NETJETS, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(1) Plan Description

The following description of the NetJets, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan designed to offer employees of NetJets, Inc. and Subsidiaries (collectively, the Company) the opportunity to participate in a savings and investment program. Participants must be 21 years or older, be regular non-union, salaried or hourly employees and have completed at least three months of service with the Company. Subject to certain restrictions, the Plan allows for the withdrawal of vested funds during a participant's active career. The Company makes additional contributions to participants' accounts as participants contribute to the Plan and the Company's contributions are subject to forfeiture provisions as described in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year participants are allowed maximum contributions up to 80% of earned compensation as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers). Rollover contributions are not eligible for the employer match. Contributions are subject to certain limitations.

During 2014 and 2013, the Company's matching contribution was equal to 50% of each participant's contribution up to 15% of earned compensation. In addition, subsequent to the Plan's year-end, the Company matched 50% of each participant's contribution in excess of 15% of earned compensation, ultimately giving participants in the Plan a full 50% match on all contributions made to the Plan up to the Internal Revenue Service (IRS) maximum for the year.

Participants direct the investments of their contributions and employer contributions into various investment options offered by the Plan. The Plan offered 40 and 44 core investment options in 2014 and 2013, respectively. There is an option to open a self-directed brokerage account, Personal Choice Retirement Account (PCRA), to invest in additional mutual funds. The PCRA has no establishment or annual maintenance fee.

(c) Participant Accounts

Each participant's account is comprised of the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings and, if applicable, charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

December 31, 2014 and 2013

(1) Plan Description (continued)

(d) Vesting

Participant contributions, plus actual earnings thereon, are 100% vested at all times. Employer contributions made to a participant's account become vested in accordance with the following vesting schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Earlier vesting may occur upon: (1) participant attainment of age 65 (or early retirement age of 55, given five years of service), (2) death or (3) total disability. Under the plan document, forfeitures of employer contributions resulting from termination are used to reduce future employer matching contributions.

(e) Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balance or \$50,000, whichever is less, subject to a minimum amount of \$1,000. Participants may only have one outstanding note at any time. Notes receivable terms shall not exceed five years, except for the purchase of a principal residence, in which case notes receivable terms are to be determined by the Company, not to exceed 10 years. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the plan administrator, plus 1.00%. The interest rate ranges from 4.25% to 6.00% for all notes receivable outstanding at December 31, 2014 and 2013. Principal and interest are paid ratably through payroll deductions.

(f) Payment of Benefits

Participant contributions may not be withdrawn from the Plan prior to termination of the participant's employment with the Company, unless the participant has either attained age 59½ or is able to demonstrate financial hardship, as defined in the plan document. Company contributions may be withdrawn, subject to specified limitations. The Plan also provides for distributions upon retirement, death or total disability, subject to specified conditions. Generally, distributions are made in lump sum, annuity or equal annual installments.

(g) Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$69,038 and \$7,533, respectively. These accounts are used to reduce employer contributions. For the year ended December 31, 2014, employer contributions were reduced by \$429,146, including \$6,782, which was used to reduce the 2014 employer contribution receivable. For the year ended December 31, 2013, employer contributions were reduced by \$460,545, including \$5,928 which was used to reduce the 2013 employer contribution receivable.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract through a common collective trust. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Contributions

Participant contributions are recognized when due through salary withholding. Employer matching contributions are recognized at the time the related employee contributions are recognized.

(2) Summary of Significant Accounting Policies (continued)

(d) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All investments are participant directed.

Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date. The capital gain distributions of the Plan's investments are reinvested within such funds and serve to increase the cost basis of the Plan's investments. Purchases and sales of securities are recorded on a trade-date basis.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded as soon as the participant's account is distributable.

(f) Distributions

Distributions are recognized when paid.

(g) Trustee and Administrative Fees

The Plan routinely incurs expenses for the services of actuaries, accountants, lawyers, third party administrators, and other advisors. Some of these expenses may be paid directly by the Company while other expenses may be paid from the assets of the Plan. Other administrative fees directly related to notes receivable from participants and redemption fees are paid by the participants.

(h) Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2015-12, *Amendments to Plan Accounting*, under Topics 960, 962, and 965. The ASU affects fully benefit-responsive investment contracts and plan investment disclosures. The ASU designates contract value as the only required measure for fully benefit-responsive investment contracts. Contract value is considered relevant because that is the amount at which plan participants would transact. The ASU eliminates the measurement and presentation of fair value disclosures for fully benefit-responsive investment contracts. The ASU also eliminates the requirement for an entity to disclose: (i) individual investments that represent 5% or more of net assets available for benefits; (ii) the net appreciation or depreciation for investments by general type; and (iii) investment information disaggregated based on nature, characteristics and risks under Topic 820. Under the ASU, net appreciation or depreciation in fair value of investments for

the period is now required to be presented only in the aggregate. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted and should be applied retrospectively. Management does not expect the adoption of ASU 2015-12 to have a material effect on our financial statements upon adoption.

(3) Information Prepared and Certified by Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, the following information included in the accompanying financial statements and supplemental schedule (Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year)) was obtained from data that has been prepared and certified to as complete and accurate by Charles Schwab Bank (Schwab), the trustee of the Plan. Assets that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013 are separately identified.

Total	<u>\$ 280,962,812</u>	<u>\$ 250,197,710</u>

* This amount represents contract value for this investment.

The trustee also certified to the completeness and accuracy of \$4,636,210 and \$36,025,721 of net appreciation in fair value of investments and \$12,077,933 and \$9,807,576 of interest and dividend income related to the aforementioned assets for the years ended December 31, 2014 and 2013, respectively.

(4) Fair Value Measurements

U.S. GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

Level 1	Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
Level 2	Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable for the asset or liability.

The level of the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

<i>Mutual Funds:</i>	Valued based on the net asset value of shares held by the Plan at year-end.
<i>Common Collective Trust:</i>	Valued at fair value, by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Investment Contract

The Plan has a collective trust fund contract with Union Bond & Trust Company (Union). This contract maintains contributions in a general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. The collective trust fund issuers are contractually obligated to repay the principal and a specified rate that is guaranteed to the Plan.

Because the collective trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value investment contract. The collective trust fund is presented under investments in the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Union, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

The investment contract does not permit the Company to terminate the agreement prior to the scheduled maturity date.

The following are the average yields for the Union guaranteed investment contract for 2014 and 2013:

Average yields for 2014:	
Based on actual earnings	1.29%
Based on interest rate credited to participants	1.25%
Average yields for 2013:	
Based on actual earnings	1.27%
Based on interest rate credited to participants	1.26%

Changes in net assets per Schedule H of Form 5500	<u>\$ 31,020,904</u>	<u>\$ 59,096,629</u>

(7) Plan Termination

The Company reserves the right to discontinue its contributions or terminate the Plan at any time. Upon such termination and after distribution of expenses and profits or losses through the date of termination, all amounts allocated to each participant's account become fully vested immediately and participants are entitled to receive amounts allocated to their account. The Company has not expressed any intention to terminate the Plan.

Notes to Financial Statements

(8) Income Taxes

Effective December 1, 2011, the Company adopted a prototype plan sponsored by Schwab, which received a favorable opinion letter from the IRS dated May 23, 2008. The Plan has not filed for its own determination letter since adopting the prototype plan and the Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for Federal income taxes has been made in the accompanying financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax position taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Schwab. Schwab is the trustee as defined in the plan document and, therefore, these transactions qualify as party-in-interest. Additionally, NFP Retirement (formerly known as 401k Advisors Inc.) and other investment and consultation firms provide investment advice and consulting to the Plan and thus they are considered a party-in-interest. Fees paid by the Plan to the above entities for administrative expenses amounted to \$58,391 and \$77,756 in 2014 and 2013, respectively.

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2014 statement of net assets available for benefits.

(11) Subsequent Events – Date of Management's Evaluation

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date the accompanying financial statements were available to be issued.
