Plan entered into an unallocated investment group annuity contract with Hancock. Contributions can be allocated to PSA's or to guaranteed interest accounts. The guaranteed interest accounts are held in the Hancock general account. The guaranteed accounts guarantee the return of principal plus compound interest earned over a defined 3, 5 or 10 year term less any applicable contract or participant-level recordkeeping charges, with certain restrictions.

Due to the nature of the investment contract described above, the contract is not deemed to be fully benefit-responsive and therefore fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to this contract. The investment contract is presented in the statements of assets available for benefits at fair value.

6. Information Certified by the Plan's Custodian

The plan management has elected the method of compliance as permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan management instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Hancock, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year).

Investments, at fair value:

	2014	2013
Investment Contract with John Hancock Life Insurance Company	$ 5,753,236	$ 5,076,202

The custodian also certified to the completeness and accuracy of the net investment earnings as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014 and 2013. The certification also includes all investment related information in the accompanying supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014.

7. Party in Interest and Related-Party Transactions

The Company provides certain accounting and administrative services to the Plan for which no fees are charged and is a related party.

Plan investments include shares of pooled separate accounts held within the investment contract with Hancock. Hancock also provides custodial and certain record-keeping functions. AXA Network, LLC is the investment advisor and receives broker commissions from the Plan in the form of transaction based fees. Associated Pension Consultants, Inc. is the third party administrator and is paid by the plan sponsor. These transactions qualify as party in interest transactions.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. Risks and Uncertainties

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Tax Status

The Plan adopted a mass-submitter prototype standardized profit-sharing plan with a cash or deferred arrangement. The plan sponsor has obtained an opinion letter from the Internal Revenue Service, dated March 16, 2010 that the Plan and related Trust were designed in accordance with applicable sections under the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been subsequently amended and restated. Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Federal and New York State taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

11. Accrued Corrective Distributions

The Plan failed one of the discrimination tests for the year ended December 31, 2014. Corrective distributions amounting to $83,843 are recorded as a liability in the accompanying statements of net assets available for benefits. These corrective distributions were reimbursed to the affected participants in 2015.
