Report of Independent Auditors

The Timken Company, Administrator of
The Timken Company Pension Plan

We have audited the accompanying financial statements of The Timken Company Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Building a better
working world

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Timken Company Pension Plan at December 31, 2014, and the changes in its net assets available for benefits for the year then ended, and the financial status of The Timken Company Pension Plan at December 31, 2013, and the changes in its financial status for the year then ended, in conformity with U.S. generally accepted accounting principles.

The Timken Company Pension Plan

Notes to Financial Statements

Years Ended December 31, 2014 and 2013

1. Description of the Plan

The following description of The Timken Company Pension Plan (the Plan) provides only general information. Participants should refer to the *2012 Pension Agreement Between The Timken Company and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (the Union)* for a more complete description of the plan, and the plan's benefit and eligibility provisions. Copies of this agreement are available from the Plan administrator, The Timken Company (the Company). The 2012 Pension Agreement was ratified on March 2, 2012, and the provisions of the 2012 Pension Agreement went into effect January 1, 2012. This agreement is in effect until January 1, 2018.

On June 30, 2014, the Company completed the separation of its steel business from its bearings and power transmission business through a spinoff, creating a new independent publicly traded company, TimkenSteel Corporation (TimkenSteel). The Company's board of directors declared a distribution of all outstanding common shares of TimkenSteel Corporation through a dividend. At the close of business on June 30, 2014, the Company's shareholders received one common share of TimkenSteel Corporation for every two common shares of the Company they held as of the close of business on June 23, 2014. As a result of the spinoff, \$567,951,156 of plan assets transferred to the TimkenSteel Corporation Bargaining Unit Pension Plan (the TimkenSteel Pension Plan) sponsored by TimkenSteel.

General

The Plan is a defined benefit pension plan which provides for retirement, supplemental pension, disability, and spouse's benefits for all employees of The Timken Company (the Company) who are represented by the Union.

The Pension Administration Committee (the Committee) is responsible for the general administration of the Plan. The Northern Trust Company (the Trustee) is the trustee of the Plan.

Eligibility and Vesting

An eligible employee becomes a participant in the Plan immediately upon employment with the Company. Active participants become fully vested upon the completion of five years of continuous service.

1. Description of the Plan (continued)

Benefits

The Plan is a defined benefit pension plan that provides a specified monthly benefit to eligible participants on retirement that is determined by a formula based on the employee's earnings history and tenure of service. For associates hired prior to November 1, 2009, eligible participants earn for up to 25 years of service, 1.165% of average monthly compensation (as defined by the Plan) per year of service plus, for service earned over 25 years but less than 35 years, 1.515% of average monthly compensation per year of service plus, for service earned at or above 35 years or more, 1.265% of average monthly compensation per year of service. Such benefit is subject to a minimum of \$56.25 per month per year for service up to 30 years (\$67 for service earned after December 31, 2011), and \$75 per month per year for service at or beyond 30 years (\$85 per month for service earned after December 31, 2011). For associates hired on or after November 1, 2009, eligible participants earn \$45 per month per year of service for service up to 30 years, and \$60 per month per year of service for service at or beyond 30 years.

Minimum monthly benefits, Social Security supplements, and continuation of pay benefits based on service apply to eligible participants. Other benefits apply to eligible participants for previous service periods.

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan participants and satisfy the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2014 and 2013. In addition, the Company contributes discretionary amounts from time to time.

Retirement

An employee is eligible for a full pension if a.) the employee has 15 or more years of continuous service and is at least age 62, b.) the employee has 25 or more years of continuous service and is at least age 60 or c.) the employee has 30 or more years of continuous service regardless of age. If a participant retires between age 60 and 62 and has at least 15 years of continuous service, but less than 25 years of continuous service, the participant will be paid 84.28% of the full pension if payments start at age 60 and the participant will be paid 91.69% of the full pension if payments start at age 61.

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Transfers

Transfers between the Plan and The Timken-Latrobe-MPB-Torrington Retirement Plan represent adjustments to the assets in the Plan to align the assets held in The Timken Company Collective Investment Trust for Retirement Trusts (Master Trust) with the obligations of the participants in the Plan after to transfer to the TimkenSteel Pension Plan.

Plan Updates

Based on the 2012 Pension Agreement, for employees hired prior to November 1, 2009, the benefit formula dollar multipliers for continuous service earned on and after January 1, 2012 increased to \$67 per year of continuous service for the first 30 years and \$85 per year of continuous service in excess of 30 years. For employees hired prior to November 1, 2009, the pay related benefit formula changed to 1.165% for years of continuous service up to 25 years, 1.515% for years of continuous service years in excess of 25 years up to 35 years and 1.265% for years of continuous service in excess of 35 years. The continuation of annual lump sum payments to surviving spouses of employees who retired prior to January 1, 1994 was extended through September 30, 2017.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation

The plan's investments are stated at fair value and are held in the Master Trust maintained by the Trustee.

The valuation methods (see Note 5) may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

2. Significant Accounting Policies (continued)

New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Management is currently evaluating the effect that the provisions of Part II of ASU 2015-12 will have on the Plan's financial statements. Part I and Part III are not applicable to the Plan.

In May 2015, the FASB issued ASU 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating the effect that the provisions of ASU 2015-07 will have on the Plan's financial statements.

2. Significant Accounting Policies (continued)

New Accounting Pronouncements (continued)

In June 2014, the FASB issued ASU 2014-11, *Transfers and Servicing (Topic 860): Repurchase-to-Maturity Transactions, Repurchase Financing, and Disclosure*. ASU 2014-11 requires repurchase-to-maturity transactions to be accounted for as secured borrowings rather than as sales with a forward repurchase commitment and eliminates current guidance on repurchase financing. ASU 2014-11 requires separate accounting for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty that will result in secured borrowing accounting for the repurchase agreement. ASU 2014-11 requires new disclosure for repurchase agreements, securities lending transactions, and repurchase-to-maturity transactions that are accounted for as secured borrowings. These disclosures include information about the types of assets pledged and the relationship between those assets and the related obligation to return the proceeds. ASU 2014-11 also requires new disclosures for transfers of financial assets that are accounted for as sales that involve an agreement with the transferee entered into in contemplation of the initial transfer that result in the transferor retaining substantially all of the exposure to the economic return on the transferred financial assets throughout the term of the transaction. These accounting and disclosure changes are effective for annual periods beginning after December 15, 2014. The Company is currently evaluating the impact of adopting ASU 2014-11.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' compensation during their highest five consecutive years of the last ten years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the highest five consecutive years of the last ten years preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The Timken Company Pension Plan
Notes to Financial Statements (continued)

3. Accumulated Plan Benefits

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which was the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information was presented as of the beginning of the plan year.

	<u>December 31, 2013</u>
Actual present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefits	\$ 828,805,455
Other participants	<u>170,504,947</u>
Total vested benefits	999,310,402
Nonvested benefits	<u>39,642,939</u>
Total actuarial present value of accumulated plan benefits	<u><u>1,038,953,341</u></u>

The changes in accumulated plan benefits were as follows:

Actuarial present value of accumulated plan benefits at beginning of year	969,877,950
Increase during the year attributed to:	
Benefits accumulated	6,594,394
Actuarial loss	1,289,724
Increase for interest due to the decrease in the discount period	74,422,170
Benefits paid	(92,390,442)
Changes in actuarial assumption	<u>79,159,545</u>
Net increase	69,075,391
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 1,038,953,341</u></u>

The Timken Company Pension Plan
Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The discount rate changed from 8.00% to 7.25%. The change in the discount rate accounted for \$56.0 million of the assumption changes. The Plan also adopted the new RP-2014 mortality tables. The impact of the change in mortality tables accounted for \$23.2 million of the assumption changes.

Significant assumptions underlying the actuarial computations are:

Actuarial cost method	Projected Unit Credit Cost Method
Assumed rate of return on investments	7.25% per annum, compounded annually for 2013.
Salary increases	2.00% from 2012 to 2015 3.00% per year for all years after 2015
Retirement	Estimated at rate based upon becoming eligible for retirement at ages ranging between 50 and 65 and older
Mortality basis	The RP-2014 Mortality Tables for males and females for healthy associates set forward for 1-year, with mortality rates increased 10% for blue-collar associates. 1985 Pension Disability Mortality for males and females for disabled associates

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Master Trust Investments

As of December 31, 2014, the Plan is one of two defined benefit pension plans combined into the Master Trust of which The Timken Company is the sponsor. The Trustee holds the assets of the Master Trust and executes transactions therein. Each month the Master Trust investment income (loss) and appreciation (depreciation) is allocated among the participating plans based on each plan's ending assets available after contributions and distributions to participants as a percentage of total Master Trust assets available.

The following table presents the fair value of the net assets of the Master Trust at December 31, 2014 and 2013. Purchases and sales of securities are recorded on a trade-date basis:

5. Fair Value Measurement

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The three levels of the fair value hierarchy in ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 3 – Unobservable inputs for the asset or liability

5. Fair Value Measurement (continued)

Cash and cash equivalents are valued at redemption value. Government and agency securities are valued at the closing price reported in the active market on which the individual securities are traded. Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded. Equity securities (both common and preferred stock) are valued at the closing price reported in the active market in which the individual security is traded. Common collective funds are valued based on a net asset value per share. The primary objective of common collective funds – equities is to approximate the risk and return characteristics of the global equity markets. The primary objective of common collective funds – fixed income is to maximize total return by investing primarily in a diversified portfolio of intermediate- and long-term debt securities. Asset-backed securities are valued based on quoted prices for similar assets in active markets.

Limited partnerships include investments in funds that invest primarily in private equity, venture capital, and distressed debt. Limited partnerships are valued based on the plan's ownership interest in the net asset value of the investment, which is used as a practical expedient to fair value, per the underlying investment fund, which is based upon the general partner's own assumptions about the assumptions a market participant would use in pricing the assets and liabilities of the partnership. Real estate investments include funds that invest in companies that primarily invest in commercial and residential properties, commercial mortgage backed securities, debt and equity securities of real estate operating companies, and real estate investment trusts. Mutual funds – real estate are valued based on the closing price reported in the active market in which the individual security is traded. Other real estate investments are valued based on the plan's ownership interest in the net asset value of the investment, which is used as a practical expedient to fair value per the underlying investment fund, which is based on appraised values and current transaction prices. Risk parity investments include funds that invest in diversified global asset classes (equities, bonds, inflation-linked bonds, and commodities) with leverage to balance risk and achieve consistent returns with lower volatility. Risk parity investments are valued based on the closing prices of the underlying securities in the active markets in which they are traded.

When such prices are unavailable, the Trustee determines a valuation from the market maker dealing in the particular security. Management may also estimate the value of an investment if no other information is available.

6. Securities Lending

The Master Trust is authorized to engage in the lending of certain investments. Securities lending is an investment management enhancement that utilizes certain existing securities of the Master Trust to earn additional income. Securities lending involves the loaning of securities to approved banks and broker/dealers. In return for the loaned securities, the Trustee, prior to or simultaneous with delivery of the loaned securities to the borrower, receives collateral in the form of cash or U.S. government securities as a safeguard against possible default of any borrower on the return of the loaned securities under terms that permit the Master Trust to repledge or sell the securities. Each securities lending transaction is initially collateralized to the extent of 105% of the market value of the loaned securities, in the case of: (a) loaned securities denominated in U.S. dollars or whose primary trading market is located in the U.S., or (b) loaned securities not denominated in U.S. dollars or whose primary trading market is not located in the U.S. The collateral is marked to market on a daily basis. In the event the counterparty is unable to meet its contractual obligation under the securities lending arrangement, the Master Trust may incur losses equal to the amount by which the market value of the securities differ from the amount of collateral held. The Master Trust mitigates credit risk associated with securities lending arrangements by monitoring the fair value of the securities loaned on a daily basis with additional collateral obtained or refunded as necessary.

The Master Trust maintains full ownership rights to the securities loaned and, accordingly, classifies loaned securities as investments. Since the securities received as collateral may be repledged or sold, the Master Trust recognizes the amount of collateral received and a corresponding obligation to return such collateral on the statement of net assets available for benefits. The fair value of securities on loan was approximately \$402 million and \$239 million and the fair value of collateral was approximately \$411 million and \$245 million at December 31, 2014 and 2013, respectively.

7. Income Tax Status

The Plan received a determination letter from the Internal Revenue Service dated October 9, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the taxation authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan which consist primarily of PBGC fees, actuarial fees, legal fees and administrative expenses. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment gain from the Master Trust. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate.

The Timken Company Pension Plan
Notes to Financial Statements (continued)

9. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Subsequent Events

Management evaluated subsequent events for the Plan through September 30, 2015, the date the financial statements were available to be issued.

\$56.25 per month per year of service for service up to 30 years for service earned prior to January 1, 2012.

\$75.00 per month per year of service for service at or beyond 30 years for service earned prior to January 1, 2012.

Effective January 1, 2012, the above multiplier increases for future service as follows:

\$67.00 per month per year of service up to 30 years.

\$85.00 per month per year of service at or beyond 30 years.

(b) For associates hired on or after November 1, 2009:

\$45.00 per month per year of service for service up to 30 years.

\$60.00 per month per year of service for service at or beyond 30 years.

Retirement benefits, regardless of optional form, are payable as a 5 year certain benefit, in addition to the form of payment elected.

Disability Benefit

Eligibility:

If disabled after 15 years of service, such disability continuing at least 5 months, the associate is eligible for a pension as determined in the "Normal Monthly Pension" section above. A disability pensioner hired prior to November 1, 2009 will receive an additional \$400 monthly supplement until such time as he is eligible for unreduced Social Security benefits or until age 62, if earlier.

Early Retirement

(a) For associates hired prior to November 1, 2009:

Permitted between age 60 and 65 if 15 or more years of service for normal pension benefits, subject to actuarial reduction for commencement prior to age 62, except reduction not applicable if service is 25 years or more. An associate may retire voluntarily on full pension if he has at least 30 years of service.

(b) For associates hired on or after November 1, 2009:

Permitted if associate has attained either:

- (i) age 62 with 15 or more years of service, or
- (ii) age 60 with 25 or more years of service, or
- (iii) 30 or more years of service.

SCHEDULE SB ATTACHMENTS

The normal pension benefit is subject to a reduction of 3% per year for associates who retire before age 65, except the reduction is not applicable if, at retirement, age plus service is equal to or greater than 85 and age is at least 55.

Vested Benefits Upon Termination of Service

Associates terminating with at least 5 years of service are eligible for normal pension and payable without actuarial reduction commencing at age 65. If an associate hired before November 1, 2009 has at least 15 years of service at termination, benefits can commence at any time after age 60, but will be actuarially reduced if commencing before age 65. If an associate is hired on or after November 1, 2009 and has at least 15 years of service at termination, benefits can commence at any time after age 62 but will be actuarially reduced if commencing before age 65. If an associate has at least 25 years of service at termination, benefits can commence at any time after age 60 but will be actuarially reduced if commencing before age 65.

Rule of 70/80 Benefit

If an associate is laid off (1) after age 55 and 15 years of service with combined age and service equal to 70 or more, or (2) after 15 years of service with age and service equal to 80 or more, because of permanent plant shutdown, reduction in force, or disability, full pension is payable (except for employees hired on or after November 1, 2009 the pension is reduced as described under "Early Retirement"), subject to proper application following notification by the administrator. A terminated associate who satisfies (1) or (2) above and was hired prior to November 1, 2009, will receive an additional \$400 monthly until such time as he is eligible for unreduced Social Security benefits or until age 62, if earlier.

Rule of 65 Benefit

If (1) an associate is laid off after 20 years of service with a combined age and service equal to 65 or more because of permanent plant shutdown, reduction in force, or disability, and (2) the associate has not refused an opportunity for employment with the Company, full pension is payable (except for employees hired on or after November 1, 2009 the pension is reduced as described under "Early Retirement"), subject to proper application following notification by the administrator. A terminated associate who satisfies (1) and (2) above and was hired prior to November 1, 2009 will receive an additional \$400 monthly until such time as he is eligible for unreduced Social Security benefits or until age 62, if earlier.

Special Retirement Payment

Associates hired prior to November 1, 2009 are eligible for a Special Retirement Payment. To calculate this benefit, the average straight time hourly rate during two pay periods before retirement is multiplied by 400 for associates with 14 to 18 years of service or by 360 for associates with 18 years of service or over. Regular pension payments, as indicated above, then commence three months after this payment is made from the Pension Fund.

Optional Benefits

Survivorship options are available at appropriate actuarial factors. Benefits for married associates are payable in the form of a 50% joint and survivor option unless the associate elects otherwise.

Surviving Spouse's Benefit/Death Benefit

Participants who have been married one year and who have completed 15 years of service at the time of their death are eligible for a pre-retirement spouse's benefit equal to 50% of their accrued benefit. The minimum benefit is \$200 per month.

If a married participant dies with between 5 and 15 years of service, his spouse is entitled to a benefit for her lifetime commencing the first of the month following the date that the participant could have retired had he lived and continued working. The benefit is determined assuming the participant terminated employment in the month preceding his death and had elected a 50% joint and survivor option to begin on the first day he could have elected his retirement benefits to begin.

Participants who are married at retirement are eligible for a post-retirement spouse's benefit equal to 50% of their accrued benefit minus 50% of the spouse's Social Security benefit. The minimum benefit is \$150 per month.

Beneficiaries of active participants who die with at least 30 years of service will receive a benefit for 60 months equal to the participants accrued benefit before any survivor benefits are paid.

Special Pension Benefit Option

This option is available to all associates hired prior to November 1, 2009 with 30 or more years of service at the time of retirement, or who are age 60 with at least 25 years of service. Eligible associates who retire and choose this option will receive a minimum monthly pension of \$1,500. The supplemental amount added to the regular pension will be at least \$400 per month.

This special benefit will be paid until the age of eligibility for 80 percent Social Security benefits as established by existing law (age 62 for those born prior to 1937) or for a minimum of 12 payments. After this time, payments to retirees choosing this option will revert to the pension amount calculated according to minimum or percentage formulas.

An associate retiring with at least 30 years of service who was hired prior to November 1, 2009 may elect to instead receive a minimum monthly benefit based on the following schedule:

Age at Retirement	Minimum Monthly Benefit
Less than 55	\$1,000
55 to 58	1,200
59 to 61	1,400
62 to 64	1,750
65 and older	2,000

Special Pension Supplement

An associate hired prior to November 1, 2009 and retiring with 30 or more years of service at the time of retirement, or who are age 60 with at least 25 years of service, or who are age 62 with at least 15 years of service and does not elect a Special Pension Benefit Option may elect to receive a monthly supplement equal to the difference between \$1,000 and the recipient's monthly pension.

The Special Pension Supplement will commence with the month following the month in which the participant attains eligibility for 80 percent Social Security Benefits as established by existing law.

Special Retiree Lump Sums

An associate hired prior to November 1, 2009 who retires or becomes disabled prior to June 30, 2012 is entitled to a \$5,000 lump sum payment.

Certain surviving spouses are entitled to various lump sum payments throughout the term of the 2012 Pension Agreement.

Schedule SB, Line 15 - Events Subsequent to AFTAP Certification as of January 1, 2014

The AFTAP indicated on line 15 was certified on September 2, 2014. Subsequent to that certification, the Highway and Transportation and Funding Act (HATFA) was passed by Congress. The plan sponsor opted to reflect the provisions of HATFA for minimum funding, which substantially reduced the funding target. However, the AFTAP was not recertified because the recertification would not have affected the administration of the plan. The Pre-HATFA funding target was 1,218,598,461; the actuarial value of assets was 1,362,561,734. The segment rates applied for purposes of determining the funding target for benefit restriction purposes included in the AFTAP certification were 4.43%, 5.62%, and 6.22%.
