1. DESCRIPTION OF THE PLAN:

The following description of the NB&T Financial Group, Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan’s provisions.

General

The Plan, which was established January 1, 1985, is a defined contribution plan covering employees of the NB&T Financial Group, Inc. (the “Company”) who are age twenty-one or older and have completed one year of service. Employees of National Bank & Trust Company (the Bank), a related employer, also participate in the Plan. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC) and is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The trust department of the Bank is the trustee of the Plan.

The Plan has purchased Company common shares (shares or stock) and holds the stock in a trust established under the Plan. All stock has been allocated to eligible employees’ accounts in accordance with applicable regulations.

Contributions

The Company may make contributions to the Plan in cash or in employer shares to the Plan which, when aggregated with the Plan’s dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Due to the loan being paid off in 2010, contributions are no longer being made to the Plan by the Company.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account is credited as of the last day of each plan year with an allocation of the Company’s contribution, investment earnings and forfeitures of terminated participants’ nonvested accounts. Only those participants who are eligible employees of the Company or its subsidiaries as of the last day of the plan year will receive an allocation.

Vesting

Upon completion of three years of service, a participant is 100% vested. According to the Plan, a year is defined as 1,000 hours of service. Participants terminating due to normal retirement, death or disability are also 100% vested.

Payment of benefits

Upon a participant’s retirement, death, or other termination of employment with the Company, the participant’s account is distributed in one lump sum in the form of Company common shares plus cash for any fractional shares. If a participant elects, they may authorize the Plan to sell their shares and receive a cash distribution.

At December 31, 2014 and 2013, Plan assets include \$2,887,279 and \$1,848,722, respectively, allocated to accounts of terminated or retired participants who have not yet been paid.

Diversification

Participants nearing retirement age have the opportunity to transfer a portion of the value of their investment into investments which are more diversified. Employees after having participated in the Plan for at least 10 years and having reached age 55, have the option of transferring up to 25% of the value of eligible shares from their account to the Company's 401(k) Plan. Employees may also transfer another 25% of their account upon reaching age 61.

Put option

Pursuant to the Plan provisions, Company stock that is held by the Plan participants which is not readily tradable on an established market at the time they are distributed will be subject to a put option which permits the participant or beneficiary to put these shares to the Company. Currently, the Company's shares trade on the established NASDAQ Stock Exchange and, therefore, the put option is not exercisable. Should the Company's shares cease to trade on an established market, the put option provision of the Plan would be reinstated.

Forfeited accounts

Forfeitures are allocated to eligible participants based on relative compensation. There were no forfeitures of non-vested accounts held by the Plan at December 31, 2014 and 2013. The dollar value of forfeitures from terminated participants' non-vested accounts totaled \$-0- and \$21 during 2014 and 2013, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation in fair value of investments represents realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at the end of the year. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded upon distribution.

Administrative expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. During 2014 and 2013 all Plan expenses were absorbed by the Company.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through October 14, 2015, the date that the financial statements were available to be issued. See Note 10.

3. INVESTMENTS:

The Plan's investments at December 31, 2014 and 2013 consisted of the following which exceeded 5 percent of the Plan's net assets:

	<u>2014</u>	<u>2013</u>
NB&T Financial Group, Inc. common stock:		
Shares	298,780	308,712
Fair value	\$ 9,531,082	5,970,490
Cost	\$ 2,089,188	2,029,996

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical

assets or liabilities in active markets that the Plan has the ability to access

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

NB&T Financial Group, Inc. common stock: Valued at the daily closing prices as reported on the NASDAQ Stock Exchange.

Money market fund: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

<u>Investments at fair value as of December 31, 2014</u>

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the investment information and related investment income included on the statements of net assets available for benefits, statement of changes in net assets available for benefits, and the supplemental schedule of assets (held at end of year), certified by National Bank & Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

6. ADMINISTRATION OF PLAN ASSETS:

The trustee of the Plan holds the Plan's assets, which consist principally of NB&T Financial Group, Inc. common shares. Company assets are held and managed by the Trustee, which invests cash received and dividend income, and makes distributions to participants. Officers or employees of the Company or its subsidiaries perform certain administrative functions. No such officer or employee receives compensation from the Plan.

7. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are shares of the Company's common stock. During 2014 the Plan purchased 8,756 shares of Company stock for \$191,036 and sold 14,316 shares for \$432,343. During 2013 the Plan purchased 13,523 shares of Company stock for \$272,391 and sold 7,021 shares of Company common stock for \$135,981.

8. TAX STATUS:

The IRS has determined and informed the Trustee by a letter dated August 14, 2013, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the applicable sections of the IRC. Once qualified the Plan is required to operate in conformity with the IRC to maintain its qualification

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. RISKS AND UNCERTAINTIES:

The Plan primarily invests in NB&T Financial Group, Inc. common stock, which is exposed to various risks, such as market risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

10. SUBSEQUENT EVENT:

NB&T Financial Group, Inc. was acquired by Peoples Bancorp, Inc. during the 1st quarter of 2015. By vote of the People Bancorp, Inc.'s Board of Directors on February 18, 2015, the Plan was terminated. Participants in the Plan will receive their vested balance in the form of a lump-sum payment during 2015.
