THE COGAR GROUP, LTD. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Cogar Group, Ltd. 401(K) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a). General - The Plan is a defined contribution retirement plan. The Plan covers all full-time employees who have one month of service, except for part time/seasonal/temporary employees, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b). Contributions - Each year, participants may contribute up to the maximum amount allowable by law of pretax annual compensation. Participants can contribute amounts that are distributions from other qualified retirement plans. Employers may make a discretionary contribution to the Plan that is determined annually. Employer's contributions are invested in the same manner as the individual participants elected for their respective contributions. Contributions are subject to certain limitations. The company had delinquent contributions of $5,209 at December 31, 2014. These amounts were remitted to the plan in February 2015 and the appropriate excise tax forms were filed.

(c). Participant Accounts - Each participant's account is credited with the participant's contribution and allocation of Employer's contributions and Plan earnings. Allocations of the Employer's discretionary contributions are based on the amount of the participant's elective deferral for the Plan year. Allocation of Plan earnings are based on the individual participant's account balances. Forfeited account balances reduce the employer contribution.

(d). Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in Employer's discretionary contribution portion of the accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100 percent vested after four years of credited service.

(e). Administration - The Plan's assets are held and managed by the Trustees of the Plan who invest plan contributions received and investment income, and make distributions to participants. Certain administrative functions are performed by officers or employees of the Employer. No such officer or employee receives compensation from the Plan, and administrative expenses are paid directly by the participating Employer.

(f). Tax Status - The Plan is adopted from a prototype plan that received an Internal Revenue Service letter of determination as a tax exempt qualified retirement plan. Although the Plan has been amended, the Plan administrator believes that the Plan continues to qualify in accordance with the Internal Revenue Code.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

The following is a summary of the Plan's accounting policies:

(a). Basis of Accounting - The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FASB Staff Position (FSP), the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b). Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c). Investment Valuation and Income Recognition - The Plan’s investments are stated at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(d). Payment of Benefits - Benefits are recorded when paid.

NOTE 3 - INFORMATION CERTIFIED BY TRUSTEE/CUSTODIAN

The plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Voya Retirement Insurance and Annuity Company (VOYA) has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2014, the schedule of assets held for investment purposes as of December 31, 2014, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014.

ASC-820 *Fair Value Measurements,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 input consists of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements

The fair values of level one mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

NOTE 4 - FAIR VALUE MEASUREMENTS: Continued

Level 2 Fair Value Measurements

The fair value of the investment contract, the VOYA fixed account, reflects the approximate amount that would have been paid if the contract had been terminated as of the last day of the reporting period and potential surrender charges and market value adjustments were applied as of such date. The observable inputs for the investment contract are the amounts contributed or transferred to the fixed account less any withdrawals or transfers out, plus all accrued interest.

NOTE 5 - INVESTMENTS

The following table presents the fair values of all investments at December 31, 2014 and 2013. Single investments whose fair values are greater than $10,573 and $8,588 for 2014 and 2013 represent 5% or more of the Plan's net assets.

NOTE 5 - INVESTMENTS: Continued

During the year ended December 31, 2014 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $7,003.

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with VOYA. VOYA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by VOYA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2014 was $35,393. The average yield and crediting interest rates were approximately 3.0% for 2014. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than the guaranteed rate, determined annually. The approximate contract value is stated at $33,557 with a market value adjustment of $1,836.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with VOYA. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

NOTE 7 - TERMINATED PARTICIPANTS

At December 31, 2014, there were $20,598 in vested account balances of terminated participants.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the employer has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain investments at December 31, 2014 represent funds managed by VOYA. Therefore, these transactions qualify as party-in-interest transactions.

NOTE 11 - SUBSEQUENT EVENTS

Events that occur after the balance sheet date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the balance sheet date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the balance sheet date require disclosure in the accompanying notes. Management evaluated the activity of the Plan through October 14, 2015, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.
