The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees 21 years of age or older become eligible to participate in the Plan on the earliest enrollment date following 30 days of service. Enrollment dates are the first day of each month. Employees covered under a collective bargaining agreement except for Teamsters Local Union Nos. 833, 525, 135, 955, and 688, of which retirement benefits have been the subject of good faith negotiations, and leased employees are excluded from participation. The Plan's trustee is Fidelity Management Trust Company (the Trustee), and Fidelity Investments Institutional Operations Company is the recordkeeper.

The following description of the Plan provides only general information. Participants should refer to the Plan document and summary plan description, which are available from the Plan administrator, for a more complete description of the Plan's provisions.

(b) Contributions

The Plan is funded by participant contributions and employer matching contributions. For the year ended December 31, 2014, participants could contribute from 1% to 92% of their annual compensation on a tax-deferred basis, subject to a maximum of $17,500 ($23,000 for participants who were age 50 or older by the end of the Plan year). The percentage contributed is elected by each participant and may be amended on the first day of each month. Rollover contributions are permitted only from qualified retirement plans if such rollover contributions will not jeopardize the tax-exempt status of the Plan. The Employer may make discretionary matching contributions to the Plan of 50% of a participant's contribution up to 4% of the participant's compensation, as defined in the Plan document. For the year ended December 31, 2014, the Employer made discretionary matching contributions to the Plan totaling $5,247,338.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Employer's discretionary contributions, if any, and plan earnings, and charged with distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(d) Investment Options

Participants can direct their contributions, and the Company contributions, among any of 32 investment options offered by Fidelity Investments Institutional Services Company, Inc., the Plan's investment advisor. Participants may change their allocations daily as well as transfer funds among the investment options.

(e) Vesting

Participants are immediately vested in their pretax and rollover contributions plus earnings thereon. Vesting in the Employer's contributions, and earnings thereon, is based on years of service according to the following schedule:

Participant's years of service	Vested percentage
Less than 1	0%
1 but less than 2	20
2 but less than 3	40
3 but less than 4	60
4 but less than 5	80
5 or more	100

Employer discretionary contributions vest 100% upon the attainment of retirement age (as defined in the Plan document), full and permanent disability, or death, regardless of the years of service.

(f) Distributions

Distribution of a participant's vested account balance is available upon the participant's retirement, death, disability, termination of employment, attainment of age 59½, or for a financial hardship meeting the requirements of the Internal Revenue Service regulations. Distributions are made in a lump-sum payment, a direct rollover, or a combination thereof.

(g) Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to offset employer matching contributions or to pay Plan administrative expenses. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $201,852 and $126,421, respectively. In 2014 and 2013, employer matching contributions of approximately $130,000 and $140,158, respectively, were paid from the forfeited nonvested accounts. These accounts will continue to be used to reduce future employer contributions and pay certain administrative expenses.

(h) Notes Receivable from Participants

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period. Loans must be repaid in level payments through after-tax deductions on at least a quarterly basis over a five-year period or up to 10 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans, which would be made under similar circumstances. A participant may have a maximum number of two outstanding loans at any time.

Participant loans determined to be in default are deemed to be distributions. During 2014, the Plan had $6,270 in defaulted loans reported as deemed distributions on the Statement of Changes in Net Assets Available for Benefits.

(i) Plan Termination

Although it has no present intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in their account balances.

(2) Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(c) Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

(d) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to extinguish a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Acquisition costs are included in the cost of investments purchased, and sales are recorded net of selling expenses. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Contributions

Participant contributions are recorded when withheld from the participant's compensation by the Employer. Employer contributions are recorded on the accrual basis of accounting and are paid to the Plan no later than the due date of the Employer's federal income tax returns.

(g) Administrative Expenses

Certain expenses, including audit and tax return preparation fees, incurred in the administration of the Plan are paid by the Company. The Plan pays for managed account services and certain fees.

(h) Subsequent Events

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 855, *Subsequent Events*, management has evaluated subsequent events through the date of the Independent Auditors' Report.

(3) Investments

(a) Unaudited Information Certified by the Plan Trustee

The December 31, 2014 and 2013, Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The information certified includes total investments of $299,266,766 and $276,139,013 as of December 31, 2014 and 2013, respectively, and investment income of $23,150,359 for the year ended December 31, 2014.

(b) Concentrations

The fair value of individual investments that represent 5% or more of the Plan's net assets are as follows:

	December 31	
	2014	**2013**
Fidelity Growth Company Fund	$ 53,283,589	$ 48,587,402
Fidelity Balanced Fund	45,659,919	41,825,885
Fidelity Contrafund	31,904,306	32,048,787
Fidelity Retirement Money Market Portfolio Fund	19,982,951	20,183,129
Fidelity Low Priced Stock Fund	17,210,016	17,420,805
Total Return Institutional Fund	16,715,298	16,049,239
	$ 184,756,079	$ 176,115,247

(c) Net Appreciation in Fair Value of Investments

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $5,274,775.

(4) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of money market funds is based on the closing price reported on the active market on which the individual securities are traded. There have been no changes in the methodologies used at December 31, 2014 or 2013.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments as of December 31, 2014 and 2013:

	Carrying value	Fair value measurements using quoted market prices for identical assets (Level 1)
December 31, 2014:		
Money market fund	$ 19,982,951	$ 19,982,951
Mutual funds	279,283,815	279,283,815
Total	$ 299,266,766	$ 299,266,766

	Carrying value	Fair value measurements using quoted market prices for identical assets (Level 1)
December 31, 2013:		
Money market fund	$ 20,183,129	$ 20,183,129
Mutual funds	255,955,884	255,955,884
Total	$ 276,139,013	$ 276,139,013

The Plan did not have any transfers between Level 1, 2, or 3 during the year ended December 31, 2014 or 2013.

(5) Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Company was made aware of various document and operational failures with respect to the Plan, which have been discovered internally, by consultants, auditors, and by outside legal counsel. Because the Company is committed to maintaining the qualified status of the 401(k) Plan, the Company has corrected operational errors, which are capable of self-correction, within the meaning of the Employee Plan Compliance Resolution System (EPCRS) under Rev. Proc. 2008-50 (which has been superseded by Rev. Proc. 2013-12), and completed a Voluntary Compliance Program (VCP) submission in 2013.

(6) Related Party Transactions

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan pays for certain administrative costs. Administrative costs not paid by the Plan, which were paid by the Company are not reflected in the accompanying financial statements.

In addition, the Plan is not charged for administrative functions performed by employees of the Company.

(7) Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that market fluctuations in the near term would materially affect participants' account balances and the amount reported in the statements of net assets available for benefits and changes therein.

(8) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31, 2014 and 2013:

	December 31

(9) Excess Contributions

On the Statement of Changes in Net Assets Available for Benefits, distributions of excess contributions include corrective distributions of $211,372 for the year ended December 31, 2014. These distributions to certain active participants are to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The $211,372 for 2014 is also included in the Statement of Net Assets Available for Benefits as excess contributions payable at December 31, 2014 as these distributions were made in 2015.

Employees covered under a collective bargaining agreement except for Teamsters Local Union Nos. 833, 525, 135, 955, and 688, of which retirement benefits have been the subject of good faith negotiations, and leased employees are excluded from participation. The Plan's trustee is Fidelity Management Trust Company (the Trustee), and Fidelity Investments Institutional Operations Company is the recordkeeper.

The following description of the Plan provides only general information. Participants should refer to the Plan document and summary plan description, which are available from the Plan administrator, for a more complete description of the Plan's provisions.

(b) Contributions

The Plan is funded by participant contributions and employer matching contributions. For the year ended December 31, 2014, participants could contribute from 1% to 92% of their annual compensation on a tax-deferred basis, subject to a maximum of $17,500 ($23,000 for participants who were age 50 or older by the end of the Plan year). The percentage contributed is elected by each participant and may be amended on the first day of each month. Rollover contributions are permitted only from qualified retirement plans if such rollover contributions will not jeopardize the tax-exempt status of the Plan. The Employer may make discretionary matching contributions to the Plan of 50% of a participant's contribution up to 4% of the participant's compensation, as defined in the Plan document. For the year ended December 31, 2014, the Employer made discretionary matching contributions to the Plan totaling $5,247,338.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Employer's discretionary contributions, if any, and plan earnings, and charged with distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(d) Investment Options

Participants can direct their contributions, and the Company contributions, among any of 32 investment options offered by Fidelity Investments Institutional Services Company, Inc., the Plan's investment advisor. Participants may change their allocations daily as well as transfer funds among the investment options.

(e) Vesting

Participants are immediately vested in their pretax and rollover contributions plus earnings thereon. Vesting in the Employer's contributions, and earnings thereon, is based on years of service according to the following schedule:

Participant's years of service	Vested percentage
Less than 1	0%
1 but less than 2	20
2 but less than 3	40
3 but less than 4	60
4 but less than 5	80
5 or more	100

Employer discretionary contributions vest 100% upon the attainment of retirement age (as defined in the Plan document), full and permanent disability, or death, regardless of the years of service.

(f) Distributions

Distribution of a participant's vested account balance is available upon the participant's retirement, death, disability, termination of employment, attainment of age 59½, or for a financial hardship meeting the requirements of the Internal Revenue Service regulations. Distributions are made in a lump-sum payment, a direct rollover, or a combination thereof.

(g) Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to offset employer matching contributions or to pay Plan administrative expenses. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $201,852 and $126,421, respectively. In 2014 and 2013, employer matching contributions of approximately $130,000 and $140,158, respectively, were paid from the forfeited nonvested accounts. These accounts will continue to be used to reduce future employer contributions and pay certain administrative expenses.

(h) Notes Receivable from Participants

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period. Loans must be repaid in level payments through after-tax deductions on at least a quarterly basis over a five-year period or up to 10 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans, which would be made under similar circumstances. A participant may have a maximum number of two outstanding loans at any time.

Participant loans determined to be in default are deemed to be distributions. During 2014, the Plan had $6,270 in defaulted loans reported as deemed distributions on the Statement of Changes in Net Assets Available for Benefits.

(i) Plan Termination

Although it has no present intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in their account balances.

(2) Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(c) Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

(d) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to extinguish a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Acquisition costs are included in the cost of investments purchased, and sales are recorded net of selling expenses. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Contributions

Participant contributions are recorded when withheld from the participant's compensation by the Employer. Employer contributions are recorded on the accrual basis of accounting and are paid to the Plan no later than the due date of the Employer's federal income tax returns.

(g) Administrative Expenses

Certain expenses, including audit and tax return preparation fees, incurred in the administration of the Plan are paid by the Company. The Plan pays for managed account services and certain fees.

(h) Subsequent Events

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 855, *Subsequent Events*, management has evaluated subsequent events through the date of the Independent Auditors' Report.

(c) Net Appreciation in Fair Value of Investments

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $5,274,775.

(4) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of money market funds is based on the closing price reported on the active market on which the individual securities are traded. There have been no changes in the methodologies used at December 31, 2014 or 2013.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments as of December 31, 2014 and 2013:

	Carrying value	Fair value measurements using quoted market prices for identical assets (Level 1)
December 31, 2014:		
Money market fund	$ 19,982,951	$ 19,982,951
Mutual funds	279,283,815	279,283,815
Total	$ 299,266,766	$ 299,266,766

	Carrying value	Fair value measurements using quoted market prices for identical assets (Level 1)
December 31, 2013:		
Money market fund	$ 20,183,129	$ 20,183,129
Mutual funds	255,955,884	255,955,884
Total	$ 276,139,013	$ 276,139,013

The Plan did not have any transfers between Level 1, 2, or 3 during the year ended December 31, 2014 or 2013.

(5) Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Company was made aware of various document and operational failures with respect to the Plan, which have been discovered internally, by consultants, auditors, and by outside legal counsel. Because the Company is committed to maintaining the qualified status of the 401(k) Plan, the Company has corrected operational errors, which are capable of self-correction, within the meaning of the Employee Plan Compliance Resolution System (EPCRS) under Rev. Proc. 2008-50 (which has been superseded by Rev. Proc. 2013-12), and completed a Voluntary Compliance Program (VCP) submission in 2013.

(6) Related Party Transactions

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan pays for certain administrative costs. Administrative costs not paid by the Plan, which were paid by the Company are not reflected in the accompanying financial statements.

In addition, the Plan is not charged for administrative functions performed by employees of the Company.

(7) Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that market fluctuations in the near term would materially affect participants' account balances and the amount reported in the statements of net assets available for benefits and changes therein.

(8) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31, 2014 and 2013:

(9) Excess Contributions

On the Statement of Changes in Net Assets Available for Benefits, distributions of excess contributions include corrective distributions of $211,372 for the year ended December 31, 2014. These distributions to certain active participants are to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The $211,372 for 2014 is also included in the Statement of Net Assets Available for Benefits as excess contributions payable at December 31, 2014 as these distributions were made in 2015.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees 21 years of age or older become eligible to participate in the Plan on the earliest enrollment date following 30 days of service. Enrollment dates are the first day of each month. Employees covered under a collective bargaining agreement except for Teamsters Local Union Nos. 833, 525, 135, 955, and 688, of which retirement benefits have been the subject of good faith negotiations, and leased employees are excluded from participation. The Plan's trustee is Fidelity Management Trust Company (the Trustee), and Fidelity Investments Institutional Operations Company is the recordkeeper.

The following description of the Plan provides only general information. Participants should refer to the Plan document and summary plan description, which are available from the Plan administrator, for a more complete description of the Plan's provisions.

(b) Contributions

The Plan is funded by participant contributions and employer matching contributions. For the year ended December 31, 2014, participants could contribute from 1% to 92% of their annual compensation on a tax-deferred basis, subject to a maximum of $17,500 ($23,000 for participants who were age 50 or older by the end of the Plan year). The percentage contributed is elected by each participant and may be amended on the first day of each month. Rollover contributions are permitted only from qualified retirement plans if such rollover contributions will not jeopardize the tax-exempt status of the Plan. The Employer may make discretionary matching contributions to the Plan of 50% of a participant's contribution up to 4% of the participant's compensation, as defined in the Plan document. For the year ended December 31, 2014, the Employer made discretionary matching contributions to the Plan totaling $5,247,338.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Employer's discretionary contributions, if any, and plan earnings, and charged with distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(d) Investment Options

Participants can direct their contributions, and the Company contributions, among any of 32 investment options offered by Fidelity Investments Institutional Services Company, Inc., the Plan's investment advisor. Participants may change their allocations daily as well as transfer funds among the investment options.

(e) Vesting

Participants are immediately vested in their pretax and rollover contributions plus earnings thereon. Vesting in the Employer's contributions, and earnings thereon, is based on years of service according to the following schedule:

Participant's years of service	Vested percentage
Less than 1	0%
1 but less than 2	20
2 but less than 3	40
3 but less than 4	60
4 but less than 5	80
5 or more	100

Employer discretionary contributions vest 100% upon the attainment of retirement age (as defined in the Plan document), full and permanent disability, or death, regardless of the years of service.

(f) Distributions

Distribution of a participant's vested account balance is available upon the participant's retirement, death, disability, termination of employment, attainment of age 59½, or for a financial hardship meeting the requirements of the Internal Revenue Service regulations. Distributions are made in a lump-sum payment, a direct rollover, or a combination thereof.

(g) Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to offset employer matching contributions or to pay Plan administrative expenses. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $201,852 and $126,421, respectively. In 2014 and 2013, employer matching contributions of approximately $130,000 and $140,158, respectively, were paid from the forfeited nonvested accounts. These accounts will continue to be used to reduce future employer contributions and pay certain administrative expenses.

(h) Notes Receivable from Participants

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period. Loans must be repaid in level payments through after-tax deductions on at least a quarterly basis over a five-year period or up to 10 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans, which would be made under similar circumstances. A participant may have a maximum number of two outstanding loans at any time.

Participant loans determined to be in default are deemed to be distributions. During 2014, the Plan had $6,270 in defaulted loans reported as deemed distributions on the Statement of Changes in Net Assets Available for Benefits.

(i) Plan Termination

Although it has no present intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in their account balances.

(2) Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(c) Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

(d) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to extinguish a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Acquisition costs are included in the cost of investments purchased, and sales are recorded net of selling expenses. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Contributions

Participant contributions are recorded when withheld from the participant's compensation by the Employer. Employer contributions are recorded on the accrual basis of accounting and are paid to the Plan no later than the due date of the Employer's federal income tax returns.

(g) Administrative Expenses

Certain expenses, including audit and tax return preparation fees, incurred in the administration of the Plan are paid by the Company. The Plan pays for managed account services and certain fees.

(h) Subsequent Events

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 855, *Subsequent Events*, management has evaluated subsequent events through the date of the Independent Auditors' Report.

(3) Investments

(a) Unaudited Information Certified by the Plan Trustee

The December 31, 2014 and 2013, Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The information certified includes total investments of $299,266,766 and $276,139,013 as of December 31, 2014 and 2013, respectively, and investment income of $23,150,359 for the year ended December 31, 2014.

(b) Concentrations

The fair value of individual investments that represent 5% or more of the Plan's net assets are as follows:

	December 31	
	2014	**2013**
Fidelity Growth Company Fund	$ 53,283,589	$ 48,587,402
Fidelity Balanced Fund	45,659,919	41,825,885
Fidelity Contrafund	31,904,306	32,048,787
Fidelity Retirement Money Market Portfolio Fund	19,982,951	20,183,129
Fidelity Low Priced Stock Fund	17,210,016	17,420,805
Total Return Institutional Fund	16,715,298	16,049,239
	$ 184,756,079	$ 176,115,247

(c) Net Appreciation in Fair Value of Investments

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $5,274,775.

(4) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of money market funds is based on the closing price reported on the active market on which the individual securities are traded. There have been no changes in the methodologies used at December 31, 2014 or 2013.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments as of December 31, 2014 and 2013:

	Carrying value	Fair value measurements using quoted market prices for identical assets (Level 1)
December 31, 2014:		
Money market fund	$ 19,982,951	$ 19,982,951
Mutual funds	279,283,815	279,283,815
Total	$ 299,266,766	$ 299,266,766

	Carrying value	Fair value measurements using quoted market prices for identical assets (Level 1)
December 31, 2013:		
Money market fund	$ 20,183,129	$ 20,183,129
Mutual funds	255,955,884	255,955,884
Total	$ 276,139,013	$ 276,139,013

The Plan did not have any transfers between Level 1, 2, or 3 during the year ended December 31, 2014 or 2013.

(5) Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Company was made aware of various document and operational failures with respect to the Plan, which have been discovered internally, by consultants, auditors, and by outside legal counsel. Because the Company is committed to maintaining the qualified status of the 401(k) Plan, the Company has corrected operational errors, which are capable of self-correction, within the meaning of the Employee Plan Compliance Resolution System (EPCRS) under Rev. Proc. 2008-50 (which has been superseded by Rev. Proc. 2013-12), and completed a Voluntary Compliance Program (VCP) submission in 2013.

(6) Related Party Transactions

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan pays for certain administrative costs. Administrative costs not paid by the Plan, which were paid by the Company are not reflected in the accompanying financial statements.

In addition, the Plan is not charged for administrative functions performed by employees of the Company.

(7) Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that market fluctuations in the near term would materially affect participants' account balances and the amount reported in the statements of net assets available for benefits and changes therein.

(9) Excess Contributions

On the Statement of Changes in Net Assets Available for Benefits, distributions of excess contributions include corrective distributions of $211,372 for the year ended December 31, 2014. These distributions to certain active participants are to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The $211,372 for 2014 is also included in the Statement of Net Assets Available for Benefits as excess contributions payable at December 31, 2014 as these distributions were made in 2015.
