1. DESCRIPTION OF THE PLAN:

The following description of the NB&T Financial Group, Inc. 401(k) Profit Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan, which was established January 1, 1996, is a defined contribution plan covering employees of the NB&T Financial Group, Inc. (the Company or Employer) who are age eighteen or older. Employees of National Bank & Trust Company (the Bank), a related employer, also participate in the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The trust department of the Bank is the trustee of the Plan.

Contributions

Participants may contribute traditional pre-tax contributions or after tax Roth contributions up to the maximum amount allowed by law. Effective July 1, 2006, the Plan provides for the automatic enrollment of eligible participants at a deferral rate of 6% of eligible compensation (on a pre-tax basis), unless the participant affirmatively elects otherwise. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. The Company makes matching contribution equal 100 percent of the first 3 percent of eligible compensation and 50 percent of the next 2 percent of eligible compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the discretion of the Board of Directors of the Company. Contributions are subject to certain IRS limitations. Participants direct the investment of contributions into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are 100% vested in elective deferrals and rollover contributions. Vesting in the Company's matching and discretionary profit sharing contribution portion of their account is based on years of continuous service. Participants are 100% vested after three years of continuous service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the

participant's account. The loan interest rate, determined quarterly, is set at the prime rate, as defined. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits

Upon a participant's retirement, death, total and permanent disability, or other termination of employment with the Company, the participant's account is distributed in one lump sum.

In-service distributions are permissible from the Plan for participants that have obtained the age of 65. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment.

In conditions of "financial hardship", a participant may apply to the Plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code.

Administrative expenses

Certain expenses incurred in the administration of the Plan may be paid by the Company.

Forfeited accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$488 and \$1,015 respectively. These accounts will be used to reduce future employer contributions. Also, in 2014 and 2013, employer contributions were reduced by \$4,500 and \$2,000, respectively, from forfeited non-vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

The Plan administrator prepares the Form 5500 on the contract value basis, and as such, there is no reconciliation between the financial statements and Form 5500.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. Contract value for this common/collective trust fund is based on the net asset value (NAV) of the fund as reported by the trustee. As required by professional standards, the statements of net assets available for benefits present the fair value of the investment in the common/collective trust fund as well as the adjustment of the investment in the common/collective trust fund from fair value to contract value relating to the investment contract. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Dividends and interest received by the Plan are reinvested into the respective funds. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefit

Benefit payments are recorded when paid. Certain deemed distributions of participant loans are included in benefits paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net investment income.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through October 14, 2015, the date that the financial statements were available to be issued. See Note 9.

3. INVESTMENTS:

The Plan provides for participant directed investments into various mutual funds and a common collective trust fund. Fund balances that represent 5 percent or more of Plan net assets as of December 31, 2014 and 2013, are as follows:

	<u>2014</u>	<u>2013</u>
MetLife Stable Value Fund	\$ 1,545,558	1,644,818
Fidelity Advances New Insights	851,625	770,069
MFS Value Fund	884,281	848,719
Pimco GNMA Fund	644,760	591,692
Janus Enterprise Fund	747,198	739,242
John Hancock Mid Cap Value Fund	630,516	586,969
Metropolitan West Fund	785,958	*
American Euro Pacific Growth Fund	*	472,719
Pimco Total Return Fund	*	745,585

* - Investment did not represent 5 percent or more of the Plan's net assets or was not held as of the date indicated.

The Plan's investments in registered investment company's (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$386,587 and \$1,206,765 for the years ended December 31, 2014 and 2013 respectively.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Valued at the daily closing prices as reported by the fund. The funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common collective trust: Common collective trusts do not have a readily determinable fair value. The Plan has elected to report the investment based on the net asset value per share reported by the investment manager.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the investment information and related investment income included on the statements of net assets available for benefits, statement of changes in net assets available for benefits, and the supplemental schedule of assets (held at end of year), certified by National Bank & Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

6. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

National Bank & Trust Company is the trustee of the Plan. Fees paid to the bank for trustee services were \$5,174 and \$19,329 for the years ended December 31, 2014 and 2013, respectively.

During 2013, the Department of Labor conducted an audit of the plan and determined that fees paid by the Plan to National Bank & Trust Company violated certain provisions of ERISA and deemed that the payment of such fees constituted a prohibited transaction. As a result, the Plan Sponsor has agreed to reimburse the Plan \$39,204 of fees paid during 2010 through 2014 as well as contribute \$3,330 in lost earnings to the Plan. The required correction was completed during 2014.

7. TAX STATUS:

The Plan has adopted a standardized prototype 401(k) profit sharing plan document. This prototype plan document has been filed with the Internal Revenue Service and has received a favorable determination letter. The Plan has not sought a separate determination letter, however it is believed that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

9. SUBSEQUENT EVENT:

NB&T Financial Group, Inc. was acquired by Peoples Bancorp, Inc. during the 1st quarter of 2015. By vote of the Peoples Bancorp, Inc.'s Board of Directors on February 18, 2015, the Plan was terminated. Participants in the Plan may rollover their vested balance to the Peoples Bancorp Inc. 401(k) Plan or receive a lump-sum payment.
