Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Administrator of Thermo Fisher Scientific Inc. Retirement Plan and the Pension Committee of Thermo Fisher Scientific Inc.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Thermo Fisher Scientific Inc. Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and December 31, 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by the Bank of New York Mellon, the trustee of the Plan, and The Principal Life Insurance Company, the asset custodian of the Plan's pooled separate accounts, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee and asset custodian hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustee and asset custodian as of December 31, 2014 and December 31, 2013 and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee and asset custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental schedules of Schedule H, Line 4i: Schedule of Assets (Held at End of Year) December 31, 2014 and Schedule H, Line 4j: Schedule of Reportable Transactions for the Year Ended December 31, 2014 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Emphasis of Matter

As described in Note 1, effective December 31, 2014, the Life Technologies Pension Plan and the Employee Pension Plan of Applied Biosystems, Inc. were merged into and became a part of the Plan

1. Description of Plan

The following brief description of Thermo Fisher Scientific Inc. Retirement Plan is provided for general information purposes only. Participants should refer to the amended and restated plan document for more complete information.

Effective July 1, 1997, Fisher Scientific International Inc. (the "former Plan Sponsor") amended and restated the Plan to convert from traditional defined benefit pensions to cash balance pension benefits for most participating employees. The old Plan is referred to as the "Prior Plan" and the new Plan is referred to as the "Cash Balance Plan;" together, they are referred to as the "Plan." The rights and benefits of each person who retired prior to July 1, 1997, were determined in accordance with the terms of the Prior Plan. The rights and benefits of a person who retired on or after July 1, 1997, or a person whose employment otherwise terminated or whose severance or separation pay ended on or after July 1, 1997, was determined in accordance with the Cash Balance Plan. For certain employees covered by collectively bargained agreements, this conversion was effective at a later date or in some cases there was no conversion from the Prior Plan. The Plan was formerly known as Fisher Scientific International Inc. Retirement Plan; its name was changed by an amendment effective March 31, 2008. In addition, effective January 1, 2009, Thermo Fisher Scientific Inc. (the "Plan Sponsor") became the plan sponsor.

Effective January 1, 2006, the Plan was amended to freeze participation and accrued benefits of employees who were not collectively bargained under the Plan. Effective December 30, 2008, the Plan was amended again to freeze participation and accrued benefits of employees covered by one of the collective bargaining units participating in the Plan, and to render those participants fully vested in their benefits at that date. With respect to the plans that merged into the Plan during 2007, effective March 31, 2008, the Plan was amended to freeze participation and accrued benefits of those employees who had participated in the Apogent Retirement Security Plan or the Thermo Fisher Scientific Inc. Retirement Plan (formerly the Thermo Forma Plan) prior to the plan mergers, and to render those participants fully vested in their respective accrued benefits at that date. Effective April 30, 2009, the Plan was amended to freeze the accrued benefits of the sole remaining collective bargaining unit that was still accruing benefits. With respect to the plans that merged into the Plan during 2014, benefit accruals under both plans were frozen prior to the merger.

General

The Plan is a defined benefit pension plan sponsored by Thermo Fisher Scientific Inc. (the "Company"). The Company's Pension Committee and the plan administrator control and manage the operation and administration of the Plan. The Bank of New York Mellon ("Mellon") serves as the trustee of the Plan. The Principal Life Insurance Company ("Principal") is an asset custodian of certain assets referred to as investments in "pooled separate accounts" in the accompanying Statement of Net Assets Available for Benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Mergers

On December 31, 2014, the Life Technologies Pension Plan (the "LTI Plan") and the Employee Pension Plan of Applied Biosystems, Inc. (the "ABI Plan") were merged with the Plan and all of the LTI and ABI Plans' assets and accumulated plan benefits were transferred to the Plan ("the plan merger"). The aggregate value of the assets transferred was \$69,133,000 and \$640,881,000 for the LTI Plan and ABI Plan, respectively. The assets were held by the trustee, Mellon, prior to the merger. Benefit accruals under both plans were frozen prior to the merger.

Pension Benefits

Plans that merged into the Plan throughout its history continued to follow the guidelines for calculation of benefits as defined by those respective plans before those mergers took place. Therefore, if a plan that did not allow for a cash balance benefit merged into the Plan, then the participants of that plan would not begin to receive cash balance benefits after that merger, unless a subsequent amendment was adopted.

Under the Cash Balance Plan, the benefit received is the participant's vested balance of their cash balance account. Under both the Cash Balance Plan and the Prior Plan, a participant in the Cash Balance Plan may receive a monthly

annuity or lump-sum cash payment upon terminating employment or retiring. A participant solely of the Prior Plan may receive a monthly annuity commencing at age 65 upon terminating or retiring, or commencing as early as age 55 if the participant meets certain service requirements. Furthermore, both Plans include provisions for early retirement, death, and disability benefits.

Under the Cash Balance Plan, participants are not allowed to make contributions to the Plan. Under the Prior Plan, certain union group employees were able to contribute a portion of their earnings; however, these contributions ceased at the time the respective unions' benefits were frozen. Accumulated employee contributions were credited with interest at rates of 2.10% and 1.04% during 2014 and 2013, respectively.

Each participant's account is credited with interest at a rate determined annually (3.36% and 2.93% for 2014 and 2013, respectively) based on the 30-year Treasury bill rate. The rate is adjusted in November for the following year.

The Plan Sponsor entered into an agreement with John Hancock Financial under which the Plan continued its role as paymaster for certain annuities which are to be reimbursed monthly from John Hancock Financial. Benefit payment amounts paid by the Plan relating to these settled obligations and the related reimbursements amounted to \$3,421,000 for the year ended December 31, 2014, and are not included as Plan activity.

Lump Sum Settlement

During 2014, the Plan Sponsor offered to settle pension obligations for certain eligible participants in the Plan. Benefit payments totaling \$53,100,000 reflected in the Statement of Changes in Net Assets Available for Benefits represent cash payouts associated with the settlement. This settlement reduced the Plan's actuarial present value of accumulated plan benefits by \$66,363,000.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and the disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Company's Pension Committee determines the valuation of the Plan's investments. Refer to Note 5 for more information on valuation of the Plan's investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits. As provided by the plan document, charges for administering the Plan including recordkeeping fees, actuarial fees and Pension Benefit Guarantee Corporation ("PBGC") premiums as well as trustee fees and investment management fees are paid by the Plan.

Risks and Uncertainties

The Plan invests in various investment securities, including U.S. and international equity securities, fixed income funds, private equity securities, money market funds, alternative investments and pooled separate accounts. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recent Accounting Pronouncements

In May 2015, the FASB issued new guidance that removes the requirement to categorize within the fair value hierarchy investments for which fair value is measured using the net asset value per share. The Plan adopted this guidance, including retrospective application of prior periods presented, effective January 2014. Adoption of this guidance, which is related to disclosure only, did not impact the Plan's net assets available for benefits or changes in net assets available for benefits.

In July 2015, the FASB issued new guidance that removes the requirement to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. The Plan adopted this guidance, including retrospective application of prior periods presented, effective January 2014. Adoption of this guidance, which is related to disclosure only, did not impact the Plan's net assets available for benefits or changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated events and transactions occurring after the Statement of Net Assets Available for Benefits date through the date the financial statements were available for issuance, October 12, 2015, for recognition or disclosure in the financial statements and notes.

3. Funding Policy

The Plan's funding policy is for the Company to make cash contributions to the Plan at least equal to the amount required to satisfy the minimum funding requirements of ERISA. The Company met the minimum funding requirements of ERISA for the year ended December 31, 2014.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations of the accumulated plan benefits as of December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
Discount Rate	4.00% Compounded Annually	4.75% Compounded Annually
Mortality	RP-2014 Mortality Tables and Scale MP-2014 Mortality Improvement Projection Scales	RP-2000 Generational
Retirement Age	Specified percentages varying by former plan commencing at age 55, with weighted averages of ages varying by former plan from age 61.1 to age 62.5	Specified percentages commencing at age 55, with a weighted average of age 62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2014 and 2013 are as follows:

<u>(In thousands)</u>	<u>2014</u>	<u>2013</u>
Vested Benefits		
Participants currently receiving payments	\$ 719,495	\$ 199,487
Other participants	516,964 *	236,393 *

Nonvested Benefits	2,669	—
Total actuarial present value of accumulated plan benefits	<u>\$ 1,239,128</u>	<u>\$ 435,880</u>

* Includes accumulated participant contributions, including interest, for active employees of \$4,233,000 and \$4,751,000 at December 31, 2014 and 2013, respectively.

5. Fair Value Measurements

The fair value accounting guidance requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities that the plan has the ability to access.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data such as quoted prices, interest rates and yield curves.

Level 3: Inputs are unobservable data points that are not corroborated by market data.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

As of December 31, 2014 and 2013, all investments of the Plan are measured at fair value using the net asset value per share (or its equivalent) practical expedient, which the Plan adopted effective January 2014. See Note 2 for additional information.

Valuation of Investments

The Plan's investments are presented at fair value, which has been determined as follows:

- Collective trust funds are valued based on net asset value at year end.
- Private equity funds and alternative investments where quoted prices are not available may be valued at estimated fair value based on audited financial statements, capital balances reported by the advisor and, a percentage of the total partner's equity, as reported by the managers of the private equity funds, commensurate with the Plan's percentage of invested capital in the fund and, if applicable, other fair value considerations.
- Investments in pooled separate accounts are stated at fair value based on each underlying fund's net asset value.

There were no changes in valuation techniques during 2014 or 2013.

Thermo Fisher Scientific Inc. Retirement Plan
Notes to Financial Statements

The table below presents the fair value measurements at December 31, 2014 and 2013 of plan assets that calculate and provide the Plan with a net asset value per share (or its equivalent).

(In thousands)	Fair Value as of		Redemption Frequency	Redemption Notice Period

	\$ 1,049,455	\$ 375,301		

(a) Primarily fixed income

The Plan had funding commitments totaling \$579,000 and \$857,000 at December 31, 2014 and 2013, respectively, related to its investments in private equity funds.

The Plan receives distributions from its private equity funds and alternative investments as those funds' assets are liquidated. The duration of the funds vary by investment, with the longest ending in 2016.

6. Information Certified by the Trustee and Asset Custodian

The following is a summary of the investment information regarding the Plan as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included in the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by Mellon, the trustee of the Plan, and Principal, the asset custodian of the Plan's pooled separate accounts, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee and asset custodian of the pooled separate accounts that such information is complete and accurate.

(In thousands)	2014	2013
Statement of Net Assets Available for Benefits		
Investment in collective trust funds	\$ 1,018,503	\$ 342,509

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan in certain circumstances to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

8. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by letter, dated August 12, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since the date of the determination letter. However, the plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. Related Party Transactions

Certain investments of the Plan are managed by Mellon and Principal. Mellon and Principal are the trustee of the Plan and the asset custodian of the Plan's pooled separate accounts, respectively; therefore, these transactions and expenses qualify as party-in-interest transactions. In addition, certain Plan investments are interests in common collective trusts managed by AON Hewitt Group Trust, an affiliate of AON Hewitt, the actuary of the Plan. Therefore, transactions in these investments also qualify as party-in-interest transactions.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 is age 62. This is based on a weighting of the Hamilton Union, Apogent RSP, Barnstead, and Chase, and the rest of the active participant populations. The average retirement age for each of the populations has been calculated according to the following tables and assuming no decrements other than retirement for the calculations. All retirements are assumed to occur at beginning of the year.

Definitions (continued)

Cash Balance Account

Cash Balance Accounts were initially established as of date of cash balance participation (generally effective June 30, 1997) as the present value of accrued benefits (with enhancements for certain participants based on their age, service, and prior plan participation). Cash Balance Accounts increase with Contribution and Interest Credits.

Fairlawn union employees as of July 11, 1997 could elect to participate effective July 12, 1997, with future hires automatically participating.

Morris Plains union employees participate effective June 29, 1998.

Indiana, Pennsylvania union employees as of July 10, 1998 could elect to participate effective July 27, 1998, with future hires automatically participating.

Hamilton Machinists union employees could elect to participate effective January 1, 2000. A second election was offered effective January 1, 2003, with employees hired after 2002 automatically participating. Hamilton Machinists union employees electing to participate in the cash balance plan are also eligible for the \$100 monthly annuity supplement described under the Fisher Hamilton provisions.

Contribution Credits

3.50% of participant's compensation, including overtime, commissions, and bonuses. Frozen effective December 31, 2005 for non-collectively bargained employees, March 2, 2006 for Epoxyn decertified union employees, March 31, 2006 for Fair Lawn union employees, April 21, 2006 for Epoxyn union employees, and April 30, 2009 for Hamilton Machinists union employees.

Hamilton Machinists who, as of October 1, 2002, were both actively employed and had at least 20 years of service (a closed group), receive an additional cash balance credit of \$50 in each month for which a Contribution Credit was received between October 1, 2002 and September 30, 2005.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

The actuarial valuation was conducted on an ongoing (not termination) basis using personnel data furnished as of January 1, 2014 by Atessa Benefits, Inc. and Q&F Benefit Administration, Inc. Asset information and the dates and amounts of contributions are based on information supplied by Thermo Fisher Scientific Inc.

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Effective December 31, 2014, The Employee Pension Plan of Applied Biosystems Inc. and the Life Technologies Pension Plan were merged into the Fisher Scientific International Inc. Retirement Plan, with no changes in plan provisions. Since the Plans were merged as of the last day of the 2014 plan year, there was no impact on the 2014 plan year funding requirements.

During 2014, a lump sum window was offered to participants (excluding participants in the cash balance and Chase components, who already were able to take a lump sum at any time) who had terminated prior to 2014 and had not yet commenced benefits as of April 8, 2014 (excluding alternate payees, participants with QDROs, and surviving spouses). The election period ran from September 2 through October 31, with lump sum payments made as of December 1 or as soon thereafter as administratively practicable. Lump sums were determined based on IRC Section 417(e) interest and mortality assumptions. This will be reflected in the 2015 plan year funding results.
