Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Xylem Standard Hourly Bargaining Unit Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and 2013 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

XYLEM STANDARD HOURLY BARGAINING UNIT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following description of the Xylem Standard Hourly Bargaining Unit Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General - The Plan is a defined benefit pension plan covering the hourly employees of United Steelworkers, AFL-CIO-CLC and its Local Union 897 at the Cheektowaga, New York location of Fluid Handling, LLC ("Employer"), a subsidiary of Xylem Inc. (the "Company" or "Plan Sponsor"). The Benefits Administration Committee ("Plan Administrator"), as appointed by the Board of Directors of the Company, controls and manages the operation and administration of the Plan, while the Pension Fund Trust and Investment Committee directs the managers of the Plan's investments. The Northern Trust Company ("the Trustee") serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was established June 6, 1986 by ITT Corporation as the ITT Standard Hourly Bargaining Unit Pension Plan. Effective October 31, 2011, as part of the spin-off from ITT Corporation, sponsorship of the Plan was transferred to the Company. Effective January 1, 2012, the Plan was renamed Xylem Standard Hourly Bargaining Unit Pension Plan.

The Plan's assets include an undivided interest in an investment account of the Investment Master Trust of Xylem Inc. ("Master Trust"), EIN 37-6491099, as of and for the years ended December 31, 2014 and 2013. The Master Trust includes the combined assets of the Plan as well as several other employee benefit plans sponsored by the Company and its subsidiaries (collectively the "Participating Plans").

Use of the Master Trust permits the commingling of Plan assets with the assets of other Participating Plans for investment and administrative purposes. Although Plan assets are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net income or losses of the Master Trust to the Participating Plans. The net investment income or losses of the investment account is allocated by the Trustee to each Participating Plan based on the relationship of the interest of each Participating Plan to the total of the interests of the Participating Plans. A schedule of Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan's proportionate share of such assets at December 31, 2014 and 2013.

During October 2013, the Plan Sponsor approved a plan amendment to modify the benefit formula. See Pension Benefits below for further details.

Eligibility - All Fluid Handling, LLC hourly employees represented by United Steelworkers, AFL-CIO-CLC and its Local Union 897 at the Cheektowaga, New York facility participate in the Plan from their date of hire.

Contributions - Contributions to provide benefits under the Plan are made solely by the Company, and charged to the Employer. See Note 5 for the Company's funding policy.

Pension Benefits - Participants are eligible for monthly benefit payments upon reaching age 65. A participant is 100% vested after five years of service. Prior to that time, the participant is not vested. New entrants continue to be permitted into the Plan.

A plan amendment was approved during October 2013. For those participants that were hired on or before October 17, 1993, the amendment calls for a freeze effective January 1, 2014, of all benefits earned with respect to service to December 31, 2013. Beginning January 1, 2014, participants will accrue a pension

benefit at a benefit rate per month multiplied by their years of credited service after December 31, 2013. Prior to the amendment, their benefit was computed as the greater of 1) an amount equal to 1% of average monthly earnings multiplied by the number of years of credited service, or 2) a benefit rate per month multiplied by their years of credited service.

For those participants hired after October 17, 1993, their benefit continues to be computed at a benefit rate per month multiplied by their years of credited service.

Participants are eligible to receive early retirement benefits between the ages of 55 and 65, upon completion of ten years of credited service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date.

Death and Disability Benefits - A married participant who is a vested participant is automatically covered by the pre-retirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the spouse would have received had the participant retired on the date of death, computed under the normal form of payment and subject to certain limitations as outlined in the Plan document.

A participant who has completed 10 years of continuous service and who becomes totally and permanently disabled is eligible to receive a disability retirement benefit. The amount of the benefit is computed as it would be for normal retirement based on the participant's years of credited service as of the date of disability, but not less than \$275 per month. The benefit must be reduced prior to normal retirement by any Company-provided public disability benefit awarded to the participant.

Administrative and Investment Management Expenses - Administrative expenses of the Plan, including actuarial services, audit fees and regulatory fees are paid by the Master Trust on behalf of the Plan, as provided in the Plan document and the Master Trust agreement. Certain accounting and other administrative services are provided to the Plan and Master Trust at no charge. These services are performed by employees of the Company or Employer and no such employee receives compensation from the Plan.

Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income or losses reported by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties - The Plan's interest in the Master Trust includes investments in mutual funds, exchange traded notes, collective trusts and limited partnerships. Investments, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk, and overall market volatility. Due to the level of risk associated with certain Plan investments, it is at least reasonably possible that changes in the values of certain Plan investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least

reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment Valuation and Income Recognition - The Plan's interest in the Master Trust is reported at fair value which has been determined based on the fair value of the underlying investments of the Master Trust. A more detailed description of the individual types of investments can be found in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Note 3. Investments - Unaudited Information

The Northern Trust Company, Trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments included in the financial statements has been certified as complete and accurate by them. This information has not been audited by independent accountants.

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits.

	2014	2013
Investments at fair value:		
Interest in the Investment Master Trust of Xylem Inc.	\$ 17,859,116	\$ 17,113,460

During 2014 and 2013, the Plan's net investment income in the Master Trust (including gains and losses on investments bought and sold, as well as held during the year and interest and dividend income) was \$796,305 and \$1,924,479, respectively.

Note 4. Fair Value Measurement

The Plan determines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Plan uses a hierarchical structure to prioritize the inputs to valuation techniques used to measure fair value into three broad levels. The three levels of inputs within the fair value hierarchy are identified as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access as of the measurement date.

Level 2 - Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period. There were no significant transfers between Level 1 and Level 2 during 2014 and 2013.

The fair value of the Plan's interest in the Master Trust reflects the Plan's interest in the fair value of the underlying net assets of the Master Trust. The following descriptions of the valuation methodologies and

assumptions are used by the Plan to estimate the fair values of investments held as underlying investments of the Master Trust:

- *Cash and Other* - Cash investments are money market commingled trust vehicles which are valued by Net Asset Value ("NAV"), and are classified within Level 1 of the fair value hierarchy.
- *Mutual Funds* - Mutual funds are publicly traded in active markets and valued at the closing price reported on those major markets on the measurement date. Generally, fair value is measured at NAV. Mutual funds are classified within Level 1 of the fair value hierarchy.
- *Exchange Traded Notes ("ETNs")* - ETNs are senior, unsecured, unsubordinated debt securities issued by an underwriting bank. ETNs have a maturity date and are backed only by the creditor of the issuer. Returns of ETNs are usually linked to the performance of a market benchmark or strategy. ETNs are valued at the closing price reported in the exchange in which the ETNs are traded. ETNs are classified within Level 1 of the fair value hierarchy.
- *Collective Trusts ("CTs")* - CTs are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income or other investment objectives. CTs invest in debt and equity securities, the mix of which varies by fund. CTs are valued using the NAV provided by the administrators of the CTs. There are no unfunded commitments related to the CTs and investments in CTs can be redeemed on a daily basis. CTs are classified within Level 2 of the fair value hierarchy.
- *Limited Partnerships* - A Limited Partner is the investor in the fund that does not take on more risk than the amount of their initial investment in the fund. The Limited Partners have limited liability in the partnership structure while General Partners, who have management control over the fund, are liable for the debt obligations. The fair value of the Limited Partnerships is based on information from the fund manager which reflects the Plan's share of the fair value of the net assets. The investments are valued using quoted market prices of the underlying holdings or those of securities with similar characteristics furnished by the Limited Partnerships' prime broker(s), market makers and/or independent third party pricing services. Limited Partnerships are classified within Level 2 of the fair value hierarchy.

While the Plan Administrator believes that the valuation methods are appropriate and consistent with how other participants in the market value these type of investments, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

The following table sets forth by level within the fair value hierarchy a summary of the Master Trust investments measured at fair value at December 31, 2014:

- * For the Master Trust's investments at December 31, 2014 and 2013 where fair value is estimated based on NAV, the redemption notice period is trade date plus one day, the redemption frequency is daily, except as noted below, and there are no unfunded commitments.
- a) The primary objective of the Northern Trust EAFE Index Fund is to approximate the risk and return characterized by the Morgan Stanley Europe, Australasia, and Far East (MSCI EAFE) Index. This index is commonly used to represent the non U.S. equity markets. The fund may make limited use of futures and/or options for the purpose of maintaining equity exposure.
 - b) The primary objective of the Northern Trust TIPS Index Fund is to hold a portfolio representative of the Treasury inflation-protected securities ("TIPS") sector of the United States bond and debt market, as characterized by the Barclays U.S. TIPS Index.
 - c) The primary objective of the Northern Trust Long-Term Govt Bond Index Fund is to hold a portfolio representative of the U.S. Long-Term Government Bond sector of the United States bond and debt market, as characterized by the Barclays U.S. Long-Term Government Bond Index.
 - d) The primary objective of the Northern Trust Russell 1000 Index Fund is to approximate the risk and return characterized by the Russell 1000 Index. This index is commonly used to represent large cap U.S. equities.
 - e) The primary objective of the Highclere International Investors SMID Fund is to invest in high-quality securities purchased at a reasonable price in the small and mid cap international equity universe. The fund purchases companies with upside potential of 50% over 2-3 years. The fund has a 10 day notice requirement for redemption and an anti-dilution charge estimated to be between 45 and 90 basis points.

- f) The primary objective of the MacKay Shields High Yield Active Core Fund is to invest primarily in U.S. below-investment grade corporate debt (high yield bonds) and add value by avoiding "uncompensated risk"; the product aims to avoid the "losers" while restraining itself from chasing the supposed "winners" in an up market. The fund has a 30 day notice requirement for redemption.

Note 5. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company, and charged to the Employer. Funding requirements under Internal Revenue Service ("IRS") rules are a major consideration in making contributions to the Plan. The Company's funding policy is to make cash contributions to the Plan not less than the minimum required by applicable law and regulations. While the Company has significant discretion in making voluntary contributions, ERISA, including subsequent amendments, and applicable Internal Revenue Code ("IRC") regulations mandate minimum funding thresholds. The Company continually monitors the funded status and minimum funding requirements.

Interest, dividends and cumulative net appreciation (depreciation) of investments of the Plan serve to reduce future contributions that would otherwise be required to provide for the defined level of benefits as outlined in the Plan document. The Company's contributions are adjusted to reflect differences between actual contributions in prior years and the amounts required under the Company's current funding policy to meet the minimum funding requirements of ERISA. The Company met the minimum funding requirements for the years ended December 31, 2014 and 2013.

Note 6. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by participants as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated participants, (2) beneficiaries of participants who have died, and (3) present participants or their beneficiaries. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2013 is as follows:

Vested accumulated plan benefits:

Retired participants and/or beneficiaries currently receiving benefits	\$ 8,603,830
Other participants	6,990,712
Total vested accumulated plan benefits	<u>15,594,542</u>

Nonvested accumulated plan benefits	805,610
Total actuarial present value of accumulated plan benefits	<u><u>\$ 16,400,152</u></u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2013, are as follows:

Actuarial present value of accumulated plan benefits - December 31, 2012	\$ 15,259,776
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	338,861
Benefits paid	(976,664)
Interest	1,182,467
Plan changes	61,073
Assumption changes	534,639
Actuarial present value of accumulated plan benefits - December 31, 2013	<u>\$ 16,400,152</u>

The significant actuarial assumptions used in the December 31, 2013 valuations were:

- **Mortality:** The mortality assumption was updated to the Blue Collar version of the RP-2014 Total Dataset Employee version pre-commencement and Healthy Annuitant post-commencement Mortality Table projected on a generational basis with Scale MP-2014 as published by the Society of Actuaries in November, 2014. The RP-2014 Disabled Retiree mortality table projected on a generational basis with Scale MP-2014 as published by the Society of Actuaries in October, 2014 was used for the period after disability. This replaced the projection specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis and a special mortality table for the period after disability.
- **Retirement age:** Retirement rates from 2.03% at age 55 to 100.00% at age 70.
- **Long-term rate of return** was 8.0% per annum.

The increase to the actuarial present value of accumulated plan benefits due to assumption changes was largely attributed to the change in the mortality table.

Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, early retirement and disability.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 7. Interest in Master Trust - Unaudited

The following table presents the Plan's interest in investments of the Master Trust at December 31, 2014 and 2013:

Note 8. Exempt Party-In-Interest Transactions

Parties in interest are defined by Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Amounts paid by the Plan to parties in interest included fees paid for investment management, actuarial services and other professional and regulatory fees. Certain professional fees for the administration of the Plan were paid by the Company. The Master Trust holds a portion of its investments in collective trusts managed by the Trustee of the Plan and Master Trust. These assets and related transactions qualify as exempt party-in-interest transactions.

These transactions are not deemed prohibited party-in-interest transactions because they are covered by statutory or administrative exemptions from the IRC and ERISA rules on prohibited transactions.

Note 9. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 10. Federal Income Tax Status

The IRS has determined and informed the Company by a letter dated February 10, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Company believes that the Plan is designed and is

currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2011.

Note 11. Subsequent Events

The Plan Administrator has evaluated subsequent events for recognition and disclosure through August 18, 2015, which is the date the financial statements were available to be issued. No significant events were noted.

Mortality

Non-annuitants and healthy annuitants:

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, using the blended annuitant/non-annuitant table applicable to small plans.

Disabled annuitants:

Revenue Ruling 96-7 disabled mortality table for males and females.

Actuarial cost method

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA.

Expenses

Expected plan related expenses of \$136,191 were added to Target Normal Cost.

Frequency of optional payment forms

70% of future retirees and terminations are assumed to take a life annuity. Those future retirees who are assumed not to take a life annuity are assumed to take a Joint and Survivor 50%, 75%, or 100% Option with equal probability. Those terminations who are assumed not to take a life annuity are assumed to take a Joint and Survivor 50% or 75% Option with equal probability.

Marital percentage

85% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2014 Expected Return	8.00%	6.99%	6.99%
2013 Expected Return	8.00%	6.76%	6.76%
2012 Expected Return	8.00%	7.52%	7.52%

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
