Note A - Description of Plan

The following description of the All Tile, Inc. Employees' Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General

   The Plan is a discretionary contribution plan with compensation deferral features covering all employees of All Tile, Inc., All Surfaces, Inc., All Carpet Cushion & Supplies, Inc., and All Logistics, Inc. (Company) who have completed one year of service and are age eighteen or older. The Plan is subject to the provisions of ERISA.

   Prior to February 28, 2014, the Plan's service eligibility requirement was a three month period of service commencing with the first day of employment.

   On March 1, 2014, the Company added All Carpet Cushion & Supplies, Inc. and All, Logistics, Inc. to the Plan. Both companies' employees were credited for service for purposes of eligibility and the Plan offered a one-time open enrollment for all eligible employees. Years of service with predecessor employers of Karsen Company, Carpet Cushions & Supplies, Inc. and Carpet Cushions & Supplies of Ohio, Inc. were recognized for purposes of eligibility as well as for purposes of vesting and allocations.

.

2. Contributions

   Participants may contribute up to 100% of pre-tax annual compensation (maximum limit of $17,500 in 2014), as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions (maximum limit of $5,500 in 2014). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

   The Company may, at its sole discretion, make matching contributions determined on a pay period basis. For the year ended December 31, 2014, the Company made matching contributions equal to 25% of the first 3% of compensation for each pay period. The employee must be employed on the last day of each pay period to receive the matching contribution.

   The Company may also make a discretionary profit sharing contribution to the Plan at year-end on behalf of all eligible employees. To be eligible an employee must be an active participant on the last day of the plan year and have completed one year of service. No discretionary profit sharing contributions were made during 2014.

Note A - Description of Plan (Cont'd)

3. Participant Accounts and Administration
   Under the terms of the plan agreement, the trustee invests participant contributions and employer matching contributions in several investment funds as specified by the participants. Prior to 2014, employer discretionary profit sharing contributions were invested in several investments as specified by the Plan sponsor. During 2014, the Plan sponsor liquidated the non-participant directed investments relating to the employer discretionary profit sharing contributions. The funds were reallocated to the participants based on their individual investment choices in their accounts. In the future, employer discretionary profit sharing contributions will be invested in the investment funds specified by the participants. Each participant's account is credited with the participant's contribution and allocation of the Company's matching and discretionary contributions and plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeitures may be used to pay administrative expenses of the Plan and to reduce future employer contributions. The plan administrator authorizes all withdrawals of Plan assets and is responsible for the general administration of the Plan and compliance with its provisions. The costs of administering the Plan are borne by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

4. Vesting
   Participants are immediately vested in their contributions plus actual earnings thereon.Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service, as defined. A participant is 100% vested in the matching and discretionary contributions after five years of credited service.

5. Forfeited Accounts
   At December 31, 2014 and 2013, forfeited nonvested accounts totaled $234 and $509, respectively. Forfeitures can be used to reduce future employer contributions or pay for administrative expenses. In 2014, forfeitures of $510 were used to pay administrative expenses.

6. Payment of Benefits
   On termination of service, if the amount exceeds $1,000, a participant may elect to receive one of the following: a lump-sum amount equal to his or her vested account or annual installments over a period which does not exceed the life of the participant or the designated beneficiary. If the amount is $1,000 or less, the Plan will make a lump-sum distribution.

7. Notes Receivable From Participants
   Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years or longer for the purchase of a primary residence. Principal and interest is paid ratably through bi-weekly payroll deductions. The loans bear interest at a rate of 1% above prime rate.

Note B - Summary of Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value except for the life insurance policies which were valued at cash surrender value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Collective Trust

Under accounting principles generally accepted in the United States of America, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in a fully benefit-responsive investment contract held in the Reliance Trust Company Stable Value Fund. As required by generally accepted accounting principles (GAAP), the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2015, the date which the financial statements were available to be issued.

Note B - Summary of Accounting Policies (Cont'd)

Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note C - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

Quoted prices for similar assets or liabilities in active markets.

Quoted prices for identical or similar assets or liabilities in inactive markets.

Inputs other than quoted prices that are observable for the asset or liability.

Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

Note C - Fair Value Measurements (Cont'd)

Mutual funds: Valued at the net asset value of the shares held by the Plan at year end.

Collective Trust: Valued at the net asset value per unit as determined by the manager of the trust. Such net asset value is based on the value of the underlying assets and liabilities of the trust. The investment objective of the trust is to preserve principal and provide a stable return over the life of the investment. Participants may transfer in and out of the trust on a daily basis without prohibitive restrictions.

Common stock: Valued at the closing price reported in the active market in which the individual security is traded.

Corporate bonds: Valued at the closing price reported in the active market in which the bond is traded.

U.S. government securities: Valued at the closing price reported in the active market in which the individual security is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014

* The collective trust is stated at fair value on the statements of net assets available for benefits at December 31, 2014 and 2013.

Note G - Excess Participant Contributions Payable

The Plan failed the discrimination test for the year ended December 31, 2014. Excess contributions amounting to $3,904 are recorded as a liability in the accompanying statements of net assets available for benefits and as a reduction of participant contributions for the year. The Plan expects to reimburse these excess contributions to its participants during 2014.

Note H - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note I - Tax Status

The plan obtained its latest determination letter in July 2010, in which the Internal Revenue Service (IRS) stated that the plan is in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note I - Tax Status (Cont'd)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax period in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note J - Party-In-Interest Transactions

Morgan Stanley Smith Barney is a custodian to the Plan for the non-participant directed investments. Therefore, any fees paid to them are party-in-interest transactions. Fees of $16,032 were paid to Morgan Stanley Smith Barney for the year ended December 31, 2014.

Counsel Trust Company dba Mid Atlantic Trust Company is a custodian to the Plan for the participant directed investments. Therefore, any fees paid to them are party-in-interest transactions. Fees of $2,982 were paid to Counsel Trust Company for the year ended December 31, 2014. Some fees paid by the Plan for administrative services are included in net appreciation of fair value of investments, as they are paid through revenue sharing rather than a direct payment.

The Weiss Group, Inc. provides administrative services to the Plan. Therefore, these are party-in-interest transactions. Fees of $30,491 were paid to The Weiss Group, Inc. for the year ended December 31, 2014.

Shepard Schwartz & Harris, L.L.P. is the auditor of the Plan. Therefore, any fees paid to them are party-in-interest transactions. Fees of $15,000 were paid for the year ended December 31, 2014.

Certain employees of the Company act as a fiduciary of the Plan and are responsible for the administration of the Plan. The employees are compensated by the Company and do not receive any compensation from the Plan.

Note K - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values or investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
