Note 1 - Plan Description

The following description of Cerro Flow Products, LLC (St. Louis Works) Hourly Employees' (USW) Retirement Plan, formerly known as Cerro Flow Products, Inc. (St. Louis Works) Hourly Employees' (USW) Retirement Plan, (the "Plan") provides only general information. Participants should refer to the plan agreement and related union agreements, if applicable, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all hourly employees of Cerro Flow Products, LLC (the "Company") who are members covered by the collective bargaining agreement with the United Steelworkers of America (AFL-CIO). Each employee shall become an active participant on the date of his or her employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions - Contributions by participants are voluntary. Each participant may contribute from his or her eligible compensation for pretax contributions an amount in increments of $0.02 per participant share not to exceed $0.60 per participant share. A participant share is defined as being equivalent to one hour of work performed by an employee (e.g., eight shares accumulated for an eight-hour work day, 40 shares for a 40-hour work week, etc.). The maximum number of hours for which contributions can be made by participants is 2,080 hours. Participants may also make unmatched pretax and after-tax contributions in increments of whole cents per participant share, not to exceed $9.99 per participant share, for each pre-tax and after-tax contribution. Participants age 50 and over may also make catch-up contributions. All employee contributions are subject to applicable Internal Revenue Code (IRC) limits.

There were delinquent contributions of $4,044 during the plan year ended December 31, 2013. The Company corrected the late 2013 contributions with lost earnings in 2014.

The Plan also provides for required employer retirement and matching contributions pursuant to the terms of the collective bargaining agreement. The retirement contributions shall be the sum of $0.95 per hour worked for the period from January 1, 2013 through July 6, 2013, and $1.03 per hour worked for the period from July 7, 2013 through the termination or renegotiation of the collective bargaining agreement, not to exceed 2,080 hours. The matching contributions are 50 percent of the aggregate active participants' 401(k) contributions up to a limit of $0.30 per hour worked, not to exceed 2,080 hours.

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and losses and charged with an allocation of administrative expenses and certain transaction fees. Allocations are based on participants' contributions, hours worked, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan. Plan earnings and losses from investments are credited to individual account balances on a daily basis.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. The Plan also allows in-service withdrawals for participants over age 59½.

Hardship and Nonhardship Withdrawals - The Plan also offers hardship and nonhardship withdrawals. Each withdrawal type has specific requirements for eligibility, as defined by the plan document.

Participant Notes Receivable - In the event of severe financial hardship, participants may borrow a minimum of $1,000 reduced by the highest outstanding balance of notes receivable during the one-year period prior to the date the note receivable is made (but not in excess of 50 percent of the participant's current account balance or $50,000, whichever is less). Participant notes receivable are secured by the balance in the participant's account and bear an interest rate determined in accordance with the plan document. Only one outstanding note receivable is permitted at a time.

Vesting - Participants are immediately 100 percent vested in their voluntary contributions, rollover contributions, the Company's contributions, and any income or loss thereon.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B. or their affiliates. Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B. are the custodians of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Note 1 - Plan Description (Continued)

Forfeitures - If a participant is not fully vested on their termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. Forfeiture balances at December 31, 2014 and 2013 were not material.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. The unallocated insurance contract is a group annuity contract with Prudential Retirement Insurance and Annuity Company (PRIAC) that invests in the general assets of PRIAC. PRIAC considers this contract to be benefit responsive; however, since there are no specific securities in PRIAC's general account related to this contract and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. All other investments are valued based on quoted market prices.

See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company with the exception of certain transaction fees that are paid by the participant at the time of the particular transaction.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 9, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B (collectively, the "Custodians") hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodians.

Significant investments of the Plan at end of year are as follows:

	2014	2013
Pooled separate accounts:		
Dryden S & P 500 Index Fund	$ 2,027,091	$ 2,238,589
Balanced I Fund	1,429,465	1,449,041
Retirement Goal 2020 Fund	1,153,993	920,754
Unallocated insurance contract - Guaranteed Income Fund	9,775,134	10,256,502

Note 4 - Unallocated Insurance Contract

The Plan has a benefit-responsive unallocated insurance contract with PRIAC. PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 4 - Unallocated Insurance Contract (Continued)

Interest is credited on contract balances using a single portfolio rate approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting. When establishing interest credit rates for this product, PRIAC considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 1.5 percent. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

The investment yields related to the unallocated insurance contract are summarized below:

	December 31, 2014	December 31, 2013
Average yield earned by the Plan	1.70%	1.90%
Average yield credited to participants	1.70	1.90

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 5 - Fair Value Measurements (Continued)

(a) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities. The investments may include common stock, options, and futures. There were no unfunded commitments and no redemption limitations or notice periods.

(b) This class represents investments in actively managed pooled separate accounts that invest primarily in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. There were no unfunded commitments and no redemption limitations or notice periods.

(c) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. There were no unfunded commitments and no redemption limitations or notice periods.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Note 6 - Tax Status

The Plan has received a determination letter dated May 22, 2014 from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.
