NOTE 1 - DESCRIPTION OF PLAN

The following description of the Robinson Helicopter Company, Inc. 401(k)/Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all eligible employees (as defined by the plan agreement as an employee that has attained age twenty-one and completed six months with at least 500 hours of service or one year of service) of Robinson Helicopter Company, Inc. (the "Company"). The Plan is referred to as a "Safe Harbor 401(k) Plan". It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Each year participants may contribute up to 100% of pretax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 100% of the first 3% that a participant contributes to the Plan, and 50% of the participant contributions between 3% and 5%. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain annual limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately vested in their contributions plus actual earnings thereon. Effective January 1, 2004, the Plan adopted a safe harbor 401(k) Plan which allows for immediate vesting in Employer Matching Contributions plus actual earnings thereon.

PAYMENT OF BENEFITS

On termination of service due to death, disability or retirement, a participant with an account balance greater than $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly installments in the form of a ten-year certain and life annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant with an account balance less than or equal to $5,000 must receive the value of his or her account as a lump-sum distribution.

FORFEITED ACCOUNTS

The Plan adopted a safe harbor 401(k) Plan which allows for immediate vesting in Employer Matching Contributions plus actual earnings thereon. Therefore, there are no forfeited accounts at December 31, 2014 and 2013.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying financial statements have been prepared on the modified cash basis as permitted under the Department of Labor Rules and Regulations. Consequently, interest income and the related asset is recognized when received rather than when earned and expenses are recognized when paid rather than when the obligation is incurred. Accordingly, the accompanying financial statements are not intended to and do not present net assets and the changes in net assets in conformity with generally accepted accounting principles.

As described in Financial Accounting Standards Board ASC 946, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

CONTRIBUTIONS

Company and participants' contributions are recorded in the period that participants' payroll deductions are made.

BENEFITS PAYABLE

Benefits are recorded when paid. Benefits payable represents benefits paid and uncashed (stale dated) at December 31, 2014 and 2013.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INVESTMENTS WITH INSURANCE COMPANY

The Plan has entered into a Group Contract (the "Contract") with T. Rowe Price under which T. Rowe Price maintains Plan contributions in Pooled Separate Accounts. The Contract is included in the accompanying financial statement at the fair value as reported by T. Rowe Price.

FASB Accounting Standards Codification (ASC) 820, which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). ASC 820 emphasizes that fair value is a market-based measurement that should be determined based on the assumptions market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC 820 establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from sources independent of the Plan (observable inputs) and (2) the Plan's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). Valuation techniques used to measure fair value shall maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels, as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Plan has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide information on an ongoing basis.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability. Level 2 inputs include the following:

Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in markets which are not active;
Inputs other than quoted prices that are observable for the asset or liability; and
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Unobservable inputs reflect the Plan's own assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances, which might include the Plan's own data. However, market participant cannot be ignored and, accordingly, the Plan's own data used to develop unobservable inputs are adjusted if information is reasonably available without undue cost and effort that indicates that market participants would use different assumptions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INVESTMENTS WITH INSURANCE COMPANY (Continued)

The fair value hierarchy of ASC 820 gives the highest priority to Level 1 and the lowest priority to Level 3 inputs.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INVESTMENTS WITH INSURANCE COMPANY (Continued)

Changes in assets and liabilities measured at fair value using Level 3 inputs for the year ended December 31, 2014 are as follows:

	Balance 01/01/2014	Net Realized and Unrealized Gain(Losses)	Purchases (Sales) and Settlements, Net	Balance 12/31/14	Changes in Unrealized Appreciation in 2014 for Investments Still Held At 12/31/14
Stable Value Fund	$ 27,743,776	$ 32,106	$ 1,183,999	$ 28,959,881	$ 32,106

NET UNREALIZED APPRECIATION (DEPRECIATION) IN FAIR VALUE OF INVESTMENTS

For the years ended December 31, 2014 and 2013, the Plan's investments, including investments purchased, sold and held during the years, appreciated (depreciated) in value as follows:

Investments at Fair Value as Determined By Quoted Market Price	December 31, 2014	December 31, 2013
Mutual Funds	$ (284,225)	$ 4,771,110

NOTE 3 - PARTY-IN-INTEREST TRANSACTIONS

T. Rowe Price, the trustee of the plan, manages certain plan investments. Therefore, these transactions qualify as party-in-interest transactions.

The Company may be deemed to be a party-in-interest under the guidelines of ERISA. The Company provides certain administrative services at no cost to the Plan.

NOTE 4 - INVESTMENT CONTRACT

In 2007, the plan entered into a benefit-responsive investment contract with T. Rowe Price. T. Rowe Price maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by T. Rowe Price. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by T. Rowe Price, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contact value.

NOTE 4 - INVESTMENT CONTRACT (Continued)

The effective yields on these contracts represent the crediting rate, less the "wrapper" fee paid to the insurance carrier. Global wraps do not expire as assets are sold or mature; instead, the wrap remains intact and the maturity of the contract is open-ended. The underlying investments are valued at quoted redemption values on the last business day of the plan's year end. The fair value of the stable fund equals the total of the fair value of the underlying assets plus the total wrap rebid value. Net assets are adjusted to contract value, which represents the contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Wrap contracts accrue interest using a formula called the "crediting rate". Wrap contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the fund's current market value at the fund's current yield to maturity for a period equal to the fund's duration. The crediting rate is the discount rate that equates the estimated future market value with the fund's current contract value. Crediting rates are reset quarterly. The wrap contracts provide a guarantee that the crediting rate will not fall below 0%.

The crediting rate, and hence the fund's return, may be affected by many factors, including purchases and redemptions by participants. The precise impact on the fund depends on whether the market value of the covered assets is higher or lower than the contract value of those assets. If the market value of the covered assets is higher than their contract value, the crediting rate will ordinarily be higher than the yield of the covered assets. Under these circumstances, cash from new investors will tend to lower the crediting rate and the fund's return, and redemptions by participants will tend to increase the crediting rate and the fund's return.

If the fund experiences significant redemptions when the market value is below the contract value, the fund's yield may be reduced significantly, to a level that is not competitive with other investment options. This may result in additional redemptions, which would tend to lower the crediting rate further. If redemptions continued, the fund's yield could be reduced to zero. If redemptions continued thereafter, the fund might have insufficient assets to meet redemption requests, at which point the fund would require payments from the wrap issuer to pay further shareholder redemptions.

The average yield and crediting rate on the plan's global wrap contracts was 1.83% and 2.34% for all contract issuers in 2014.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be initially utilized to satisfy unpaid charges, fees or taxes. The remaining Plan assets will be paid, at the option of the plan administrator, either directly to the participants, or in a single sum to the plan administrator or approved custodian of the Plan.

NOTE 6 - CONCENTRATION OF CREDIT RISK

The Plan invests solely in an investment company's Common Collective Trust and Registered Investment Companies, including mutual funds.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The following unaudited information in the financial statements was certified to be complete and accurate by T. Rowe Price within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974:

All amounts relating to the pooled separate investment accounts and registered investment companies as enumerated in the Statements Of Net Assets Available For Benefits At December 31, 2014 and 2013.

All amounts relating to net investment income as enumerated in the Statement Of Changes In Net Assets Available For Benefits For The Years Ended December 31, 2014 and 2013.

All amounts enumerated Schedule Of Assets Held For Investment Purposes As Of December 31, 2014.

All amounts enumerated in Schedule Of Reportable Transactions For The Year Ended December 31, 2014.

The following is a summary of the investment information regarding the plan, included in the plan's financial statements and supplemental schedules, that was prepared by, or derived from, information prepared by T. Rowe Price and furnished to the plan administrator. The Plan administrator has obtained certifications from the custodian that the information is complete and accurate as of December 31, 2014 and 2013.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

The maximum exposure to loss in the event of nonperformance by the parties or adjustments in market conditions is represented by the recorded amount of the assets.

NOTE 10 - TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income tax has been included in the Plan's financial statement. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income examination for years prior to 2011.

NOTE 11 - SUBSEQUENT EVENTS

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosures through July 1, 2015 the date the financial statements were available to be issued.
