INDEPENDENT AUDITOR'S REPORT

October 13, 2015

To the Plan Sponsor and Plan Administrator of
Niagara Cutter, LLC 401(k) Retirement Savings Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Niagara Cutter, LLC 401(k) Retirement Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Massachusetts Mutual Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

NIAGARA CUTTER, LLC 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF PLAN

The following is a brief description of the Niagara Cutter, LLC 401(k) Retirement Savings Plan (the "Plan") provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

Merger

On November 19, 2014, the Board of Directors of the Sandvik Group, a controlling party of Niagara Cutter, LLC (the "Company"), approved the merger of this Plan into the Sandvik 401(k) Retirement Plan (the "Successor Plan"), effective December 31, 2014. As a result, all investments were transferred from the Plan to the Successor Plan on that date.

General

The Plan was established effective March 1, 1992. The Plan was a defined contribution, salary deferral plan covering substantially all full-time employees of the Company. The Company is the Plan sponsor. Employees must have completed a minimum service hour requirement in order to participate. It was a qualified plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each participant could elect to contribute up to 100% of their salary, not to exceed the maximum allowed under the Internal Revenue Code (\$17,500 in 2014 and 2013), as a tax deferred contribution to the Plan. Participants 50 years old and over before the end of the Plan year could make an additional "catch-up" contribution annually (\$5,500 in 2014 and 2013). The Company contributed 50% (up to a maximum of 3% of salary) of each participant's contribution up to the first 6% of salary contributed by each participant. The Plan was amended effective May 2014 so that participants receive an additional Company contribution of 5% of eligible compensation, prior to that, the Company contributed an additional 1.5% of eligible compensation for each participant. The Plan provided that participants could deposit distributions that they receive from another retirement plan. Such contributions are referred to as participant rollover contributions.

Vesting

Participants are fully vested in all voluntary contributions that they make to the Plan plus earnings/(losses) thereon. Participants vest in Company contributions at the rate of 20% for each year of service, 100% vested after year 5. If they are not already 100% vested, participants become 100% vested in Company contributions when they retire, reach the age of 65 while employed, become disabled, die, or if the Plan is terminated. Participants became fully vested in their account balances as of the date of the merger of the Plan.

Access to Savings

Participants are entitled to receive 100% of their account balance upon normal retirement at age 65 or at early retirement after age 55. A participant may elect to defer benefits until age 70-1/2. Benefit payments may be made in lump sum amounts or in various annuity or installment forms based on the account balance at retirement date. If an account balance is \$5,000 or less, benefits must be withdrawn in a lump sum. Withdrawals may also be made for reasons of financial hardship prior to age 59-1/2 or early retirement.

1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

The Plan allowed participants to borrow up to 50% of their vested account balance (or \$50,000, if less) for a term between one and five years, bearing interest at the prime rate plus 2%. Minimum borrowing allowed under the Plan was \$1,000. The notes were secured by the vested balance in the participant's account.

Participant Accounts

Each participant's account was credited with the participant's contribution, the Company's contribution, and allocated earnings (allocated daily) of the underlying investments within a guaranteed interest fund and/or pooled separate accounts. Participant accounts were decreased by distributions they receive and the participant's share of Plan expenses and losses.

Deposits with Insurance Company

The Plan had entered into a group annuity contract with Massachusetts Mutual Life Insurance Company ("Mass Mutual"). Participants had the option of directing their contributions and related Company matching contributions into a guaranteed interest fund or twenty-seven pooled separate accounts sponsored by Mass Mutual.

Except for the Mass Mutual Life Insurance Company Guaranteed Interest Fund (the "GIF"), all other funds were invested in pooled separate accounts which are invested mainly in mutual funds, domestic stocks, international stocks, and fixed income securities. Mutual funds are managed by Mass Mutual, its subsidiaries, and other unrelated investment companies.

The GIF guarantees principal deposits plus a guaranteed rate of interest, which is set semi-annually (see Note 3). The GIF is considered a fully benefit-responsive investment contract.

Participants were also able to elect to purchase life insurance with up to 30% of their contributions. This purchase option was discontinued in 2008. Participants who had previously elected to purchase life insurance continued to be able to purchase life insurance, but no additional participants had the option to purchase life insurance. The underlying values of life insurance policies were excluded from Plan assets since these represent obligations directly between the participant and Mass Mutual.

Participants could elect to change the allocation of their individual accounts among the GIF and/or the pooled separate accounts at any time during the year.

Plan Administration

The Plan was administrated by the Company. Participant account records were maintained by Mass Mutual. Costs of administration were paid primarily by the Company. A portion of Plan expenses could be charged to the Plan.

Investments

Participants directed the investment of participant and employer contributions into various investment options offered by the Plan. Participants could change their investment allocation on a daily basis.

1. DESCRIPTION OF PLAN (Continued)

Forfeitures

Forfeitures of unvested Company contributions were used to pay administration expenses or reduce future contributions paid by the Company. Total forfeitures amounted to \$9,740 and \$6,951 for the years ended December 31, 2014 and 2013, respectively. Forfeited nonvested accounts totaled \$0 and \$38,293 at December 31, 2014 and 2013, respectively, and are not included in net Plan assets available for benefits.

Partial Plan Termination

The Company sold one of its plants located in Massachusetts in 2012. As a result, there was a partial termination of the Plan in January 2013 and the affected participants became 100% vested in all Company contributions on that date. In January 2013, the Plan distributed \$2,740,393 related to these terminated participants.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan prepares its financial statements on the accrual basis of accounting. Under this basis, investment income is recognized when earned. Participant contributions and the related Company matching contributions are recorded when withheld from participant's paychecks and reported as a receivable until remitted by the Company to Mass Mutual. Excess contributions at the end of the Plan year are recorded as a liability of the Plan prior to the actual repayments of those amounts. Benefits are recorded when paid.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the GIF, the only fully benefit-responsive investment contract, as well as the adjustment of the GIF from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits with respect to the GIF is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

The Plan's assets were invested in various investments through its trustee, Mass Mutual. Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. All Plan assets were transferred to the Successor Plan before the close of business on December 31, 2014.

Security Transactions and Investment Income

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Income Taxes

The Internal Revenue Service has determined and informed the Company by a letter dated October 25, 1993 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Risks and Uncertainties

The Plan's assets included various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to the value of such investments, changes in the values of investments will occur and such changes could materially affect the amounts reported in the accompanying financial statements.

3. FAIR VALUE MEASUREMENTS

The Plan used various valuation techniques in determining fair value. FASB ASC Section 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for the Plan assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

- **Level 2 Fair Value Measurements:** The pooled separate accounts invest mainly in mutual funds, domestic stocks, international stocks and fixed income securities. The fair value of the underlying mutual funds and domestic stocks are derived from publicly quoted pricing input (level 1) and are used in determining the net asset value ("NAV") of the pooled separate accounts, which are not publicly quoted.
- **Level 3 Fair Value Measurements:** The GIF is not actively traded and significant other Level 2 information is not available. The fair value of the GIF is calculated by Mass Mutual and represents estimated liquidation value determined within the contract specifications.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

3. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investment in the GIF for the years ended December 31, 2014 and 2013:

Balance at December 31, 2012	\$ 8,928,579
Change in unrealized depreciation	(367,914)
Purchases	348,796
Interest earned	286,979
Sales	(706,469)
Investment fees	(15,689)
Transfers, net	<u>(117,856)</u>
Balance at December 31, 2013	8,356,426
Change in unrealized appreciation	850,765
Purchases	374,365
Interest earned	228,452
Sales	(490,424)
Investment fees	(16,937)
Transfers, net	<u>(9,302,647)</u>
Balance at December 31, 2014	<u>\$ -</u>

Change in unrealized (depreciation)/appreciation is not included in changes in net assets available for benefits for the years ended December 31, 2014 and 2013 because the statement of changes in net assets available for benefits is reported at contract value and not fair value as discussed in Note 2. The change in unrealized (depreciation)/appreciation represents the change in the estimated contract value of the GIF.

The pooled separate accounts invest in mutual funds, domestic and international stocks, and fixed income securities. The investment objective of these accounts is to seek current income and capital appreciation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (Continued)

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

<u>Quantitative Information about Level 3 Fair Value Measurements</u>				
	<u>Fair Value at</u> <u>12/31/13</u>	<u>Valuation</u> <u>Techniques</u>	<u>Unobservable</u> <u>Input</u>	<u>Range</u> <u>Significant</u> <u>Input</u> <u>Values^a</u>
Guaranteed income fund	\$ 8,356,426	Contract value ^b	Established interest rate	<3.00%

^a Interest is credited on contract balances using a single portfolio approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis for resetting. The minimum crediting rate under the contract is 3.00%.

^b Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

In substantiating the reasonableness of the pricing data provided by the trustee, the Plan administrator considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account.

Certain events may limit the Plan's ability to transact at contract value with Mass Mutual. Such events are referred to as liquidation events. The Plan administrator does not believe that any liquidation events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	<u>2014</u>	<u>2013</u>

5. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were managed by Mass Mutual, as investment manager. Mass Mutual is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Notes receivable from participants qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
