1. Summary of Significant Plan Provisions

The following description of the Trillium Farm Holdings, LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

- a. **General** – The Plan is a defined contribution plan for the benefit of the employees of Trillium Farm Holdings, LLC (the “Employer”). The Plan was established on January 1, 2014. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).
- b. **Eligibility** – Employees are allowed to enter the Plan on the first day of the month following completion of three months of service and attaining 21 years of age.
- c. **Contributions** – Participants may contribute through payroll deductions and eligible rollover contributions. Participants may elect to contribute 1% to 90% of their compensation. The Employer will make a matching contribution equal to 50% of the first 6% of the participant’s contributions. The Plan contains provisions as to the maximum annual additions that can be made to a participant’s account.
- d. **Participant accounts** – Each participant’s account is credited with the participant’s contributions and allocations of (a) the Employer’s contributions and (b) Plan earnings/losses and is charged with applicable withdrawals and an allocation of any administrative expenses. Allocations are based on participant earnings, contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.
- e. **Vesting** – The benefits attributable to a participant shall be fully vested upon retirement, death or disability. If a participant terminates employment other than because of their death, disability or retirement, they are entitled to the total value of their own contributions and earnings/losses thereon, plus a vested percentage of Employer contributions and earnings/losses thereon. The Plan’s vesting schedule is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years of more	100%

- f. **Investment options** – Upon enrollment in the Plan, participants may direct their contributions to any of the investment options offered under the Plan. Participants may change their investment selections at any time.

1. Summary of Significant Plan Provisions (cont.)

- g. **Notes receivable from participants** – Participants may borrow from their vested account balance, a minimum of \$500 up to maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance during the previous one-year period. The loans are collateralized by the balance in the participant's account and bear interest at PRIME plus 2%. Note terms range from one to five years unless the note is used to acquire the participant's primary residence for which the term can be extended to no more than 30 years. Principal and interest are paid ratably through payroll deductions.
- h. **Payment of benefits** – Upon termination of service with the Employer, a participant may elect to receive a lump sum or annuity equal to the value of the participant's vested interest in their account. A participant, upon termination of employment, may also elect to defer payment of their account balance if it exceeds \$5,000. If a terminated participant's account balance is equal to or less than \$5,000, the account will be automatically distributed. In-service withdrawals are available to participants who have met certain hardship requirements or have attained age 59½.
- i. **Termination of the Plan** – Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

- a. **Basis of accounting** – The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.
- b. **Estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.
- c. **Investment valuation and income recognition** – Investments are reported at fair value. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Change in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

- d. **Notes receivables from participants** – Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid, interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Notes to Financial Statements

December 31, 2014

2. Summary of Significant Accounting Policies

- e. **Payment of benefits** – Benefits are recorded when paid.
- f. **Administrative expenses** – During the year ended December 31, 2014, substantially all administrative expenses of the Plan were voluntarily paid by the Employer.

3. Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by State Street Bank and Trust Company ("State Street"), the trustee of the Plan, and was not subjected to any audit procedures, except for comparing the information with the related information included in the financial statements and supplemental schedule:

- a. Total investments as shown in the accompanying statement of net assets available for benefits of \$836,936 as of December 31, 2014.
- b. Interest and dividends as shown in the accompanying statement of changes in net assets available for benefits of \$29,053 (excluding \$903 of interest from notes receivable from participants) for the year ended December 31, 2014.
- c. Net change in fair value of mutual funds as shown in the accompanying statement of changes in net assets available for benefits of \$20,071 for the year ended December 31, 2014.
- d. All investment transactions that occurred during the Plan year ended December 31, 2014.
- e. All information included in the supplementary schedule, excluding participant loans.

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014:

T. Rowe Price	
Retirement 2010 Fund	\$ 76,164
Retirement 2015 Fund	189,860
Retirement 2025 Fund	341,844

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Notes to Financial Statements**December 31, 2014****4. Fair Value Measurements**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is categorized based on a hierarchy that gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014:

Money market account: This investment is valued at the fair value of the underlying investments. The underlying investments' objective is to achieve \$1 per share value.

Mutual funds: These investments are valued at quoted market prices on the last business day of the Plan year.

Common collective trust funds: These investments are valued based on the net asset value ("NAV") of units held by the Plan at year end, as calculated by the issuer. The NAV is calculated based on the fair value of the underlying assets owned by the fund, minus its liabilities, divided by the number of shares outstanding.

Notes to Financial Statements

December 31, 2014

4. Fair Value Measurements (cont.)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Notes to Financial Statements**December 31, 2014****4. Fair Value Measurements (cont.)**

*The funds are primarily invested in investment contracts and other short-term investments. The funds' primary investment objectives are the preservation of principal and to provide interest income under prevailing market conditions and rates. At December 31, 2014, this class of investments included 98% common stock and 2% short-term investments.

5. Tax Status

The prototype plan document the Plan is utilizing received an opinion letter dated March 31, 2008, in which the Internal Revenue Service ("IRS") stated the document is designed in accordance with the applicable requirements of the Internal Revenue Code ("IRC"). As permitted by the IRS, the Plan is relying on the opinion letter on the prototype plan document for its own qualification. Although the prototype plan document has been amended since receiving the opinion letter, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

6. Parties-in-Interest Transactions

The Plan was invested in investments of \$31,142 issued by State Street Global Advisors. The Plan paid State Street \$375 for their services for the year ended December 31, 2014. Inasmuch as State Street serves as trustee of the Plan, they are by definition a party-in-interest. In addition, the Plan holds notes receivable from participants. As a result, these notes receivable and all related transactions were with parties-in-interest. All of these transactions are exempt from being prohibited transactions by ERISA.

7. Subsequent Events Evaluation Date

Management of the Plan evaluated the events and transactions subsequent to its December 31, 2014 financial statement date and determined there were no significant events necessary for disclosure through October 14, 2015, which is the financial statement issuance date.
