Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Xylem Goulds Pumps Retirement and Investment Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Great-West Financial Retirement Plan Services, LLC (Agent), as agent for JPMorgan Chase Bank, N.A. (Custodian), as of and for the year ended December 31, 2014, and by the Custodian as of and for the period ending December 31, 2013, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Agent on behalf of the Custodian as of and for the year ended December 31, 2014 and the Custodian as of and for the year ended December 31, 2013 that the information provided to the plan administrator by the Agent for the Custodian and the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Form 5500, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Agent of the Custodian and the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

XYLEM GOULDS PUMPS RETIREMENT SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following description of the Xylem Goulds Pumps Retirement Savings and Investment Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined contribution plan sponsored by Xylem Inc., ("Company" or "Plan Sponsor") covering the hourly employees of Xylem Water Systems U.S.A. LLC. ("Employer") who are members of the bargaining unit with a collective bargaining agreement that makes this Plan available to such members at specified locations as described by the Plan. JP Morgan Chase Bank, N.A. ("JP Morgan") is the trustee ("Trustee") and custodian of the Master Trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was established October 31, 2011 ("Effective Date"), with the spin-off from ITT Corporation ("ITT"), and the Company created The Xylem Inc. Retirement Savings Master Trust (the "Master Trust") to serve this and other Company savings plans.

Investments in the Master Trust at December 31, 2014, are shown on the Master Trust Schedule of Assets (Held at End of Year) as filed with the U.S. Department of Labor, Washington, D.C., under identification number 45-3304527. The Plan's proportionate share of the assets as of December 31, 2014 is also presented in that filing.

In the third quarter of 2014, JP Morgan sold its large market 401(k) recordkeeping business to Great-West Financial Retirement Plan Services, LLC ("Great-West") and Great-West became the Plan's recordkeeper. In the fourth quarter of 2014 Great-West re-branded to become Empower Retirement ("Empower").

Effective January 1, 2015, the Plan was amended to modify the matching employer contributions. See Employer Contributions below for details.

Eligibility - Any regular, full-time hourly person employed by the Employer on or after the Effective Date of the Plan, including individuals who are members of the bargaining unit with a collective bargaining agreement which makes this Plan available to them, other than Non-Benefit Employees, is eligible (an "Eligible Employee") to make participant contributions to the Plan. A "Non-Benefit Employee" means an individual who is engaged by the Employer to perform services for the Employer in a relationship that the Employer characterizes as other than an employment relationship or the individual has agreed is not an employment relationship. Members of the bargaining unit who are temporary or part-time employees are eligible upon completion of at least 1,000 hours of service in a 12 month period.

Eligible Employees may join the Plan as a Participant as of the first day of service with the Employer. All individuals who were participants in the ITT Goulds Pumps, Inc. Retirement Savings and Investment Plan as of October 30, 2011 while employees at ITT prior to the spin-off, were immediately Eligible Employees under the Plan as of the Effective Date.

Contributions - Under the provisions of the Plan document, allowable contributions are outlined as follows:

Participant Contributions - Participants can contribute on a before-tax basis, as permitted by the Internal Revenue Code ("IRC"), an amount from 1% to 25% of the participant's compensation, as defined by the Plan document. A participant who is a highly compensated employee may be limited to less than 25% due to certain limitations required under the IRC. A participant, who has attained the age of 50, may also elect to contribute additional before-tax catch-up contributions in accordance with and under the limitations of the IRC.

Employer Contributions - The Plan provides for matching contributions ("matching employer contributions") for employees to be invested in the same manner as participant contributions. Participants have the option of investing the matching employer contributions in any fund.

The Plan provides that the matching employer contributions for participants hired on or before August 4, 2014, to be 100% of the participant's before-tax contributions to the maximum annual amounts shown below:

<u>Effective Date</u>	<u>Maximum Annual Matching Contributions</u>
January 1, 2013	800
January 1, 2014	900
January 1, 2015	1,000

For participants hired after August 4, 2014, the matching contributions for the participants will be 50% of the first 6% of an Eligible Employee's before tax contributions up to a maximum of 3% annual compensation as defined in the Plan document.

Participant Accounts - Each participant's account is credited with the participant's contribution, the matching employer contribution, and an allocation of the Plan's investment earnings, forfeitures of matching employer contributions, and charged with the participant's withdrawals, loans, and an allocation of the Plan's investment losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments - Participants designate the Plan funds in which their contributions and the matching employer contributions are to be invested. All investments are participant-directed. Participant contributions can be invested in any or all of the various investment funds available in the Plan. Participants may elect to allocate contributions among these funds in multiples of one percent (1%) in the Plan. The Xylem Stock Fund within the Master Trust is not available to participants of the Plan.

Vesting - The participant's interest in their contributions is fully vested at all times. The Company contribution portion of the participant's account is vested based on their number of years of service. A year of service is any year in which the participant works 1,000 hours during a consecutive 12 month period starting from their date of hire or the anniversary of that date. With less than one year of service, the employee is 0% vested. With one year of service, the employee is 20% vested. With two years of service, the employee is 40% vested. With three years of service, the employee is 60% vested. With four years of service, the employee is 80% vested. With five or more years of service, the employee is 100% vested.

Benefits to Participants - Participants, or their surviving spouse beneficiary, are entitled to the full vested value of their accounts following employment termination (including death, disability, or retirement) in a lump sum amount paid in cash or as a rollover to another qualified plan. In lieu of a lump sum payment, the participant can elect annual installments, life expectancy installment payments, or partial distributions. In any case, a participant or his/her surviving spouse beneficiary whose vested account balance is more than \$3,500 may elect to keep his/her account balance in the Plan until the year in which the participant reaches or would have reached age 70½. Upon the death of a participant and there is a non-spouse beneficiary, the distribution must be made within five years from the participant's date of death in the form of a lump sum payment or annual fixed period installments, provided that the number of installments does not extend beyond five years from the date of a participant's death.

Participants are allowed to withdraw, at any time, any portion of after-tax participant contributions, and vested matching employer contributions, subject to Plan provisions.

Direct Rollover of Certain Distributions – With respect to an eligible rollover distribution, the participant may elect, at the time and in a manner as defined by the Plan document for such purpose, to have the Plan make a direct rollover of all or part of such withdrawal or distribution to an eligible retirement plan which accepts such rollover.

If a participant's account balance is greater than \$1,000 but does not exceed \$3,500 and the participant fails to make an affirmative election to either receive the lump sum payment or have it directly rolled over to another qualified plan within the election period, the account balance will be automatically rolled over to an Individual Retirement Account ("IRA") established in the participant's name.

If a participant's account balance is \$1,000 or less and the participant fails to make an affirmative election to either receive the lump sum payment or have it directly rolled over to another qualified plan or an IRA within the election period, the account balance will be automatically paid out to the participant.

Forfeitures - Forfeitures result from termination of employment before full vesting has occurred. Forfeitures of matching employer contributions are used to offset future matching employer contributions or administrative expenses of the Plan. Total forfeited non-vested accounts at December 31, 2014 and 2013 were \$1,789 and \$743, respectively. During the year ended December 31, 2014 there were no forfeited amounts used to reduce matching employer contributions.

Notes Receivable from Participants - Participants may borrow from their account balance in any whole dollar amount, which must be at a minimum of \$500 up to a maximum of the lesser of \$50,000 or 50% of the participant's vested interest in their account, reduced by the highest outstanding loan balance, if any, during the prior 12-month period. General purpose loan terms range from one to fifty-four months. If the loan is used in the purchase of a primary residence, the loan term can be for a period of up to one hundred-seventy-four months. Members may have up to two loans outstanding at the same time. The loans are secured by the balance in the participant's account and bear interest, which is based on the prime rate as published in the Wall Street Journal on the last business day of the prior quarter, plus 1%. Principal and interest are paid ratably through payroll deductions. The interest rate is determined at the time the loan is processed, and shall remain in effect for the term of the loan.

Administrative and Investment Management Expenses - Expenses reasonably expected to be incurred to administer the Plan, including the Plan's recordkeeping and trustee fees and loan origination fees associated with notes receivable from participants, are paid by the Employer.

The Plan Sponsor provides accounting and other administrative services to the Plan at no charge. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Investment management fees are charged to the Plan by the majority of the investment funds. These investment management fees are included in the net asset value ("NAV") of the fund calculated by the investment manager of the respective fund and are reflected by the Plan as a reduction of investment return for such investments.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties - The Plan holds an interest in various investments held within the Master Trust, including common stock, collective trusts and mutual funds (registered investment companies). Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair values of the investments will occur in the near term and that such change could materially affect the values of participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value except for its benefit-responsive stable value fund, which is stated at fair value and then adjusted to contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). A more detailed description of the types of investments held in the Master Trust and their valuation methods can be found in Note 3.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts - While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. The statement of changes in net assets available for benefits is presented on a contract value basis. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. See Note 6 for more information on the stable value funds which hold fully benefit-responsive investment contracts.

Contributions Receivable - The Plan accrues contributions receivable based upon payroll deferrals during the Plan year but not yet deposited.

Benefits Paid to Participants - Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of participants who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2014 and 2013. Additionally, for loans declared in default the principal and accrued interest are recorded as a distribution.

Notes Receivable from Participants - Participant loans are recorded at their unpaid principal balance, plus any accrued, but unpaid interest. In the event that a participant fails to make repayment for three consecutive months, the loan is considered to be in default. In the event default is declared, the outstanding loan balance and any accrued interest may be treated as a withdrawal prior to termination of employment subject to the withdrawal provisions outlined in the Plan document and may be determined to be a fully taxable distribution from the Plan.

New Accounting Standards - In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) ("ASU 2015-07"). ASU 2015-07 changes certain disclosure requirements for investments for which fair value is measured at NAV per share (or its equivalent) using the practical expedient including eliminating the requirement to classify these investments within the fair value hierarchy. The new guidance is effective for public entities' reporting periods beginning after December 15, 2015 and early adoption is permitted. The Plan did not early adopt this guidance. The adoption will not have a material effect on the Plan's statements of net assets available for benefits or the statement of changes in net assets available for benefits. The Plan is currently evaluating the impact of the ASU 2015-07 on the disclosures in the financial statements.

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Health and Welfare Benefit Plans, which (1) requires an employee benefit plan to use contract value as the only measurement amount for fully benefit-responsive investment contracts, (2) simplifies and increases the effectiveness of plan investment disclosure requirements for employee benefit plans, and (3) provides employee benefit plans with a measurement-date practical expedient. The new guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The Plan did not early adopt this guidance. The Plan is currently evaluating the impact of the ASU 2015-12 on the financial statements and related notes to the financial statements.

Note 3. Fair Value Measurement

The Plan determines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. The Plan uses a hierarchical structure to prioritize the inputs to valuation techniques used to measure fair value into three broad levels. The three levels of inputs within the fair value hierarchy are identified as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access as of the measurement date.

Level 2 - Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period. There were no significant transfers between levels during 2014 and 2013.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments:

- **Equities and Other Common Shares** - Common and preferred stock are valued at the closing price reported on the major market on which the individual securities are traded on the measurement date. The Xylem Stock Fund invests primarily in the Company's common stock, which is traded on the New York Stock Exchange ("NYSE") under the ticker symbol XYL. The money market fund portion of the Xylem Stock Fund provides liquidity, which enables the Plan participants to transfer money daily among all investment choices. The JP Morgan Prime Money Market Fund is listed under the symbol JXCXX. These securities are classified within Level 1 of the fair value hierarchy.
- **Mutual Funds** - Mutual funds of registered investment companies are publicly traded in active markets and valued at the closing price reported on those major markets on the measurement date. Generally, fair value is measured at NAV. Mutual funds are classified within Level 1 of the fair value hierarchy.
- **Collective Trusts ("CTs")** - CTs are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income or other investment objectives. CTs invest in debt and equity securities, the mix of which varies by fund. CTs are valued using the NAV provided by the administrators of the CTs. There are no unfunded commitments related to the CTs and investments in CTs can be redeemed on a daily basis. CTs are classified in Level 2 of the fair value hierarchy.

While the Plan administrator believes that the valuation methods are appropriate and consistent with how other participants in the market value these types of investments, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The following table sets forth by level within the fair value hierarchy a summary of the Master Trust investments measured at fair value at December 31, 2014.

* The fair values of the Level 2 investments have been estimated using the NAV of the investment. These investments have a daily redemption frequency, no unfunded commitments, no redemption notice period and no other redemption restrictions.

- (a) The Asset Allocation Funds are JPMCB target date retirement funds, made up of multiple asset classes with observable inputs including a combination of equity, fixed income, real estate and short-term investment vehicles. The funds are meant to align with an expected retirement date. The investment allocation within each fund will likely change over time in order to maintain optimal portfolio construction. The funds will become increasingly more conservative as the target retirement date approaches.
- (b) The JP Morgan Stable Asset Income Fund seeks to preserve the value of money invested, perform better than the average money market fund and earn consistent reliable returns. The fund invests in a variety of high quality, interest-paying securities offered with a companion investment contract called a "benefit responsive wrap".
- (c) The JP Morgan U.S. Smart Index Fund seeks to provide capital appreciation from a portfolio of large-company U.S. stocks. The fund is comprised of 250-400 large-cap stocks from the S&P 500 Index and offers the benefits of active investment management while maintaining a risk profile similar to that of the S&P 500 Index. The fund excludes stocks in the S&P 500 Index that research shows are most likely to underperform and diversifies across industry sectors to help minimize market volatility.

Note 4. Information Certified by the Trustee

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements as of December 31, 2014 and 2013, and for the year ended December 31, 2014, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator (as defined by the Plan document) and certified as complete and accurate by the Trustee. This information has not been audited by independent accountants.

Note 5. Master Trust - Unaudited

All of the Plan investments consist of an interest in an investment account of the Master Trust established by the Company and administered by JP Morgan as of December 31, 2014 and 2013. Use of the Master Trust permits the commingling of trust assets with the assets of certain other Company savings plans for investment and administrative purposes. Although assets of participating plans are commingled in the Master Trust, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans are maintained. The net assets of the Master Trust are allocated based on individual participant account balances in the respective plans. The daily net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. There were no investment assets held outside the Master Trust at December 31, 2014 and 2013.

The following table presents the fair value of investments in the Master Trust at December 31, 2014 and 2013:

	2014	2013

Note 6. Stable Asset Income Fund

The Master Trust is invested in the JP Morgan JPMCB Stable Asset Income Fund ("SAIF"). The SAIF is a collective trust fund that is considered to be a stable value fund with underlying investments in investment contracts, bonds and debt instruments and is valued at fair value and then adjusted by the issuer to contract value. Fair value of the SAIF is determined by its NAV, after adjusting all underlying investments in fully benefit-responsive investment contracts to fair value. The NAV of the SAIF reflects the contract values of the

underlying investments in fully benefit-responsive investment contracts. Individual participant accounts invested in the stable value funds are maintained on a unit value basis. Participants do not have beneficial ownership in specific underlying securities or other assets in the various funds, but have an interest therein represented by units valued as of the last business day of the period. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the stable value funds, plus earnings, less participant withdrawals and administrative expenses.

The SAIF is primarily comprised of investment contracts called benefit responsive wraps ("wrap contracts") that are issued by banks and insurance companies. The wrap contracts help to stabilize the value and returns of the SAIF. These contracts are backed by fixed income portfolios that primarily consist of U.S. Treasury, Agency, Investment Grade Corporate, Mortgage-Backed and Asset-Backed Securities. The SAIF's primary objective is to seek to provide capital preservation, liquidity and current income at levels that are typically higher than those provided by money market funds. The SAIF also invests in other collective investment trust funds and a separate account established, operated and maintained by the Trustee and other third party advisers. The investment objectives of these underlying investment vehicles are as follows:

- The Commingled Pension Trust Fund (Intermediate Bond) of JP Morgan seeks to generate positive total returns over a 1-3 year horizon with consistent income.
- The Commingled Pension Trust Fund (Liquidity) of JP Morgan seeks to preserve principal, provide liquidity, generate current income and maintain a stable net asset value of \$1.00 per unit by investing in a portfolio of high quality, short-term investments.
- MetLife Separate Account is maintained to provide long-term total return in excess of the Barclays U.S. Intermediate Aggregate Bond Index.

The SAIF imposes certain restrictions on the Plan, and the SAIF itself may be subject to circumstances that affect its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the SAIF to transact at less than contract value is not probable.

Note 7. Exempt Party-In-Interest Transactions

ERISA section 406(a) prohibits various types of transactions between a plan and parties in interest. Parties in interest are defined by the Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. ERISA section 408(a) contains specific exemptions whereby plans may engage in certain transactions with parties in interest that are otherwise prohibited by law. JP Morgan remained the Trustee and custodian for 2014 as defined by the Plan document. As of December 31, 2014, approximately 78% of Plan investments are funds managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions. Other exempt party in interest transactions that are applicable to the Plan are as follows:

- JP Morgan and Empower, as recordkeepers received shareholder servicing fees from mutual fund and collective trust fund service providers for services provided to the Plan participants. These fees were used to offset certain amounts owed to JP Morgan and Empower for their administrative services to the Plan.
- Notes receivable from participants also qualify as exempt party-in-interest transactions and amounted to \$740,227 and \$886,914 at December 31, 2014 and 2013, respectively.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions set forth in ERISA. If the Plan is terminated for any reason, all accounts shall become fully vested and non-forfeitable.

Note 9. Federal Income Tax Status

The Plan became effective October 31, 2011, and a request for an Internal Revenue Service (IRS) determination letter that the Plan and related trust are designed in accordance with the applicable sections of the IRC has not been filed. The regular cycle for the Plan to file for a determination letter is February 1, 2015 to January 31, 2016. However, the Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and the related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods since the Plan became effective.

Note 10. Subsequent Events

The Company has evaluated subsequent events for recognition and disclosure through September 24, 2015, which is the date the financial statements were available to be issued. No significant events were noted except for the matter disclosed below.

Effective March 1, 2015, the Plan's trust agreement was amended to reflect a change in Trustee from JP Morgan to Great-West Trust Company, LLC ("GWTC"). GWTC serves as the custodian for the Plan's assets with the exception of the Xylem Stock Fund, which remains with JP Morgan.

Note 11. Reconciliation of Financial Statements to Form 5500
