NOTE A - DESCRIPTION OF PLAN

The following description of Atkinson Candy Company (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the Plan agreement.

1. General. The Plan is a defined contribution plan for all employees of the Company who have completed one year of service (minimum 1,000 hours of service), have reached the age twenty-one or older, and whose terms of employment are not governed by a collective bargaining agreement, are not a nonresident alien or leased employee. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions and Forfeitures. Participants in the Plan may elect to contribute on a pre-tax basis the maximum amount of their compensation allowed under applicable law, as defined by the Plan. Eligible participants not electing otherwise will have 4% of their eligible compensation deducted by the Company as an automatic deferral beginning July 1, 2013. The Company may make matching contributions equal to a discretionary percentage, to be determined by the Company, of the participants' salary reductions. The Company's discretionary match during 2014 and 2013 was 25% of the first 6% of the employee deferral. The Company may also make a discretionary profit sharing contributions. No match is available if not employed at the end of the year. During 2014 and 2013, no discretionary profit sharing contributions were made. Participants may direct the investment of both their pre-tax contributions and the Company's matching contribution into various investment options as described below. A forfeiture is a terminated participant's unvested account balance in the Company match. These forfeitures will be used to reduce the Company's matching contribution or plan expenses in future periods. The activity in the forfeiture account was as follows for the years presented:

Balance December 31, 2012	$ 1 326
Net investment earnings	12
Forfeitures	923
Expenses	(1 720)
Balance December 31, 2013	541
Net investment earnings	2
Forfeitures	69
Expenses	(612)
Balance December 31, 2014	$ -

3. Participant Accounts. Each participant's account is credited with the participant's pre-tax contribution and rollovers, the Company's matching contribution, any allocation of discretionary contributions and the associated gains and losses and fees (income and expenses).

4. Vesting. Participants are immediately vested in their voluntary contributions plus actual gains and losses thereon. Vesting in the company contributions portion of their accounts plus gains and losses thereon is based on years of credited service. A participant is 100 percent vested after six years of credited service.

5. Payment of Benefits. On termination of service due to death, disability, retirement or other reasons, a participant will receive a lump-sum amount equal to the fair market value of the participant's vested interest in his or her account at the time of distribution. The participant may request a distribution at the time of termination, or he or she may elect to leave the account invested in the Plan until a later date if the distribution exceeds $1,000. Current plan rules require that the distributions to terminated participants must generally begin no later than the April first following the year in which the participant reaches age 70 ½.

NOTE A - DESCRIPTION OF PLAN - CONTINUED

6. Investment Options. Upon enrollment in the Plan, a participant may direct both their employee and employer contributions of the 401(k) deferral plan in any of the approved investment options. All of these options are invested in registered investment companies or the AUL Fixed Account.

   Participants may change their investment options daily.

7. Notes Receivable from Participants. Participants may borrow from their vested account balances a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or longer for the purchase of a primary residence. The loans are secured by the remaining balance in the participants account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is generally paid ratably through payroll deductions.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in all material respects.

Security Transactions and Related Investment Income

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Security transactions are accounted for on the trade date (date the order to buy or sell is executed) and dividend income is recorded on the ex-dividend date. The settlement date of the purchase and sale transactions vary depending on the type of security. Interest income is recognized on the accrual basis. Any discount or premium on debt securities is accreted or amortized into interest income. Realized gains and losses from security transactions are calculated on a specific identification basis. Unrealized appreciation and depreciation of investments are reported on an identified cost basis and are included, along with realized gains and losses, in net appreciation in fair value of investments. Interest earned on fully benefit responsive guaranteed investment contracts is recorded on an accrual basis in net investment income.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest is not considered significant for accrual. Therefore, interest on notes receivable from participants is recorded when received. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document therefore no allowance for credit losses is recorded.

Payment of Benefits

Benefits are recorded upon distribution.

Investment Contracts

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute of that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The fully-benefit responsive AUL Fixed Account uses contract value as fair value.

NOTE B - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued.

NOTE C - FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels as follows:

- Level 1 - quoted prices in active markets for identical assets
- Level 2 - other significant observable inputs either directly or indirectly (including quoted prices for similar securities, interest rates, yield curves, credit risk, etc.)
- Level 3 - significant unobservable inputs

The following is a summary of the valuation as of December 31, 2014 and 2013 for the Funds based upon the three levels defined above:

NOTE D - INVESTMENT CONTRACTS

AUL Fixed Account

During 2013, the Plan began providing an option to invest in the American United Life Insurance Company (AUL) Fixed Account. This account is an interest earning investment option backed by the general assets of AUL. The account is guaranteed as to principal and interest by AUL and, therefore, is dependent on the continuing ability to pay by AUL. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The AUL Fixed Account is fully-benefit responsive. Participant initiated transactions are completed without conditions, limits, or restrictions at contract value. Certain payments may be subject to a surrender charge in the event the payment is related to a termination associated with a full or partial plan termination, the insolvency of the plan sponsor, or the aggregate terminations in any contract year that exceed 20% of the full contract value on the first day of the contract year in certain circumstances.

Contract value represents contributions made, plus earnings, less participant withdrawals and any related administrative expenses. Since participants may initiate transactions at contract value, contract value is considered fair value for accounting purposes.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 1.25% and 1.25% for the period of investment during 2013 which was for the approximate period of July 1, 2013 to December 31, 2013 and the year ended December 31, 2014.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE F - TAX STATUS

The Plan is a prototype plan of the plan trustee at December 31, 2014 and has received a favorable determination letter from the Internal Revenue Service dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the internal revenue code. An adoption agreement is prepared to be company specific. The Plan and company related adoption agreements have been amended since receiving the determination letter, however, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, accordingly, is qualified and tax exempt as of the financial statement date. Employees are not taxed currently on contributions and related gains and losses until such amounts are withdrawn from the Plan and distributed.

As of and for the year ended December 31, 2014, the Plan did not have a liability for any uncertain tax positions. The Plan is not subject to Federal tax examinations for years before 2011.

NOTE G - ADMINISTRATION OF PLAN ASSETS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid directly by the Company.

NOTE H - PARTY-IN-INTEREST

At December 31, 2013 and 2014 and during the year ended December 31, 2014, the Plan invested in the AUL Fixed Account which is managed and backed by the general assets of the plan trustee, American United Life Insurance Company. The investment is considered an exception to the Prohibited Transaction Rules of ERISA.

The Plan makes loans available to participants on a nondiscriminatory basis. Since plan participants are employees of the plan sponsor, they are considered parties-in-interest. Loans to plan participants are considered an exception to the Prohibited Transaction Rules of ERISA, since the loans are adequately secured, bear a reasonable interest rate and do not exceed certain limits.

The Plan contains various investment options. Such investments are exposed to various risks such as interest rate, market, and credit risks. Due to these risks, it is at least reasonably possible that changes in the values of plan investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
