NOTE 1: DESCRIPTION OF PLAN

The following description of the Integrative Nutrition and affiliated companies (the "Company" or "Sponsor" or "Employer") 401(k) Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan covering all full-time employees of the company who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, "ERISA."

Contributions

Each year pre-tax contributions by participants are limited by the Plan document and IRS regulations. The Plan limits were $17,500 in both 2014 and 2013. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual fund investment options for participants. For the year ended December 31, 2014, the company made a safe harbor contribution of 100 percent of the first 5 percent of base compensation that a participant contributed to the plan. The Company has the option to make a profit sharing contribution which will be made at the discretion of the Company's management. For the year ended December 31, 2014, there was no profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions and employer safe harbor contributions, plus actual earnings thereon. Vesting in the company's profit sharing contributions, if any, is based on years of continuous service. For periods beginning prior to October 1, 2012, a participant is 100% vested after two years of credited service. For periods beginning after October 1, 2012, a participant is vested 25 percent for less than a year of service, 50 percent after one year of service and fully vested after two years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at prime plus 2%, and are generally payable in installments over periods ranging from one to five years (unless the loan is used for the purchase of a primary residence, in which case the repayment period will be determined at the time the loan is made). Principal and interest is paid ratably through monthly payroll deductions. A loan that is considered in default is reported as a deemed distribution which is a taxable event for the participant.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants (Continued)

At December 31, 2014 and 2013, there were no outstanding notes receivable from participants.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2014 and 2013 the Plan does not have a forfeiture balance.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrators determine the Plan's valuation policies utilizing information provided by the investment advisers and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the plan are paid directly by the Company and excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The plan has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

NOTE 3: INVESTMENTS – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE AS COMPLETE AND ACCURATE

The following presents investments that represent 5 percent or more of the plan's net assets.

	2014	2013
Mutual Funds:		
Vanguard Target Ret 2050 Inv	$ 745,370	$ 431,104
Vanguard Target Ret 2045 Inv	710,060	555,703
Vanguard Target Ret 2040 Inv	269,402	172,859
Vanguard Target Ret 2035 Inv	-	232,946
Vanguard 500 Index Inv	265,721	148,910
Vanguard Target Ret 2020 Inv	256,594	188,928
Less than 5 percent	1,489,080	763,209
Total investments	$ 3,736,227	$ 2,493,659

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $170,360. Dividend income earned during the year was $69,258.

NOTE 4: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds:

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013.

	Assets at Fair Value as of December 31, 2014

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no transfers.

NOTE 5: RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Plan investments are shares of mutual funds managed by The Vanguard Group, Inc. ("Vanguard"). Vanguard is the third party administrator as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Dividend income received by the Plan is net of fees charged to the mutual funds by the Trustee or its affiliates. Fees incurred by the plan for the investment management services are included with the net appreciation in fair value of the investment. The Plan Sponsor pays directly any other fees, related to the Plan's operation.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

NOTE 7: TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401 (a).

The plan has not received a determination letter specified to the plan itself, however, the plan administrator believes that the plan was designed and was being operated in compliance with the applicable requirements of the IRC, and therefore believes that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service.

The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8: RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9: PROHIBITED TRANSACTION - PARTICIPANTS' CONTRIBUTION REMITTANCES

In accordance with the Department of Labor's Regulation 2510.3102, an employer is required to segregate participants' contributions from its general assets as soon as practical, but in no event more than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages for a pension benefit plan such as the 401 (k) Plan. The Employer failed to remit participants' contributions withheld in six out of twelve months during the year ended December 31, 2012, and has applied for correction under the Voluntary Fiduciary Correction Program ("VFCP"). Similarly, during the year ended December 31, 2013, there were two out of twelve months that the Employer failed to timely remit participant contributions to the Plan, one of which was included in the application for correction under the VFCP while the other was corrected outside of the VFCP. The prior year late remittances were corrected during the year with assistance from the third party administrator. The Sponsor has received verification from the DOL that the late remittances have been resolved.

In addition, there was a late remittance during the year ended December 31, 2014 that will be corrected outside of the VFCP. The Plan Sponsor will file a Form 5330, Return of Excise Taxes Related to Employee Benefit Plans. The excise tax payments will be made from the Plan's sponsor's assets. Participant accounts will be credited with the lost earnings which would have been earned had participant contributions been remitted on a timely basis. The Employer has agreed to absorb any costs incurred by the Plan as a result of the untimely remittance of the participants' accounts.

NOTE 1: DESCRIPTION OF PLAN

The following description of the Integrative Nutrition and affiliated companies (the "Company" or "Sponsor" or "Employer") 401(k) Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan covering all full-time employees of the company who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, "ERISA."

Contributions

Each year pre-tax contributions by participants are limited by the Plan document and IRS regulations. The Plan limits were $17,500 in both 2014 and 2013. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual fund investment options for participants. For the year ended December 31, 2014, the company made a safe harbor contribution of 100 percent of the first 5 percent of base compensation that a participant contributed to the plan. The Company has the option to make a profit sharing contribution which will be made at the discretion of the Company's management. For the year ended December 31, 2014, there was no profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions and employer safe harbor contributions, plus actual earnings thereon. Vesting in the company's profit sharing contributions, if any, is based on years of continuous service. For periods beginning prior to October 1, 2012, a participant is 100% vested after two years of credited service. For periods beginning after October 1, 2012, a participant is vested 25 percent for less than a year of service, 50 percent after one year of service and fully vested after two years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at prime plus 2%, and are generally payable in installments over periods ranging from one to five years (unless the loan is used for the purchase of a primary residence, in which case the repayment period will be determined at the time the loan is made). Principal and interest is paid ratably through monthly payroll deductions. A loan that is considered in default is reported as a deemed distribution which is a taxable event for the participant.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants (Continued)

At December 31, 2014 and 2013, there were no outstanding notes receivable from participants.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2014 and 2013 the Plan does not have a forfeiture balance.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrators determine the Plan's valuation policies utilizing information provided by the investment advisers and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the plan are paid directly by the Company and excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The plan has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

NOTE 3: INVESTMENTS – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE AS COMPLETE AND ACCURATE

The following presents investments that represent 5 percent or more of the plan's net assets.

	2014	2013
Mutual Funds:		
Vanguard Target Ret 2050 Inv	$ 745,370	$ 431,104
Vanguard Target Ret 2045 Inv	710,060	555,703
Vanguard Target Ret 2040 Inv	269,402	172,859
Vanguard Target Ret 2035 Inv	-	232,946
Vanguard 500 Index Inv	265,721	148,910
Vanguard Target Ret 2020 Inv	256,594	188,928
Less than 5 percent	1,489,080	763,209
Total investments	$ 3,736,227	$ 2,493,659

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $170,360. Dividend income earned during the year was $69,258.

NOTE 4: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds:

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no transfers.

NOTE 5: RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Plan investments are shares of mutual funds managed by The Vanguard Group, Inc. ("Vanguard"). Vanguard is the third party administrator as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Dividend income received by the Plan is net of fees charged to the mutual funds by the Trustee or its affiliates. Fees incurred by the plan for the investment management services are included with the net appreciation in fair value of the investment. The Plan Sponsor pays directly any other fees, related to the Plan's operation.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

NOTE 7: TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401 (a).

The plan has not received a determination letter specified to the plan itself, however, the plan administrator believes that the plan was designed and was being operated in compliance with the applicable requirements of the IRC, and therefore believes that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service.

The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8: RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9: PROHIBITED TRANSACTION - PARTICIPANTS' CONTRIBUTION REMITTANCES

In accordance with the Department of Labor's Regulation 2510.3102, an employer is required to segregate participants' contributions from its general assets as soon as practical, but in no event more than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages for a pension benefit plan such as the 401 (k) Plan. The Employer failed to remit participants' contributions withheld in six out of twelve months during the year ended December 31, 2012, and has applied for correction under the Voluntary Fiduciary Correction Program ("VFCP"). Similarly, during the year ended December 31, 2013, there were two out of twelve months that the Employer failed to timely remit participant contributions to the Plan, one of which was included in the application for correction under the VFCP while the other was corrected outside of the VFCP. The prior year late remittances were corrected during the year with assistance from the third party administrator. The Sponsor has received verification from the DOL that the late remittances have been resolved.

In addition, there was a late remittance during the year ended December 31, 2014 that will be corrected outside of the VFCP. The Plan Sponsor will file a Form 5330, Return of Excise Taxes Related to Employee Benefit Plans. The excise tax payments will be made from the Plan's sponsor's assets. Participant accounts will be credited with the lost earnings which would have been earned had participant contributions been remitted on a timely basis. The Employer has agreed to absorb any costs incurred by the Plan as a result of the untimely remittance of the participants' accounts.
