STEEL MASTERS, LP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF PLAN

The following description of the Steel Masters, LP 401(K) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Steel Masters, LP who have 90 days of service. The Plan became effective May 1, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Benefits under the Plan are provided by a trust fund. All assets in the Plan are subject to participant investment directions.

Contributions - Each year, participants may contribute up to the maximum percentage allowable of their pretax annual income, subject to the limits set by the Internal Revenue Code. Steel Masters, LP may make discretionary matching contributions in addition to any safe harbor matching contribution. The maximum discretionary matching contribution that can be made on behalf of any participant is 4% of compensation.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Steel Masters, LP's safe harbor and discretionary matching contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' invested amounts, and (d) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures - The participants contributions and Steel Masters, LP's safe harbor contribution are 100% vested. Vesting in Steel Masters, LP's discretionary matching contribution portion of a participant's accounts is based on years of service at 20% per plan year after two years of service. A participant is 100% vested in the Steel Masters, LP's discretionary matching contributions after six years of service. A year of service is defined as completing at least 1,000 hours of service during the Plan year. Forfeitures of matching contributions will be used to reduce Steel Masters, LP's matching contributions.

Payment of Benefits - On termination of service, participants may elect to have his or her vested account distributed in one lump sum or as specified in the plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The most critical estimate is the fair value of the investments.

NOTE B - CONTINUED

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Shares of mutual funds with American Funds and other mutual funds are valued at quoted market prices which represent the net asset value held by the Plan at the end of its fiscal year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the accrual basis as recognized by the different portfolios managed by American Funds.

Participant loans - Participants may borrow from the Plan. The loan amount is limited the lesser of (1) $50,000 (less any outstanding loans) with a minimum of $1,000 or (2) 50% of their vested interest in the Plan. The loans are secured by the balance in the participant account and bear interest at 4.25%. Principal and interest are paid ratably through payroll deductions. These loans are considered to be fully collectible; accordingly, an allowance for doubtful amounts has not been established.

Payment of Benefits - Benefits are recorded when paid.

Date of Management Review - Subsequent events were evaluated through October 9, 2015 , which is the date the financial statements were available to be issued. Based on the results of the evaluation, no adjustments or additional disclosures have been made to the financial statements.

NOTE C - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The financial statements reflect the adoption of the fair value measurements established by the Accounting Standards Codification (ASC) Section 820. ASC Sec 820 establishes a single authoritative definition of fair value, sets a framework for measuring fair value and requires additional disclosures about fair value measurement. In accordance with ASC Sec 820, the Plan classifies its investments into Level 1, which refers to securities traded in an active market; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available or Level 1 securities where there is a contractual restriction; and Level 3, which refers to securities not traded in an active market and for which no significant observable market inputs are available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE C - CONTINUED

The following table provides further details of the fair value measurements.

NOTE E - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013.

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as investments held at year end) appreciated in value by $32,835 and $266,551, respectively.

NOTE F - TAX STATUS

The Plan is based on the Alliance Benefit Group Of Houston, Inc. Prototype Non-Standardized 401(k) Profit Sharing Plan and Trust. During 2001 the Internal Revenue Service determined and informed the sponsor that the master plan is acceptable and in accordance with section 401 of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designated and is currently being operated in compliance with the applicable requirements of the Internal Revenue code and therefore believes the Plan is qualified and the the related trust is tax-exempt.

NOTE F - TAX STATUS-CONTINUED

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and the Department of Labor. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE H—RELATED PARTY TRANSACTIONS

At December 31, 2014, the Plan includes a prior year accrual for excess contributions amounting to $14,400 for contributions made in excess of amounts allowed by the Internal Revenue Service. The Plan intends to repay the participants in 2015.

NOTE H—RELATED PARTY TRANSACTIONS-CONTINUED

Certain Plan investments are shares of mutual funds that are associated with CBTC. CBTC is the trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. No fees were paid for investment management services for the year ending December 31, 2014.

During 2014 and 2013, Steel Masters, LP paid certain expenses associated with the Plan's operations. This includes the the cost of the limited scope audit and third party administration fees. These fees were approximately $9,800 and $10,200, respectively.

NOTE I—PROHIBITED TRANSACTIONS

The Plan failed to remit to the Plan's trustees certain employee contributions totaling $6,310 within the period prescribed by the Department of Labor. This amount included $1,572 of loan repayments. The amounts have been paid to the Trustee.

NOTE J—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
