1. DESCRIPTION OF THE PLAN

The following description of the Sentinel 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which was adopted by Sentinel Offender Services, LLC (ñthe Companyò) effective January 1, 1998, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who are age 18 or older. The Planôs administrative committee oversees governance of the Plan and determines the appropriateness of the Planôs investment offerings and monitors investment performance. In May 2014, the Plan was amended to eliminate the eligibility service requirement of three months.

Although it has not expressed the intention to do so, the Company has the right under terms of the Plan to discontinue its contributions at any time and to terminate the Plan subject to ERISA provisions. In the event of Plan termination, participants would become 100% vested in their contributions.

Contributions

Participants may elect to contribute between a percent of pretax annual compensation not to exceed the maximum deferral limitation, as defined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their options at any time. The Company, at its discretion, may make matching contributions and a profit sharing contribution to the Plan. For the year ended December 31, 2014, the Company made matching contributions in the amount equal to 50 percent of the first 6 percent of participant contributions, totaling $115,628. For the year ended December 31, 2014, the Company made no profit sharing contributions.

1. DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Companyôs matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in the Companyôs matching contributions at the rate of 25 percent each year after two years of service and is considered to be 100 percent vested after five years of credited service. Vesting in the Companyôs profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in the Companyôs profit sharing contributions at the rate of 20 percent each year after one year of service and is considered to be 100 percent vested after five years of credited service.

Payment of Benefits

Upon retirement, death, disability or termination, a participant or his/her beneficiary may elect to receive accumulated retirement benefits as a single distribution in cash. In addition, a terminated participant may also elect to transfer into an individual retirement account all amounts which qualify as a rollover under the provisions of the Internal Revenue Code of 1986, as amended. Amounts of nonvested matching contributions revert to the Company and may be used to reduce future matching contributions. In the event of termination of the Plan, the entire amounts credited to participant accounts are payable to participants at 100%, regardless of years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. There is a non-refundable loan set-up fee.

1. DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants (Continued)

The loans are secured by the balance in the participantôs account and bear interest at a rate commensurate with the prevailing rates as determined from time to time by the Plan administrator. Principal and interest is paid ratably through semi-monthly payroll deductions. The loans may be prepaid in full at any time. Only two loans may be outstanding at any time.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited accounts totaled $1,327 and $20,174, respectively. These accounts can be used to reduce future employer contributions and Plan expenses. Forfeitures of $21,799 were used to reduce employer contributions for the year ended December 31, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through October 12, 2015, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Stable value funds held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the stable value fund. The Statement of Changes in Net Assets Available for Benefits has not been adjusted to represent the contract value of the stable value fund as of December 31, 2014, as the contract value of the fully benefit-responsive contract approximated fair value at December 31, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (ñGAAPò) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Planôs administrative committee determines the Planôs valuation policies. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions Receivable

Contributions receivable represents amounts that have been contributed prior to year-end, but not received by the Plan until subsequent to year-end.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participantôs account and are included in administrative expenses when incurred. At December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Administrative Expenses

Certain administrative expenses are paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

3. RISKS AND UNCERTAINTIES

The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities, will occur in the near term and that such changes could materially affect participantsô account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

4. TAX STATUS

The Plan adopted the Volume Submitter Profit Sharing Plan with CODA sponsored by Transamerica Financial Life Insurance Company (ñTransamericaò). The Internal Revenue Service has determined and informed Transamerica by a letter dated March 31, 2008, that the volume submitter plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the volume submitter plan has been amended since receiving the determination letter, the plan administrator believes that the volume submitter plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified.

GAAP requires the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

5. INVESTMENTS AND FAIR VALUE MEASUREMENTS

The Planôs investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

5. INVESTMENTS AND FAIR VALUE MEASUREMENTS (Continued)

Level 1 ï defined as observable inputs such as quoted prices in active markets;

Level 2 ï defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3 ï defined as unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures for value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The pooled separate accounts and stable value fund are not traded on an active market, but the fair value is based on observable market inputs that are readily available.

The following tables set forth, by level within the fair value hierarchy, the Planôs investments at fair value at December 31, 2014 and 2013, as described above.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain investment fund options were managed by Transamerica Life Insurance Company (ñTransamericaò) in 2014 and 2013. Transamerica is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for investment management services, commissions, and third-party administrative services were $5,125 for the year ended December 31, 2014. In addition, the Plan sponsor paid approximately $5,100 on behalf of the Plan.

8. STABLE VALUE FUND

The Stable Value Fund (the ñFundò) invests in the general account of the insurance company issuing the contract. The Stable Value Fund has no stated maturity and is considered fully benefit responsive. Interest rates are reset monthly as of the beginning of each month during which a new interest rate is applied daily to the total outstanding balance of the investment. Assets held in the Stable Value Fund are commingled with assets in the general account of the issuer. There is no specific portfolio of assets in which the Stable Value Fund invests. The credited interest rate is backed by the income received from assets held in the general account.

The investment choices seek to protect against any loss of principal while providing returns in excess of money market funds and one-year US Treasury bills. The investment choices have a portfolio investment rate design in which all deposits in the particular investment choice are credited with the same interest rate on a daily basis, and with no set maturity. Contract charges may reduce this return. The Stable Value Fund investment choices are not separate account investment choices; they are an investment in the issuerôs general account.

Because the Stable Value Fund is fully benefit responsive, contract value is the relevant measurement attributable to the Fund. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal to transfer all or a portion of their investment at contract value. The average yield earned by the Fund for the years ended December 31, 2014 and 2013 was .50% each year. Since contract value approximates fair value, the average yield earned by the Fund is equal to the average yield earned by the Fund adjusted to reflect the actual interest rate credited to plan participants.
