Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Kodiak Gypsum 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 2014. The Plan is available to employees age 18 years or older who have completed six months of service. Employees may enter the Plan on the first day of the month coinciding with or next following the date they satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Kodiak Gypsum Mountain States, LLC dba Jones Heartz Drywall Supply (the "Company") administers the Plan. American United Life Insurance Company ("AUL") serves as the Plan's third-party administrator, maintains the Plan's records, serves as trustee, custodian and manages Plan assets. AUL offers Plan participants a variety of investment options through various mutual funds. Individual accounts are invested in the various investment options at the direction of the participants.

In August 2014, the Company acquired the assets of AO, Inc. ("AO"). Participants in AO's existing 401(k) plan were given the option to receive a distribution of their account balances or rollover balances into the Company's Plan. 401(k) balances were rolled over into the Plan on December 1, 2014.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted the United States of America ("GAAP").

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation, not to exceed $17,500 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. Employees are eligible to defer on an after-tax basis through payroll deductions from eligible compensation as Roth 401(k) deductions. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company may make a matching contribution to the Plan. For the year ended December 31, 2014, the Company elected to make a matching contribution of 100% of elective deferrals up to 3% of compensation, and an additional 50% of deferrals above 3%, not to exceed 4%. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59 ½.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the employer's discretionary matching contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 3	0%
3	100%

A participant's account becomes 100% vested upon death, attaining early or normal retirement age (the age of 55 or 65, respectively), retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the balances in the participants' accounts and bear interest rates of 4.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator, and mature at various dates through December 2017. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at an amortized cost plus accrued interest.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant will receive a lump-sum payment in the amount equal to the participant's vested account balance within a reasonable period of time after termination of employment. Participants may not make withdrawals from their accounts prior to retirement at age 59 ½, except in the event of death, disability, termination of employment, or notice of hardship, without being subject to certain restrictions and penalties. Benefits are recorded as distributions to participants when paid. Accounts with balances less than $1,000 may be immediately distributed upon a distribution event. Accounts with balances greater than $1,000 but less than $5,000 are rolled over to an IRA if the participant does not make an affirmative election to either receive or roll over the distribution. Benefits are recorded as distributions when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses, reduce employer contributions, or shall be allocated to participants in the same manner as the employer's contribution. The balance of this account at December 31, 2014 was $0.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investments in mutual funds are reported at the last reported sales price at the end of the respective periods using quoted market values.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 2 - Certified Assets

AUL has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2014 and the income earned on the investments for the year ended December 31, 2014, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

The fair value of investments greater than 5% of net assets was the following at December 31, 2014:

BlackRock Global Allocation I	$	615,908
BlackRock Lifepath Index 2020	$	124,594
Alger Capital Appreciation Institutional	$	84,054
American Century Mid Cap Value Inv	$	81,380
BlackRock Lifepath Index 2025	$	80,697

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2014.

Note 3 - Fair Value Accounting (continued)

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual Funds				
International	$ 745,637	$ -	$ -	$ 745,637
Target date	268,719	-	-	268,719
Large cap	194,354	-	-	194,354
Mid cap	93,008	-	-	93,008
Small cap	80,680	-	-	80,680
Fixed Income	77,912	-	-	77,912
Specialty	14,485	-	-	14,485
Total	$ 1,474,795	$ -	$ -	$ 1,474,795

The valuation technique used to measure fair value of the mutual funds was quoted prices for identical assets that are directly observable in the marketplace as of the report date.

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan uses a prototype Plan document and did not obtain a plan-specific determination letter, as it operates with the trustee's determination letter, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are a mutual funds which are managed by AUL, who served as the Plan trustee for the year ended December 31, 2014. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. In addition, the Plan provides for participant loans, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions, distributions, receivables, and payables for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2014 due to the accrual of employer and participant contributions paid to the Plan subsequent to year-end and the accrual of corrective distributions.

Note 9 - Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. Except for the matter discussed below, there were no other material subsequent events that require recognition or disclosure in the financial statements.

During 2014, participants in employee benefit plans administered by certain related parties through common ownership were notified that the net assets of their respective plans would be transferred into the Company's parent plan, Kodiak Gypsum 401(k) Plan. Accordingly, on January 1, 2015 all related party plan assets were transferred into the Plan.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
