Mar-Bal, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of Plan

The following description of the Mar-Bal, Inc. Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Mar-Bal, Inc. (the “Company”) not covered by a collective bargaining agreement who have completed six months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Investment Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Effective January 1, 2015, the Plan will include an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants will have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated retirement date fund until changed by the participant. Each year following the participant’s entrance year, the participant’s deferral rate will automatically increase 1% to a maximum of 6%.

Each year, the Company may establish a rate at which matching contributions will be made. During the year ended December 31, 2014, the Company contributed 100% of the first \$260 that a participant contributed to the Plan and 30% of the next \$2,740 that a participant contributed to the Plan. Effective January 1, 2015, the Company will make safe harbor matching contributions equal to 100% of the first 1% of contributions made to the Plan, plus 50% of contributions made from 1% up to 6%. Additional profit sharing amounts may be contributed at the option of the Company.

During 2014, the Company approved a profit sharing contribution of 9% of annual compensation for selected employees who were employed during the year ended December 31, 2014. Contributions are subject to certain Internal Revenue Service (“IRS”) limitations.

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and their employer matching contributions made prior to January 1, 2015 plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of continuous service. Effective January 1, 2015, vesting in the Company's safe harbor matching contributions will be 100% after two years of continuous service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined on the date of the loan, is set at 1% above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, annual installment payments over a 10 year period or installments over the life expectancy of the participant or designated beneficiary. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$23,306 and \$19,895 respectively. These accounts will be used to reduce future employer contributions or pay administrative expenses of the Plan.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits are required to present the fair value of the investment contracts. No adjustment of the fully benefit-responsive investment contract from fair value to contract value has been made at December 31, 2014 and 2013, as the fair value of the Plan's investment in the fully benefit-responsive investment contract approximates contract value at December 31, 2014 and 2013. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board ("FASB") which established the FASB Accounting Standards Codification ("ASC") as the single source of authoritative accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

December 31, 2014 and 2013

Note 2: Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 and 2013 excess contributions to the applicable participants prior to March 15, 2015 and 2014, respectively.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2015, the date the financial statements were available to be issued.

Note 3: Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company, LLC (the trustee of the Plan). The contract value of the fixed annuities was certified by the trustee.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$359,468 as follows:

Variable annuities	\$ 341,322
Self-directed brokerage accounts (common stock)	<u>18,146</u>
	\$ <u><u>359,468</u></u>

Note 5: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Mar-Bal, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 5: Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Fixed annuities: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

Variable annuities: Valued daily based on the quoted market price for the underlying mutual fund adjusted for the expense factor disclosed in the annuity contract.

Self-directed brokerage accounts: Contained within the self-directed brokerage accounts are interest-bearing cash accounts and shares of common stock. Shares of common stock are valued at the closing price reported on the active market on which the individual securities are traded. Interest-bearing cash accounts are valued at amortized cost, which approximates fair value.

Note 6: Investment Contract with Insurance Company

In 2012, the Plan entered into a fully benefit-responsive fixed annuity investment contract with Great-West Life & Annuity Insurance Company ("Great-West"). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed annuity investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Mar-Bal, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 6: Investment Contract With Insurance Company (continued)

Because the fixed annuity investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed annuity investment contract. The fixed annuity investment contract is presented on the face of the statements of net assets available for benefits at fair value. No adjustment of the fully benefit-responsive investment contract from fair value to contract value has been made at December 31, 2014 and 2013, as the fair value of the Plan's investment in the fully benefit-responsive investment contract approximates contract value at December 31, 2014 and 2013. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was \$873,611 and \$887,080, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The fixed annuity investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the fixed annuity investment contract are as follows:

	2014	2013
Average yields:		
Based on actual earnings	1.25%	1.26%
Based on interest rate credited to participants	1.25%	1.26%

Mar-Bal, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 7: Related-Party Transactions and Party In Interest Transactions

Certain Plan investments are fixed and variable annuities offered through Great-West Life & Annuity Insurance Company and managed by Great-West Trust Company, LLC. Great-West Trust Company, LLC, an affiliate of Great-West Life & Annuity Company, is a trustee, as defined by the Plan and, therefore, these transactions qualify as party in interest transactions.

Effective January 1, 2012, Great-West provides certain administrative services to the Plan pursuant to a services agreement between the Company and Great-West. Great-West receives revenue from mutual fund and collective trust fund service providers for services Great-West provides to the funds. This revenue is used to offset certain amounts owed to Great-West for its administrative services to the Plan.

If the revenue received by Great-West from such mutual fund or collective trust fund service providers exceeds the amount owed under the services agreement, Great-West remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During 2014 there were no excess amounts. The Plan or Plan Sponsor may make a payment to Great-West for administrative expenses not covered by revenue sharing.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company profit sharing contribution portion of their account.

Note 9: Tax Status

The IRS has determined and informed the Company by a letter dated September 19, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

December 31, 2014 and 2013

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements for the year ended December 31, 2013 to Form 5500:

Net assets available for benefits per the financial statements	\$ 7,797,074
