Forfeited amounts totaling $0 and $740 were available for use for the years ended December 31, 2014 and 2013, respectively.

Vesting

Participants are always 100% vested in their deferral contribution and employer safe harbor non-elective contributions. Employer non-safe harbor non-elective contributions and gains/losses credited thereon vest as follows:

Less than 1 year credited service	0%
After 1 year credited service	100%

For vesting purposes, a year of service is equivalent to 1,000 hours of service during the Plan year.

Retirement

Normal retirement under the Plan is fifty-nine and one-half (59½) years.

Payment of Benefits

Payment of benefits may be made at the following times under the Plan: 1) normal retirement, 2) termination of employment of the participant, or 3) death or disability of the participant. The form of benefit payments may be in a single lump sum or in periodic installments over a period of time.

Notes Receivable from Participants

The Plan allows participants to borrow from their accounts while employed by the Plan Sponsor. Loans may not exceed the lesser of $50,000 or 50% of the participants account balance. Loan terms may be up to five years or ten years if for the acquisition of a personal residence. Principal and interest are paid through payroll deductions. Loans are secured by the balance in the participants account.

Administrative Expenses

Administrative expenses of the Plan for the years ended December 31, 2014 and 2013 were paid by the Plan Sponsor and the Plan. Expenses related to specific participant transactions are charged to the respective participant's account.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The financial statements of the Plan are maintained on the accrual basis of accounting in accordance with generally accepted accounting principles of the United States (U.S. GAAP).

Investment Valuation and Income Recognition

Investments in mutual funds, common collective trust and personal choice retirement accounts are stated at fair market value using quoted market prices when available. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date and include capital gain distributions. Net appreciaion in fair value of investments includes gains and losses on investments bought and sold as well as held during the year.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Payment of Benefits
Benefits to participants are recorded when paid.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan payments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Income Taxes
The Plan has adopted a non-standardized prototype plan which has obtained a favorable opinion letter dated May 23, 2008, in which the Internal Revenue Service stated that the Plan is acceptable under Section 401 of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter, however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has determined that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2011.

Estimates and Assumptions
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3: **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

	$ 803,264	$ 3,404,984

NOTE 6: **FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) ASC 820 provides a framework for measuring fair value. That framework provides a three-tier hierarchy that prioritizes the inputs to valuation techniques used for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Levels 1 and 2 of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3- Inputs that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual Mutual funds funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Personal choice retirement accounts: Valued at the daily closing price as reported by the underlying investments. Personal choice retirement accounts consist primarily of interest bearing cash, common stocks and mutual funds.

Common Collective Trust: Invested primarily in mutual funds, stocks and bonds, both domestic and international. The majority of underlying assets have Level 1 quoted pricing incputs and observable Level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

NOTE 8: RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments include mutual funds and investments in the personal choice retirement accounts that are managed by Charles Schwab Corporation. Charles Schwab Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services are recorded in net appreciation in fair value of investments. Fees for certain administrative expenses are paid to Charles Schwab Corporation, the record keeper and third party administrator of the Plan. Notes receivable from participants are considered party-in-interest transactions. These investments and transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

NOTE 9: SUBSEQUENT EVENTS

Plan management has evaluated events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Management has evaluated subsequent events through September 25, 2015, the date the financial statements were available to be issued, and has determined that no subsequent events have occurred that should be disclosed, except as disclosed below.

Effective January 1, 2015, the Plan was amended to allow for in-Plan Roth rollovers.
