American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

1. Description of Plan

The following description of the American Tire Distributors, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by American Tire Distributors, Inc., and related employers, as follows: California Tire Company; The Speed Merchants, Inc.; ILCO Logistics Corporation; T.O. Haas Tire Co.; T.O. Haas Holding Co.; Target Tire, Inc.; Texas Market Tire; Wholesale Tire Distributors, Inc.; Wholesale Tire Distributors of Idaho, Inc.; Wholesale Tire Distributors of Wyoming, Inc.; Silver State Tire Company, Inc.; and Samaritan Tire. These companies are collectively referred to as "the Employer." The Plan was established under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") which includes a qualified deferred arrangement as described in Section 401(k) of the IRC for the benefit of the employees of the Employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective November 1, 2014, the Hercules Tire & Rubber Company 401(k) Profit Sharing Plan and the Terry's Tire Town, Inc. Salary Savings Profit Sharing Plan were merged into the Plan, resulting in the transfer of net assets of \$20,968,351. Participants who transferred from these plans were credited with predecessor employer service for eligibility and vesting purposes.

Eligibility

An employee is eligible for participation in the Plan upon completion of three months of service and attainment of age 18. Employees who are leased or covered under a collective bargaining agreement are excluded from participating. Plan entry occurs on the first day of the month immediately following satisfaction of eligibility requirements.

Contributions

The amount of contributions for any Plan year will be equal to the sum of the following:

- a) Participants may contribute up to 100 percent of their eligible compensation. Participants may elect a separate contribution percentage on bonus compensation. Participants are automatically enrolled at 4 percent deferral contribution upon attainment of the eligibility requirements, unless the Plan Administrator receives signed written documentation from the participant before this date to do otherwise. Automatic enrollment deferral contributions are increased by 1 percent each year subsequent to enrollment up to 6 percent. In August 2014, the Plan was amended to increase the limit of the automatic enrollment percent to 10 percent.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

- b) The Employer may contribute a discretionary matching contribution as a percent of eligible compensation deferred by participants. An employee is eligible to receive discretionary matching contributions upon completion of twelve months of service. Catch-up contributions are not eligible for matching contributions. For 2014, the Employer contributed 50 percent of the first 6 percent of eligible compensation deferred by participants.
- c) A profit sharing contribution may also be made at the discretion of the Board of Directors of American Tire Distributors, Inc. Participants must have performed 1,000 hours of service and be employed on the last day of the plan year, except in the event of death, disability or retirement during the year, to be eligible for the profit-sharing contribution. No profit sharing contribution was made for 2014.

Contributions are subject to certain regulatory limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer contributions, and an allocation of plan earnings and fees thereon. Allocations are based upon participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Contributions may be invested in several investment options, as directed by the participant. The Plan currently offers a group annuity contract and mutual funds as investment options.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contributions is based on the following schedule:

<i>Years of Service</i>	<i>Vesting Percentage</i>
1	40
2	60
3	70
4	80
5 or more	100

Different vesting schedules may apply to certain participants as described in the Plan document due to prior plan provisions.

Notes Receivable from Participants

Participants may borrow from a minimum of \$1,000 up to a maximum of 50 percent of the participant's vested account balance, not to exceed \$50,000. Each participant is permitted to have a maximum of one loan outstanding at any time. The maximum term of repayment for loans, other than those utilized to purchase a primary residence, is five years. The loans are secured by the balance in the participant's vested account and bear interest at prime plus one percent. Principal and interest are paid ratably through payroll deductions. Participant loan interest rates ranged from 4.25 percent to 9.00 percent during 2014.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

Payment of Benefits

Participants may receive benefits upon termination of service, retirement (age 60), death, or disability. Effective November 2014, the Plan was amended to reduce the normal retirement age to age 59½. A participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or equal annual installments over a period of not more than the participant's assumed life expectancy. For participants who have account balances of less than \$1,000 as of the date of termination of service, the Employer may automatically distribute the participant's account with a lump-sum payment or for balances between \$1,000 and \$5,000, the Employer may automatically rollover the participant's account to a qualified retirement account.

Participants may receive in-service withdrawals in the form of hardship distributions from the participant's deferral contribution account only, subject to a \$500 minimum. Participants may also receive in-service withdrawals upon attainment of age 59½ from their vested account balance.

Forfeitures

Forfeited nonvested amounts are first used to pay for plan administrative expenses and then used to reduce Employer contributions. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$86,960 and \$69,702, respectively. During 2014, \$137,935 in forfeitures was used to reduce the Employer's matching contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisor and Fidelity Management Trust Company. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

Notes Receivable from Participants

Notes receivables from participants are participant loans measured at the unpaid principal balance plus unpaid accrued interest. The Plan considers a loan defaulted if any repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During 2014, \$323,380 was recorded as deemed distributions. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Administrative Expenses

Administrative fees paid by the Plan consist of loan and other maintenance fees which totaled \$58,390 in 2014. Investment management fees are recorded net of appreciation (depreciation) in the fair value of investments in the statement of changes in net assets available for benefits. The Employer pays for all other administrative fees of the Plan.

Recently Issued Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (Subtopic 835-30)*. ASU No. 2015-07 aims to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2015, and is to be applied retrospectively, with early adoption permitted. The Plan is currently evaluating the future impact of adopting this ASU.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

In July 2015, the FASB released ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965)*. This amendment removes the requirement to report fully-benefit responsive investment contracts at fair value with an adjustment to contract value. Under the amendment, fully-benefit responsive investment contracts are measured, presented, and disclosed only at contract value. In addition, this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) by individual investment type, and (iii) investment information disaggregated based on the nature, characteristics and risks. This amendment is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Plan management does not believe adoption of this ASU will have a significant impact on future financial statements.

Payment of Benefits

Benefits are recorded when paid.

Investments that represent 5 percent or more of the Plan's net assets are separately identified in the following table:

<i>December 31,</i>	2014	2013

5. Fair Value Measurements

Accounting Standards Codification ("ASC") 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

There have been no changes in the valuation methodologies used at December 31, 2014 and 2013. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Mutual funds represent investments with various investment managers. The mutual funds are valued at the daily closing net asset value as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group Annuity Contract: In October 2012, the Plan entered into a group annuity contract ("GAC") with New York Life Insurance Company ("NYLIC"). NYLIC guarantees the principal and accumulated interest on the GAC, which is supported by the assets in a pooled separate account, specifically NYLIC's Pooled Separate Account No. 25. The GAC is designed to be a stable value investment contract that trades at a static net asset value of \$1. The GAC accrues interest daily based on interest rates that are determined quarterly. The GAC is reported at contract value, which approximates fair value. Fair value is estimated based on the prorata share of the fair value of the holdings in the pooled separate account. Participants may trade daily at contract value. Contract value equals contributions and credited interest less withdrawals from the GAC. Participants are subject to a 90 day limitation on transfers to competing funds. The Plan may be subject to a 12 month advance notice and market value adjustment in the case of termination of the contract. As of December 31, 2014, there are no intentions to terminate the GAC. The GAC is considered fully benefit responsive as defined by ASC 962, *Plan Accounting- Defined Contribution Pension Plans*. During 2014, the net crediting interest of the GAC ranged from 0.42 to 0.44 percent (0.53 to 0.55 percent less 0.11 percent expense charge).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The significance of transfers between levels was evaluated based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no significant transfers in or out of levels 1, 2 or 3.

Notes to Financial Statements

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

7. Tax Status

The Internal Revenue Service has determined and informed the record-keeper by letter dated March 31, 2008, that the Plan prototype and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has since been amended. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and accordingly was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Related Party and Party-In-Interest Transactions

Certain plan investments consist of shares of mutual funds and units of a CCT managed by Fidelity Management Trust Company. Administrative fees paid to Fidelity Management Trust Company during 2014 totaled \$58,390. Fees paid by the Plan for the investment management are included in net appreciation/depreciation in fair value of the investments. Fidelity Management Trust Company is the trustee of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Notes receivable from participants also qualify as exempt party-in-interest transactions.

9. Risks and Uncertainties

The Plan invests in various investments including mutual funds and a group annuity contract. Investments, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
