Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Blue Circle Inc. Pension Plan for Hourly Rated Employees at Ravena, N.Y. (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2014 and 2013, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

As described in Note 8 to the financial statements, the Plan was merged into the Lafarge North America Inc. Hourly Pension Plan (Steelworkers) previously known as the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Whitehall) effective December 31, 2014.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO THE FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

Note 1—Description of plan

The following description of the Blue Circle Inc. Pension Plan for Hourly Rated Employees at Ravena, N.Y. (the “Plan”) provides only general information. Participants should refer to the Plan document, as amended and restated, for a more complete description of the Plan’s provisions.

General – The Plan was adopted by Lafarge Building Materials Inc. (the “Company”), and was most recently amended effective December 31, 2014 to merge the Plan. The Plan is a noncontributory defined benefit plan that provides for pension and disability benefits to certain hourly compensated employees. An eligible participant becomes vested for normal retirement benefits upon the attainment of age 65. Early retirement benefits vest to any employee upon the attainment of age 55 and five years of credited service or upon the attainment of 30 years of credited service regardless of age. The Plan also provides for benefits to participants with at least 5 years of credited service who meet certain disability requirements. Additionally, under certain circumstances, participants may be eligible to receive benefits in the event of a layoff or permanent shutdown of a plant. If a vested participant dies before electing to retire, his or her surviving spouse may be eligible to receive benefits. The Plan is intended to qualify under Section 401(a) of the Internal Revenue Code (“IRC”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

On January 1, 2002, all employees of the Company transferred to employment with Lafarge North America Inc., which established the Lafarge North America Inc. Pension Plan for Blue Circle Heritage Hourly Compensated Employees (Ravena) to provide employees with substantially the same benefits. At that time, the Plan was effectively frozen and participants stopped accruing benefits. Participants who were employed by the Company on December 31, 2001 and transferred employment to Lafarge North America Inc. on January 1, 2002 generally became fully vested in their Plan benefits which had accrued as of December 31, 2001, if they were not already vested.

Employees were eligible for participation in the Plan as of the date of the Plan’s adoption or the date of their employment, if later.

Effective December 31, 2014, the Plan was merged into the Lafarge North America Inc. Hourly Pension Plan (Steelworkers) previously known as the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Whitehall). See Note 8 for further information.

The Plan is administered by the Company’s Investment Committee and Benefit Administration Committee (collectively the “Committees”). The Committees have overall responsibility for the operation and administration of the Plan. The Committees determine the appropriateness of the Plan’s investment offerings and monitor Plan investment performance.

The assets of the Plan and certain other pension plans of the Company are held in the Blue Circle America Inc. Master Trust (“Master Trust”). During the years ended December 31, 2014 and 2013, assets in the Master Trust were held by The Northern Trust Company (the “trustee”). Upon the order of the Company, the trustee pays amounts to specified Plan beneficiaries. SEI Investments Company (“SEI”) currently acts as investment manager and has authority to invest and reinvest the Master Trust assets.

Plan Termination – The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. As of December 31, 2014, the Plan Sponsor has not expressed any intent to do so. As noted above, effective December 31, 2014, the Plan merged into another plan.

**BLUE CIRCLE INC. PENSION PLAN FOR HOURLY
RATED EMPLOYEES AT RAVENA, N.Y.
NOTES TO THE FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

Note 1—Description of plan (continued)

In the event of termination, all accrued benefits become 100% vested, and the net assets of the Plan are set aside for payment of such vested benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at the time of termination. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not, as described in the articles of the Plan.

Pension Benefits – Plan participants are eligible for their Plan benefit after retiring or terminating employment with vesting rights. Participants become vested in the Plan upon completion of 5 years of vesting service or attainment of the normal retirement age (65). If employees terminate before rendering 5 years of service, they forfeit the right to receive the portion of their accumulated plan benefits.

Benefit payments are based upon union negotiated flat rates for each year of credited service. Upon retirement or termination, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment or a monthly annuity payable for their lifetime. If the value of the employee's vested benefit is \$1,000 or less, the benefit automatically will be paid out in the form of a lump sum. The monthly annuity payables have a variety of payment options.

Death and Disability Benefits – If an employee dies, the vested benefits may be paid to the surviving qualified spouse. No benefits are paid to a beneficiary of a participant who does not have a surviving qualified spouse when the employee dies. Active employees who become totally disabled and are vested in their benefits may elect to receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled.

Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, based on the participant's vested benefit service and the benefit factor as of the date they became permanently disabled

Note 2—Significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Cash and Cash Equivalents – For purposes of the disclosure of investments in the Master Trust (see Note 5), the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents held in the Master Trust may include short-term investments held by institutions that are not covered by the Federal Deposit Insurance Corporation.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's net interest in the Master Trust is stated at the fair value of the underlying net assets of the Master Trust as estimated by the trustee.

**BLUE CIRCLE INC. PENSION PLAN FOR HOURLY
RATED EMPLOYEES AT RAVENA, N.Y.
NOTES TO THE FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

Note 2—Significant accounting policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Under the Master Trust, investment transactions, income on investments, and realized and unrealized appreciation and depreciation have been prorated by the trustee among the plans based on each plan's proportionate share of the market value of the Master Trust on a monthly basis.

Funding Policy – The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements. During 2014 and 2013, the Company made contributions of \$360,000 and \$735,000, respectively. The Company's contributions for 2014 and 2013 exceeded the minimum funding requirements of ERISA.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

Estimates – The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties – The Master Trust makes investments in various securities, which are exposed to various risks such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amount reported in the statements of net asset available for benefits and the statements of changes in net assets available for benefits.

Master Trust contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Administrative Expenses – Administrative expenses include plan-specific expenses as well as expenses incurred by the Master Trust. Expenses related specifically to the Master Trust are allocated to the respective plan based on the ending market value of assets held in each plan as a percentage of total assets in the Master Trust.

Fair Value Measurement – GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

RATED EMPLOYEES AT RAVENA, N.Y.
NOTES TO THE FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

Note 2—Significant accounting policies (continued)

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds – These investments are public investment vehicles valued using the Net Asset Value (“NAV”) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Cash and Cash Equivalents – These investments are public investment vehicles valued using \$1 for the NAV, and are classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3—Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the services rendered by employees to December 31, 2001. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) surviving spouse of employees who have died, and (c) present employees or their beneficiaries.

Benefits for active, retired or terminated participants or their beneficiaries are based on (a) the monthly pension factor established in the Plan and (b) the employee's number of years of credited service as of December 31, 2001. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to participant service rendered to December 31, 2001.

The actuarial information is based on reports prepared by the Plan's actuary, Towers Watson, as of January 1, 2014. The actuarial calculations are based on participants becoming fully vested after five years of continuous service. The actuarial calculations are also based on the participants covered under the Plan as of January 1, 2014.

Note 3—Actuarial present value of accumulated plan benefits (continued)

The actuarial present value of accumulated plan benefits was calculated using the present value of accrued benefits method as required by the Pension Protection Act of 2006 ("PPA"). As of January 1, 2014, significant assumptions underlying the actuarial computations include an effective interest rate of 6.30%, an increase from 6.15% as of January 1, 2013, the use of the RP-2000 Employees and RP-2000 Healthy Annuitants mortality tables used for the calculation of the current liability, and the assumption that retirement takes place at various ages, ranging from 45 to over 65. The actuarial value of assets was determined using the average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, with certain adjustments made for contributions, benefits, administrative expenses and expected earnings. Additionally, the funding interest rate changed from Internal Revenue Service ("IRS") prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date to the IRS prescribed segment rates without 3-year transition based on bond yields through the August preceding the valuation date. In accordance with the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act, the Company elected to extend the amortization of the funding shortfall base established January 1, 2009 from 7 to 15 years.

The actuarial present value of accumulated plan benefits as of January 1, 2014 is as follows:

Vested benefits:	
Participants currently receiving payments	\$ 13,372,087
Other participants	<u>2,251,266</u>
Total vested benefits	<u>15,623,353</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 15,623,353</u>

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2014:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 15,168,711
(Decrease) increase during the year attributable to:	
Benefits accumulated & non-investment experience	(119,287)
Increase for interest due to decrease in discount period	871,810
Benefits paid	(1,295,970)
Assumption changes	<u>998,089</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 15,623,353</u>

Certain actuarial assumptions changed during 2014; the segment interest rates used to calculate the funding target and target normal cost, the required mortality table, and administrative expense assumptions were updated. As noted in Notes 1 and 8, effective December 31, 2014, the Plan merged into another plan. The obligation and assets were transferred on January 1, 2015. This event was not reflected in the valuation.

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4—Income tax status

The Plan has received its latest determination letter from the IRS dated July 24, 2009 stating that the Plan, as then designed, is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income and that the Plan and trust continue to be tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to December 31, 2011.

Note 5—Interest in the Master Trust (unaudited)

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the trustee.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2014 and 2013, the Plan's interest in the investments of the Master Trust was approximately 26.11% and 23.96%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on each Plan's interest.

All investment information disclosed in the accompanying financials, including investments held at December 31, 2014 and 2013 and net investment income in the Master Trust for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee. The trustee has also certified the Plan's proportionate share of such items to be complete and accurate.

The fair values of investments in the Master Trust are as follows:

	December 31,	
	2014	2013
Investments at fair value:		
Mutual funds	\$ 61,928,561	\$ 62,632,724

Note 5—Interest in the Master Trust (unaudited) (continued)

Investment income for the Master Trust was as follows:

	Year ended December 31,	
	2014	2013
Net appreciation in fair value of investments	\$ 6,183,954	\$ 3,979,773
Interest and dividends	<u>1,973,992</u>	<u>1,664,814</u>
	<u>\$ 8,157,946</u>	<u>\$ 5,644,587</u>

During the years ended December 31, 2014 and 2013, substantially all of the net appreciation in fair value of investments is attributable to mutual funds.

The investments that represent 5% or more of the Master Trust's net assets available for benefits are as follows:

* Investment is less than 5% of the Master Trust's net assets available for benefits at end of Plan year.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Note 7—Party-in-interest transactions

Certain investments of the Master Trust are shares of SEI. The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These fees were based on customary and reasonable rates for such services, and are party-in-interest transactions for which a statutory exemption exists under ERISA.

Note 8—Subsequent events

On December 22, 2014, the Company amended the Plan effective December 31, 2014, such that assets held by the Plan will be transferred to the Lafarge North America Inc. Hourly Pension Plan (Steelworkers).

On January 1, 2015, the Plan was merged into the Lafarge North America Inc. Hourly Pension Plan (Steelworkers), and \$16,210,116 was transferred. This amount is recorded as a payable on the statement of net assets available for benefits as of December 31, 2014.

On July 10, 2015, the Company completed a merger with Holcim Ltd and became Lafarge Holcim. Since all Plan assets have been merged into another plan as of January 1, 2015, the Company merger has no impact on the Plan.

The Plan has evaluated events through October 13, 2015 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.50% for the preceding plan year and 6.75% for the second preceding plan year during the 12 month periods preceding the valuation date (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All significant benefits described in the Plan Provisions section were valued except, if applicable (1) plant shutdown and other "unpredictable contingent event benefits" which are not valued until and unless the triggering event occurs (unless otherwise noted) and (2) automatic lump sum distribution in the event that the present value of benefits is no more than \$1,000 (or \$5,000 for survivor benefits). Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.

Other changes

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013. For the 2013 plan year, Lafarge elected not to apply the HATFA corridor extension for benefit restriction purposes (IRC §436) or for funding (IRC §430) purposes. The HATFA corridor extension applies for all purposes for the 2014 plan year.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The administrative expense assumption was updated.

Data sources

Towers Watson used asset data and retiree data supplied by the trustees. Lafarge North America Inc. furnished other participant data, the dates and amounts of the contributions that were paid in 2014 for the 2013 plan year, and funding balance elections. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Attachment to 2014 Form 5500, Schedule SB, Line Item 22: Weighted Average Retirement Age

Each Employee is assumed to retire in accordance with the table of retirement rates. The average weighted retirement age is derived by applying these rates to an employee with the characteristics at plan entry of an average current plan participant. The average participant entered the plan at age 32. The average participant age is 51 and the average participant service is 19. The number of employees expected to retire at each potential age is shown below. The average retirement age is 62.

The weighted average retirement age is computed as follows:

(A) <u>Age</u>	(B) Probability of Attaining <u>Age</u>	(C) Retirement Rate	(D) Percentage Retiring at Each Age	(A) * (D)
55	1.000	0.030	0.030	1.650

Blue Circle Inc. Pension Plan for Hourly-Rated Employees at Ravena, N.Y.
Plan Provisions

Effective Date	The original effective date of this plan was May 1, 1967.
Covered Employees	Atlantic division employees covered by a collective bargaining agreement are eligible to participate in the pension plan.
Participation Date	Date of hire
Definitions	<p>Used for benefit eligibility purposes, eligibility service prior to January 1, 1975 is years (and fractional years) of the participant's period of continuous service. On and after January 1, 1975, a participant accrues one year of eligibility service for each plan year in which he works 1,000 hours. Periods of approved leave of absence and military service will be counted as eligibility service.</p> <p>Note: As of January 1, 2002, the sponsoring employer had no employees (many former employees of the sponsor are now employees of Lafarge North America Inc.). However, periods of employment with Lafarge North America after December 31, 2001 will be considered for the purposes of determining benefit eligibility.</p>
Credited service	Used for benefit amount purposes, credited service prior to May 1, 1975 will be determined in accordance with the provisions of the former plans. On and after May 1, 1975, a participant accrues a year of credited service for each plan year in which he works 1,200 hours, with 1/12 of a year's credit given for each 100 hours worked less than 1,200. credited service will include periods of temporary illness, military service (not greater than 5 years), leave of absence or layoffs of less than 2 years.
Normal retirement date (NRD)	No periods of employment after December 31, 2001 will be considered credited service for the purpose of calculating the amount of any benefits under this plan.
Monthly pension benefit	First day of the month coinciding with or next following the participant's 65th birthday.
Monthly preretirement death benefit	The accrued benefit for an employee is equal to \$29.50 multiplied by credited service. 50% of the accrued monthly pension benefit as of the date of death reduced for 50% joint and survivor election and reduced for payment as early as the participant's earliest retirement date.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	The earlier of the first day of the month coinciding with or next following the attainment of age 55 with 5 years of eligibility service or 30 years of eligibility service regardless of age.
Postponed retirement	Retirement after NRD
Vested termination	Termination for reason other than death or retirement after completing 5 years of eligibility service.
Disability retirement	A participant with 5 years of eligibility service who is unable to obtain gainful employment by reason of total and permanent disability is eligible for disability.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit reduced .3% for each month that actual retirement date precedes normal retirement date, however, the benefit is unreduced after 30 years of eligibility service.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit is equal to the accrued normal retirement benefit as of the date of termination. If the benefit starts before normal retirement date, the benefit will be reduced .5% for each month that actual retirement date precedes NRD up to 60 months, and 1/3 of 1% for each month in excess of 60.
Disability retirement	The monthly disability benefit, payable immediately, is equal to \$29.50 times credited service, with a minimum benefit of \$600 per month.
Preretirement death	Monthly preretirement death benefits on behalf of both active and terminated vested employees are reduced as described above.

Other Plan Provisions

Forms of payment

Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin. Otherwise, benefits are paid in the form of an actuarially equivalent 50% joint and survivor annuity, or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are:

- ▶ Joint and 66 2/3% survivor annuity
- ▶ Joint and 75% survivor annuity
- ▶ Joint and 100% survivor annuity

Actuarial equivalence for optional form conversion other than for lump sums:

- ▶ Participant mortality: UP 1994 blended 50% males; 50% females
- ▶ Beneficiary mortality: UP 1994 blended 50% males; 50% females
- ▶ Interest rate: 6.50%

An automatic lump sum distribution is made if the present value of benefits is no more than \$1,000 (\$5,000 for survivor benefits).

Maximum on benefits

All benefits for any calendar year may not exceed the maximum limitation for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Changes in Plan Provisions Since Prior Year Valuation and Other Events

Effective December 31, 2014, the Blue Circle Inc. Pension Plan for Hourly Rated Employees at Ravena, N.Y. merged into the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Whitehall). This event did not impact the 2014 actuarial valuation.

No plan changes were recognized. Towers Watson is not aware of any plan changes which are required to be reflected.
