## Note 1 – Description of Plan

The following description of Renegade 401(k) Plan (the Plan) provides only general information. The Plan is sponsored by Renegade Well Services, LLC (the Company and Plan Sponsor). Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

### *General*

The Plan is a defined contribution plan established by Renegade Well Services, LLC under the provisions of Section 401(a) of the United States Internal Revenue Code (the IRC), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company. Employees over the age of 18 who complete three months of service are eligible to participate in the Plan. The Plan was adopted January 1, 2013.

The Plan was amended on July 28, 2014 and retroactively applied as of July 1, 2014 to include Renegade Automation, LLC as a participating employer in the Plan. The amendment changed the eligibility requirements for the months of service from three to two months.

Upon satisfying the eligibility requirements, the employee may participate in the Plan on the first day of the coinciding or following quarter.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as well as certain provisions of the federal income tax laws.

### *Contributions*

Each year, participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan as an elective deferral up to the maximum allowed by law. Participants direct the investment of their contributions into various investment options offered by the Plan.

At the discretion of the Plan Administrator, participants may be permitted to deposit or "rollover" into the Plan distributions they have received from other plans and certain IRAs. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Contributions are not to exceed the limits imposed by Section 402(g) of the IRC.

**Note 1 – Description of Plan (Continued)**

***Contributions (Continued)***

The Company may make a discretionary matching contribution equal to the percentage of compensation contributed by the participant, up to a discretionary percentage of the participant's compensation or a discretionary dollar amount. During 2014, the Company made the discretionary matching contribution up to 3% of the participant's total compensation. Participants must complete one year of service (1,000 hours) during the Plan year and be employed on the last day of the plan year to be eligible to receive discretionary matching contributions. The age and service requirements for discretionary matching contributions are waived for any eligible employee employed on January 1, 2013. Such eligible employees enter the Plan on January 1, 2013. The Company made $498,384 in discretionary matching contributions during the year ended December 31, 2014. The matching contributions do not apply to "catch-up" contributions.

***Participant Accounts***

Each participant's account is credited with the participant's contributions, allocation of the Company's discretionary matching contributions, and Plan earnings or losses and charged with an allocation of administrative expenses. Allocations may be charged based on either the size of the participant's account balance or equally to each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vesting***

Participants are immediately 100% vested in their elective deferrals and catch-up contributions, rollover contributions from other plans, and actual earnings thereon. The method for crediting vesting service for Company discretionary matching contributions is based on vesting periods of service. Participants are credited with a period of service for each twelve-month period from their hire date until their termination date. A participant is always 100% vested in their Company matching contributions if they are employed on or after their Normal Retirement Age or if they terminate employment on account of their death or disability. Participants are vested in Company matching contributions based on the following schedule:

| Periods of Service | Percentage Vested |
|---|---|
| Less than 1 | 0% |
| 1 | 25% |
| 2 | 50% |
| 3 | 75% |
| 4 | 100% |

**Note 1 – Description of Plan (Continued)**

***Forfeited Accounts***

Forfeitures represent unvested portions of terminated participants' accounts. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $54,439 and $19,721, respectively. At any time when accounts are forfeited, these accounts will first be used to reduce any matching contributions.

***Investment Options***

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, for or on behalf of the participant, to any one or more of the investment funds determined at the discretion of the Plan Administrator and Plan Sponsor and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

***Notes Receivable from Participants***

Participants who are active employees may borrow against their vested account balances a minimum of $1,000 up to a maximum amount equal to the lesser of 50% of their vested account balance or $50,000. The loans in the form of promissory notes, are secured by the balances in the participant's account, and bear interest at reasonable rates, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest on notes receivable from participants are repaid through payroll deductions and generally repaid within five years, or thirty years for loans used for the purchase of a primary residence. Participants may only have one outstanding loan at any one time.

***Benefits Paid to Participants***

Participants are entitled to receive an in-service distribution as either a lump-sum equal to the value of the participant's vested interest in their account balance or a payment in the form of a joint account and survivor annuity commencing upon the participant's attainment of the Normal Retirement Age; however, this distribution is not in addition to the participant's other benefits and will therefore reduce the value of the benefits received at retirement.

Participants may elect to receive a distribution from certain accounts prior to termination of employment provided they have attained the age of 59 ½, incurred a financial hardship, or incurred a disability. In the event of death before retirement while working for the Company, the participant's account balance is paid to the selected beneficiary.

Benefits paid to participants are recorded when paid. The Plan requires a distribution in the form of a single lump-sum cash payment for any distribution of an account balance that does not exceed and has never exceeded $5,000.

**Note 1 – Description of Plan (Continued)**

***Benefits Paid to Participants (Continued)***

On termination of service, death, disability, or retirement, a participant is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

***Plan Expenses***

Certain administrative expenses are paid by the Plan as described in the Plan document and service agreements. The remaining expenses are paid by the Company. The Plan is under no obligation to reimburse the Company for these expenses.

***Termination of the Plan***

Although the Company intends to maintain the Plan indefinitely, the Company reserves the right to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, no further contributions will be made to the Plan and all amounts credited to the participant's account will become 100% vested. The Company will direct the distribution of the participant's account in a manner permitted by the Plan as soon as practicable.

**Note 2 – Summary of Significant Accounting Policies**

***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

***Use of Estimates***

Preparing the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Note 2 – Summary of Significant Accounting Policies (Continued)**

***Investment Valuation and Income Recognition***

Investments are stated at fair value. Changes in market value are reflected in operations. Mutual funds represent investments with various investment managers. The respective fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value at year end. Interest and other income are recorded on the accrual basis. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. The Plan invests in a fully benefit-responsive investment contract with an insurance company that is not a guaranteed investment contract (GIC). This insurance company general account fund is considered fairly valued at contract value. The average yield earned by the Plan is adjusted to reflect the actual interest rate credited to Plan participants. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals and administrative expenses. The net appreciation (depreciation) of investments, including realized gains and losses on sales during the year and current changes in unrealized appreciation (depreciation) in the market value of investments held at year end, is presented in the statement of changes in net assets available for benefits.

***Notes Receivable from Participants***

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. The Plan recognizes interest income from the notes receivable as earned.

***Payment of Benefits***

Benefits are recorded when paid.

***Subsequent Events***

Subsequent events were evaluated through October 8, 2015, which is the date the financial statements were available to be issued.

**Note 3 – Information Certified by Custodian**

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the investments certified by the Custodian, which included total investments as of December 31, 2014 and 2013, and the total investment income for the year ended December 31, 2014, and all information included in the supplemental schedule Form 5500, Schedule H, line 4i – Schedule of Assets Held for Investment Purposes at End of Year.

**Note 3 – Information Certified by Custodian (Continued)**

The following investment information was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by Transamerica Life Insurance Company, the custodian of the Plan, as of December 31, 2014 and 2013 and for the year ended December 31, 2014:

| | 2014 | 2013 |
|---|---|---|
| Investment values certified by the custodian | $ 1,956,964 | $ 891,675 |

| | Year Ended December 31, 2014 |
|---|---|
| Investment income certified by the custodian | |
| Net appreciation (depreciation) in fair value of investments | $ 28,661 |
| Interest and dividends | $ 68,708 |

**Note 4 – Fair Value Measurements**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10 provides a framework for measuring fair value under GAAP. FASB ASC 820-10 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820-10 requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. FASB ASC 820-10 also establishes a fair value hierarchy, which prioritizes the valuation inputs into three broad levels.

Fair value accounting guidance requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly through market-corroborated inputs. Level 3 inputs are unobservable inputs for the asset or liability reflecting our assumptions about pricing by market participants.

**Note 4 – Fair Value Measurements (Continued)**

There are three general valuation techniques that may be used to measure fair value, as described below:

A) Market approach – Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Prices may be indicated by pricing guides, sale transactions, market trades, or other sources;

B) Cost approach – Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost); and

C) Income approach – Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about the future amounts (includes present value techniques and option-pricing models). Net present value is an income approach where a stream of expected cash flows is discounted at an appropriate market interest rate.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

*Mutual Funds*

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end based on quoted market prices and are classified within Level 1 of the hierarchy.

*Insurance Company General Funds*

Insurance company general funds are valued at the net asset value of units held by the Plan at year end. The NAV is determined by the custodian of the fund and is based upon the fair value of the underlying assets held by the fund. As such, the insurance company general funds are classified within Level 2 of the hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Note 4 – Fair Value Measurements (Continued)**

Below are the Plan's financial instruments carried at fair value on a recurring basis by the FASB ASC 820-10 fair value hierarchy levels:

| | Quoted Prices in Active Markets for Identical Assets (Level 1) | Quoted Prices for Similar Assets in Active Markets (Level 2) |
|---|---|---|
| December 31, 2014 | | |
| Registered investment companies | $ 1,860,348 | $ - |
| Insurance company general account funds | - | 96,616 |
| Total | $ 1,860,348 | $ 96,616 |
| December 31, 2013 | | |
| Registered investment companies | $ 868,691 | $ - |
| Insurance company general account funds | - | 22,984 |
| Total | $ 868,691 | $ 22,984 |

Gains and losses, realized and unrealized, for the year ended December 31, 2014 are reported under net appreciation (depreciation) in fair value of investments on the accompanying statement of changes in net assets available for benefits.

**Note 5 – Investments Held by the Plan**

The following table presents the fair value of investments of the Plan that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013:

| | 2014 | 2013 |
|---|---|---|
| Am. Century One Choice 2050 | $ 515,821 | $ 299,979 |
| Am. Century One Choice 2045 | 338,949 | 184,179 |
| Am. Century One Choice 2030 | 257,767 | 80,958 |
| Am. Century One Choice 2040 | 237,856 | 136,059 |
| Am. Century One Choice 2035 | 113,148 | 56,734 |

**Note 6 – Insurance Company General Account Funds**

The Plan invests in a fully benefit-responsive investment contract with the Custodian. The Custodian maintains certain contributions in a general account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by the Custodian. The contract is included in the financial statements at fair value, which approximates contract value, as reported to the Plan by the Custodian. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Prior to January 1st and July 1st, the effective annual rate of interest is established for the corresponding six month period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period from January 1st through July 1st. There is no stated minimum or maximum interest rate.

**Average Yields for Stable Value Option Investment Contract**

| | 2014 | 2013 |
|---|---|---|
| Based on actual earnings | 0.80% | 0.80% |
| Based on interest rate credited to participants | 0.80% | 0.80% |

**Note 7 – Reportable Transactions**

There were no reportable transactions, non-exempt transactions with parties-in-interest, or any other prohibited transactions that would require supplemental presentation under the DOL regulations. There were six loans in default totaling $7,730 as of December 31, 2014 and five of the participants with defaulted loans were terminated during the year and one in the prior year. Therefore, all six loans were included in total benefits paid to participants on the accompanying statement of changes in net assets available for benefits.

**Note 8 – Transactions with Parties-in-Interest**

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. As such, transactions conducted with the Custodian, the Third Party Administrator (TPA), and the Company qualify as party-in-interest transactions.

**Note 9 – Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is, at least, reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## Note 10 – Tax Status

The Internal Revenue Service has determined and informed the Plan Sponsor of the prototype plan by a letter dated May 30, 2008, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan was drafted as a Prototype Volume Submitter Profit Sharing Plan with Cash or Deferred Arrangement Plan (CODA). The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and ERISA and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.
