Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

The Compensation Committee of
First Financial Bancorp

We have audited the accompanying financial statements of First Financial Bancorp Employees' Pension Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of First Financial Bancorp Employees' Pension Plan and Trust at December 31, 2014, and the changes in its net assets available for benefits for the year then ended, and the financial status of First Financial Bancorp Employees' Pension Plan and Trust at December 31, 2013, and the changes in its financial status for the year then ended, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements

December 31, 2014

NOTE 1: DESCRIPTION OF THE PLAN

The following brief description of the First Financial Bancorp Employees' Pension Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General. The Plan is a defined benefit pension plan covering substantially all associates of First Financial Bancorp (the Bancorp or the Company) and its subsidiaries who meet the age and service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Contributions are made solely by the Bancorp's participating subsidiaries. The Bancorp contributes amounts sufficient to annually fund the Plan's current service cost and prior service cost plus interest. The Plan has met the ERISA minimum funding requirements. No contributions were required during the years ended December 31, 2014 and 2013.

First Financial Bank, National Association (First Financial Bank), a wholly owned subsidiary of the Bancorp, whose associates are also participants in the Plan, was the sole Trustee of the Plan through November 26, 2013. As of December 31, 2013 and December 31, 2014 SEI Private Trust Company (SPTC), a wholly owned subsidiary of SEI Investments, was the sole Trustee of the Plan.

Participating Corporation. The terms of the Plan provide that any corporation which is, or becomes, a subsidiary of the Bancorp may, with consent of the Bancorp, adopt this Plan for those associates which the subsidiary determines to be eligible.

Vesting. Effective January 1, 2014 all active plan participants immediately vest in their benefit, compared to the three year vesting period in effect as of December 31, 2013.

Pension Benefits. The Plan permits early retirement for associates ages 50 to 64 with ten years of vesting service, provided the sum of the associate's age and vesting service is at least 65. Participants may elect to receive pension benefits in the form of lump-sum distributions or monthly annuity payments for specified periods or for life. Participants may elect to receive their annuity payments in the form of a joint and 50%, 66.67%, 75% or 100% survivor annuity or an annuity guaranteed payable for 60, 120, 180 or 240 months. Beginning January 1, 2014, the Pension Plan no longer offers additional benefits for associates with compensation in excess of 50% of the Social Security wage base.

Notes to Financial Statements (continued)

Death and Disability Benefits. If a vested terminated participant dies before retirement, the beneficiary will receive 100% of the cash balance benefit. If the participant dies and is married, the surviving spouse is eligible to receive the survivor portion of the 50% Joint and Survivor Annuity option of the participant's traditional benefit. No traditional benefit is payable to the beneficiary of an unmarried participant.

Participants with at least 15 years of vested service who are no longer able to work for First Financial because of total and permanent disability are entitled to receive their normal retirement benefit under the terms of the Plan beginning on the first date of the month following their normal retirement date.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation. The accompanying financial statements have been prepared on the accrual basis of accounting and in conformity with U.S. Generally Accepted Accounting Principles (GAAP).

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, assumptions and judgments that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual realized amounts could differ materially from those estimates.

Risks and Uncertainties. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Valuation of Investments and Income Recognition. Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits. Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants, (b) beneficiaries of participants who have died, and (c) present participants. Prior to January 1, 2008, benefits under the Plan were based on participants' compensation during their highest consecutive five years of vested service. Effective January 1, 2008, the Plan was amended to convert to a cash balance pension plan. Participants with vested benefits prior to this transition date continue to have a frozen benefit as calculated under the traditional formula, in addition to benefits accrued under the cash balance formula after the transition date.

Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Subsequent Events. Management evaluated subsequent events for the Plan through October 14, 2015, the date the financial statements were available to be issued.

NOTE 3: INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013 are as follows:

	Year ended December 31,	
	2014	2013
SEI Core Fixed Income Fund	\$ 45,955,350	\$ 46,128,677
SEI S&P 500 Index A	29,599,166	N/A
SEI Large Cap Fund	28,561,266	27,450,515
SEI World Equity EX-US Fund	13,466,893	14,842,262
SEI Institutional Managed Trust S&P 500 Index Fund	N/A	27,401,970

During 2014 and 2013, the Plan's investments (including investments purchased, sold and held during the year) appreciated (depreciated) in value as follows:

	Year ended December 31,	
	2014	2013
U.S. Treasury securities	N/A	(206,512)
Securities of U.S. government agencies and corporations	N/A	(22,120)
Corporate bonds	N/A	(243,129)
Common stock	N/A	1,736,283
Mutual funds	7,242,214	583,818
Exchange-traded funds	N/A	14,609,193
	<u>\$ 7,242,214</u>	<u>\$ 16,457,534</u>

NOTE 4: FAIR VALUE MEASUREMENTS

The fair value framework as disclosed in the Fair Value Measurements and Disclosure Topic of FASB ASC Topic 820, Fair Value Measurements, includes a hierarchy which focuses on prioritizing the inputs used in valuation techniques. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1), a lower priority to observable inputs other than quoted prices in active markets for identical assets and

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

liabilities (Level 2) and the lowest priority to unobservable inputs (Level 3). When determining the fair value measurements for assets and liabilities, the Company looks to active markets to price identical assets or liabilities whenever possible and classifies such items in Level 1. When identical assets and liabilities are not traded in active markets, the Company looks to observable market data for similar assets and liabilities and classifies such items as Level 2. Certain assets and liabilities are not actively traded in observable markets and the Company must use alternative techniques, based on unobservable inputs, to determine the fair value and classifies such items as Level 3. The level within the fair value hierarchy is based on the lowest level of input that is significant in the fair value measurement.

The following methods, assumptions and valuation techniques were used by the Company to measure different financial assets and liabilities at fair value and in estimating its fair value disclosures for financial instruments.

Money market funds. Money market funds are valued based on net asset value (NAV) per share. NAV per share represents the amortized cost of the underlying instruments, which approximates fair value.

Mutual funds and exchange traded funds. These investments are valued at the NAV of shares held by the Plan at year-end, and are classified in Level 1 of the fair value hierarchy.

Equity securities-common stock. Equity securities are valued at the closing price reported on the active market on which the individual securities are traded, and are classified in Level 1 of the fair value hierarchy.

U.S. Treasury securities, Securities of U.S. government agencies and corporations, and corporate bonds. These investments are valued using matrix pricing models developed by a third party considering standard input factors such as observable market data, benchmark yields, interest rate volatilities, broker/dealer quotes, credit spreads, and new issue data. Matrix pricing is widely used to value securities without solely relying on quoted market prices for specific securities, and are classified in Level 1 of the fair value hierarchy.

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

NOTE 5: ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is determined by an actuary and is summarized as follows:

	December 31, 2013
Actuarial present value of vested benefits:	
Participants receiving payments	\$ 9,447,987
Participants with deferred benefits	7,419,887
Other participants	23,928,123
Total vested benefits	40,795,997
Actuarial present value of non-vested benefits	436,577
Total Accumulated Plan Benefits	<u>\$ 41,232,574</u>

The changes in accumulated plan benefits for the year ended December 31, 2013 are as follows:

Actuarial present value of accumulated	
benefits at January 1, 2013	\$ 42,892,673
Changes during the year due to:	
Benefits accumulated	2,565,660
Actuarial losses	3,888,535
Increase for interest due to the decrease in the	
discount period	2,978,490
Actual benefits paid	(11,490,270)
Assumption changes	397,486
Net decrease	<u>(1,660,099)</u>
Actuarial present value of accumulated	
benefits at December 31, 2013	<u>\$ 41,232,574</u>

Significant actuarial assumptions used in the valuations were (a) life expectancy of participants based upon the RP-2014 Employee Mortality tables for males and females projected generationally with scale MP-2014 for participants not in payment, including active and deferred vested participants; and RP-2014 Annuitant Mortality Tables for males and females projected generationally with scale MP-2014 for participants in-payment except for lump-sum payments. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

For lump sum payments, the actuarial present value of accumulated plan benefits is computed on the basis of the mortality table prescribed for purposes of Section 417(e)(3)(B) of the Internal Revenue Code, as set forth in IRS Notice 2013-85, and an interest rate equal to the three-segment average rates used for the Pension Protection Act valuation.

Effective January 1, 2014, the actual conversion basis for lump sum payments is the mortality table prescribed in Revenue Ruling 2001-62, and an interest rate of 7.50% per year unless the mortality table prescribed for purposes of Section 417(e)(3)(B) of the Internal Revenue Code, as set forth in IRS Notice 2013-49, and the applicable interest rate prescribed in Section 417(e)(3)(C) of the Internal Revenue Code produces a higher lump-sum benefit. For 2014, the applicable interest rates are the three-segment rates for November 2014 (1.40% for first five years, 3.88% for the next fifteen years and 4.96% thereafter).

NOTE 6: PLAN TERMINATION

Although it has not expressed intentions to do so, the Bancorp has the right under the Plan to discontinue the contributions of any participating Bancorp subsidiary at any time and to amend or terminate the Plan subject to the provisions set forth in ERISA. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

NOTE 7: INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 3, 2013 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken.

The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8: ADMINISTRATIVE EXPENSES

The Plan incurs administrative expenses directly related to the Plan which consist primarily of actuarial fees, PBGC fees and miscellaneous professional fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other expenses are paid by the Company on behalf of the Plan.

NOTE 9: RELATED PARTY TRANSACTIONS

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. The Plan is not charged for administrative services performed on its behalf by the Bancorp.

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married.

Spouse age

Male spouses are assumed to be 3 years older than female spouses.

Covered pay

Plan Compensation is W-2 earnings provided by the employer for the prior year adjusted by the compensation increase rate.

Administrative expenses

\$630,291

Calculation of cash balance accounts

Future cash balances based on the pre-2014 formula are determined based upon a crediting rate equal to the first segment rate as of the valuation date (1.25%).

Future cash balances based on the post-2013 formula are based upon the same interest rate or rates used to discount the liability.

Calculation of lump sum

100% of active participants are assumed to receive an immediate lump sum when they retire. 100% of terminated vested participants and active participants who become terminated vested participants are assumed to receive a lump sum payment once they reach their normal retirement age.

Lump sums were valued using the general rule under Proposed IRC §1.430(d)-1(f)(4) without application of generational mortality and without recognition of the phase-in of IRC §417(e)(3) assumptions. The PPA 2014 unisex optional combined mortality and January segment rates are used to determine lump sums.

SCHEDULE SB ATTACHMENTS

Participant data	Participant data was supplied by Milliman as of the valuation date.
Tax policy	The actuarial valuation performed for the plan year ending December 31, 2014 is used to determine the maximum deductible contribution for the tax year ending December 31, 2014.
PBGC premium funding target	For purposes of determining the PBGC Premium Funding Target in Section 2.2.D, the Standard Premium Funding Target was determined using the assumptions described above, except the three-segment interest rates for December 2013 were used instead of the above interest assumption.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets</p>

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with First Financial Bancorp regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with First Financial Bancorp and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in assumptions and methods since prior valuation

The following changes in assumptions and methods were made as part of this valuation:

- ▶ The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2013 to January 2014 and were subsequently revised by applying the corridors of HATFA.
- ▶ The required mortality tables used to calculate the funding target and target normal cost were updated to include one additional year of projected mortality improvements.
- ▶ The assumed plan expenses changed from \$325,000 for the 2013 plan year to \$630,291 for the 2014 plan year.
- ▶ There have been no changes in the methods since the prior valuation.

NOTE 4: FAIR VALUE MEASUREMENTS

The fair value framework as disclosed in the Fair Value Measurements and Disclosure Topic of FASB ASC Topic 820, Fair Value Measurements, includes a hierarchy which focuses on prioritizing the inputs used in valuation techniques. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1), a lower priority to observable inputs other than quoted prices in active markets for identical assets and

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married.

Spouse age

Male spouses are assumed to be 3 years older than female spouses.

Covered pay

Plan Compensation is W-2 earnings provided by the employer for the prior year adjusted by the compensation increase rate.

Administrative expenses

\$630,291

Calculation of cash balance accounts

Future cash balances based on the pre-2014 formula are determined based upon a crediting rate equal to the first segment rate as of the valuation date (1.25%).

Future cash balances based on the post-2013 formula are based upon the same interest rate or rates used to discount the liability.

Calculation of lump sum

100% of active participants are assumed to receive an immediate lump sum when they retire. 100% of terminated vested participants and active participants who become terminated vested participants are assumed to receive a lump sum payment once they reach their normal retirement age.

Lump sums were valued using the general rule under Proposed IRC §1.430(d)-1(f)(4) without application of generational mortality and without recognition of the phase-in of IRC §417(e)(3) assumptions. The PPA 2014 unisex optional combined mortality and January segment rates are used to determine lump sums.

Participant data	Participant data was supplied by Milliman as of the valuation date.
Tax policy	The actuarial valuation performed for the plan year ending December 31, 2014 is used to determine the maximum deductible contribution for the tax year ending December 31, 2014.
PBGC premium funding target	For purposes of determining the PBGC Premium Funding Target in Section 2.2.D, the Standard Premium Funding Target was determined using the assumptions described above, except the three-segment interest rates for December 2013 were used instead of the above interest assumption.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets</p>

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with First Financial Bancorp regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with First Financial Bancorp and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in assumptions and methods since prior valuation

The following changes in assumptions and methods were made as part of this valuation:

- ▶ The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2013 to January 2014 and were subsequently revised by applying the corridors of HATFA.
- ▶ The required mortality tables used to calculate the funding target and target normal cost were updated to include one additional year of projected mortality improvements.
- ▶ The assumed plan expenses changed from \$325,000 for the 2013 plan year to \$630,291 for the 2014 plan year.
- ▶ There have been no changes in the methods since the prior valuation.

SCHEDULE SB ATTACHMENTS

Maximum on benefits and pay All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

The additional 4% Service Credits applicable solely to the portion of compensation in excess of 50% of the contribution and benefits base ("Excess Compensation") under section 230 of the Social Security Act were discontinued beginning January 1, 2014.

Market-based interest credits for future service credits will be provided based on the annual rate of return for a hypothetical investment portfolio that is invested in 40% in the S&P 500 Index and 60% in the Barclays U.S. Aggregate Bond Index.

The eligibility requirements for new hires and part-time employees have been revised to reflect participation eligibility on the first day of any calendar month after completion of 1,000 hours of service during a year and attainment of age 21 (previously on January 1 or July 1 following completion).

Vesting is now immediate.

Substantive Commitment

None.
